Proceedings of the Madras Government, Public Department,

16th January 1866.

No. 47. Read the following letter from the Chemical Examiner, Madras, to the Chief Secretary to Government, Fort Saint George ; dated Madras, 3rd January 1866, No. 1.

My duties as Chemical Examiner have, during the past two years, increased to such an extent that, in order to be able to devote myself to the analytical work, I have been compelled to employ a Writer at my own expense. I would, therefore, solicit the favor of Government granting me either a small office allowance, to include cost of stationery, say (20) twenty Rupees per mensem, or else sanctioning the employment of a Writer, in addition to my present establishment of one Lascar. In support of my application, I beg, herewith, to submit a brief statement of the work which has devolved upon me during the past three months. In this short period, 26 Judicial cases of suspected poisoning have been submitted for examination and report. Many of these necessitated several analyses ; all occupied time—many of them several days. In addition to this, samples of metal, acids, &c., from the Ordnance Department, have been sent for assay, and report upon their quality—Medicines from the Medical Stores, samples of Porter from the Commissariat Department, and several waters from different stations, &c. ; in fact the work has been continuous, and it would have been impossible for me also to have undertaken the copying out of my own reports, their entry into the records, and the usual monthly and annual papers, Budget, &c., without neglecting the more important duty of analysis.

2. Under these circumstances, I trust the Government will not consider my application an unreasonable one, but will give it a favorable consideration.

No. 48. ORDER THEREON, 16th January 1866, No. 48.

In consideration of the duties devolving on the Chemical Examiner, as detailed in the foregoing letter, the Governor in Council authorizes him to draw an office allowance of Rupees (20) twenty per mensem, to include the cost of stationery, and directs that the same be entered in the monthly statement of fresh charges forwarded to the Government of India, with a request that the allowance may be sanctioned as a permanent charge.
