Read the following papers:—

No. 29. From the Secretary to the Committee of the Combaconum Civil Dispensary, to the Chief Secretary to Government, Fort Saint George; dated Combaconum, 13th June 1866, No. 9.

I am directed by the Committee of the Combaconum Civil Dispensary to bring to the notice of Government that the ground made over to them under the Order of Government, dated 19th June 1865, No. 649, is insufficient for the erection of the buildings proposed in connection with the new Dispensary. This ground, which was the site actually occupied by the buildings of the old Jail, measures 1 acre and 10½ goontahs, and, if confined within its limits, the Dispensary buildings would be very inconveniently cramped; and the Committee, therefore, solicit that the Government will be pleased to grant to them, in addition, the surrounding ground, which formed the compound of the Jail, and of which a sketch is enclosed. The ground now solicited is 4 acres 29½ goontahs in extent, and of but small value, as it only yields to Government a rent of 28 Rupees per annum.

2. I am directed, also, to request that the Government will be pleased to reconsider the 2nd paragraph of their Order above referred to, regarding the grant of the Jailer's house to the Committee. They venture to make this request, as the house is not at present, and never has been since the abolition of the Jail, occupied by Government, and is very conveniently situated for the residence of the Medical Officer in charge of the Dispensary, as will appear from the accompanying sketch.

No. 30. From the Officiating Collector of Tanjore, to the Acting Chief Secretary to Government, Fort Saint George; dated Point Calimere, 12th July 1866, No. 746.

In reply to your Memorandum, dated 21st June, I have the honor to state that I see no objection to the ground asked for being made over to the Hospital. In fact I would strongly advocate this concession being granted, as it is very essential there should be free ventilation, and an open space around the Hospital, more especially in a place like Combaconum, which I remember Dr. H. E. Busteed, in a letter to Sir Charles Trevelyan, characterized as "a town rife with all the elements of disease."

No. 31. ORDER THEREON, 6th August 1866, No. 776.

As the site of the old Jail at Combaconum is represented to be too limited to admit of the erection of the buildings proposed for the new Dispensary, the Governor in Council sanctions the transfer to the Committee, in addition, of the whole of the adjoining compound, as described in the sketch submitted.

2. On further consideration, the Governor in Council authorizes the Collector to make over the Jailer's house, likewise, to the Committee.

3. It is distinctly to be understood that, having obtained these concessions, the people of Combaconum must bear all expenses for the future maintenance and repair of the Dispensary buildings.
