Proceedings of the Madras Government, Public Department,
4th September 1866.

No. 11. Read the following letter from the Acting Inspector General of Ordnance and Magazines, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 28th August 1866, No. 117.

Ordnance Department.

With reference to paragraphs 10 and 13 of Proceedings of Government, in the Public Department, No. 331, dated 30th March 1866, I have the honor to state, for the information of Government—

I.—That the Office Establishments of Ordnance Officers were transferred to the Government Service on the 1st May 1865. There was, therefore, no time for the issue of instructions to guide Ordnance Officers in the preparation of their Indents for stationery for the year 1865-66. Instructions have, since the receipt of the Order of Government, quoted above, been issued (Vide Circular attached); and if the requisitions of Ordnance Officers are prepared in conformity with these instructions, there is every reason to entertain the hope that they will be found correct.

II.—That the forms in use in this Department are indetical in all Arsenals, Magazines, Depôts, &c., consisting of Returns, &c., of a technical character. These are furnished from the Press attached to this Office.

CIRCULAR MEMO.

INDENT DEPARTMENT.

Adverting to Circular Memo. No. 9030 dated 10th February 1866, the Inspector General of Ordnance and Magazines, considers it necessary, in consequence of delays which ensue in having the Arsenal &c. supplied annually with Stationery and Stationery articles on the due date, to direct the attention of Ordnance Officers to the rules in force, relating to the preparation of Annual Indents for Stationery supplies.

Fort Saint George Gazette.

Dated 1st March 1864, page 373.

" " 27th February 1864, page 332.

2. The irregular transmission of these Indents, which in several instances are found to require revision, retard the preparation of the General Indent of the Department, in which, as Ordnance Officers are aware, the minor Indents are embodied.

3. The Minor Indents are in some instances prepared without due consideration of the strength of establishment, and average amount of work to be performed, with reference to which data, the annual expenditure of stationery should be calculated. The consequence is that quantities indented for, are found considerably in excess of actual requirements.

4. It has been discovered also that paper of certain superior descriptions are included in the requisitions of Ordnance Officers, for the use of which there appears no absolute necessity, and may be dispensed with.

5. The supplies of stationery annually indented for, being computed for the Official year, which by a recent Order of Government communicated in Circular Memo. No. 1001 dated 10th July 1866, is to commence from 1st April for the future, Ordnance Officers are requested to send in their annual Indents for Stationery &c. before the 31st October of each year, for the official year ensuing; by this arrangement sufficient time will be afforded the Stationery Depot for packing and despatching supplies to their respective destinations.

6. Ordnance Officers will be careful to have their Indents accurately drawn up, and examined before transmission, with details of the information required for checking the requisitions; the probable quantities that will remain in stock at the expiration of the year in which the Indent is submitted, being taken towards the expenditure of the succeeding year.

7. Ordnance Officers are informed that in the event of their purchasing stationery locally, to carry on the current work of their Establishments, consequent on non receipt of the annual supplies from the Stationery Depot, they render themselves liable to retrenchment of the value of such purchases, unless the delay in the timely receipt of the supplies, has arisen from unavoidable causes.
