Proceedings of the Madras Government, Public Department,

13th September 1866.

Read the following papers:—

No. 78. From the Magistrate of South Canara, to the Acting Chief Secretary to Government, Fort Saint George; dated Mangalore, 12th June 1866, No. 20.

With advertence to the Order of Government, of the 9th ultimo, No. 471, I

Enclosure No. 1.

have the honor, herewith, to submit the Draft Notification (as required in paragraph 3), relative to the introduction of the Towns' Improvement Act into the town and suburbs of Mangalore, and which are hereafter to be comprised within the limits of the Municipality of Mangalore, as constituted under the said Act.

2. I beg, also, to forward, as directed in the same paragraph, a Memorandum of the expenditure proposed to be in-

Enclosure No. 2.

curred for Conservancy purposes within the Town of Mangalore during the official year 1866-67, prepared by myself, in consultation with the Medical Officer of the Station and the Executive Engineer, and which has been submitted and agreed to at two Meetings of the persons proposed to be appointed as Municipal Commissioners. Should the funds at the disposal of the Commissioners admit, it is also proposed to undertake the cleaning and deepening of the three Tanks in the Town, and also the sinking of two large public wells for drinking purposes only.

3. I further beg to submit an estimate of the approximate receipts of the several modes of taxation, and which

Enclosure No. 3.

modes it was unanimously agreed amongst the Commissioners were best suited to the circumstances of the Town. The number of carriages and horses, as also of wheeled conveyances, generally, throughout the town, is so small, that a tax of this nature would have yielded little or nothing, while its imposition would have been both impolitic and unpopular.

4. The levy of a tax on the rental of all houses, lands, &c., within Municipal limits, as also the duty on Arts, Trades, and Professions, were considered by all present at both Meetings to be the most appropriate and unobjectionable ways of raising money for the purposes of the Municipality. From Statement No. 2, it will be seen that for the first year the rate proposed for the former mode of taxation is only five per cent.; this is estimated to yield Rupees 8011. This amount does not, however, include the huts of 887 of the poorer classes, or the houses of 773 Sepoys, &c., who reside within the limits of the Cantonment, and have sanitary arrangements of their own; these latter it is presumed were not intended by Government to be made liable to the incidence of this tax.

5. The produce of the tax on Arts, Trades, and Professions is, of course, calculated at the rates specified in the Schedule attached to the Act, and it will be observed is payable by 1313 persons.

6. The only toll at present proposed to be levied is that at the second milestone on the Mercara road. This tax, unlike the 1st and 2nd, will fall chiefly on the owners of the Coffee Estates in Mercara, Munjerabad, and elsewhere above the Ghauts; and there can be no question but that, looking to the value of the article brought to market, the tax is a very light one, and one that in practice will scarcely be felt. It is calculated that the proceeds thereof will be about Rupees 1000.

Proceedings of the Madras Government, Public Department,
13th September 1866.

7. I beg also to submit, as directed in paragraph 4 of the Government Order under acknowledgment,

Enclosures, Nos. 4 and 5.

(1.) List of the Municipal Commissioners, with their names entered in full.

(2.) A list of the Town and Villages comprising the Municipality, and a list of the population.

8. I would, in conclusion, request the instructions of Government on the two following points:—

1st.—Whether the houses, &c., within the Cantonment occupied by Officers and others (not Sepoys or Camp Followers) are to be made liable to the Act or not?

2nd.—Under whose charge the roads within the Cantonment are henceforward to be?

Mangalore is but a small Cantonment, and one of the longest roads by which the parade ground is bounded is declared not to be within Military limits. It seems to me, also, that the in-door duties of the Station Staff Officer, together with those as Regimental Adjutant, are quite sufficient to occupy the whole of that Officer's time. I venture, therefore, to think that the keeping up of the small pieces of road within Military limits might be more efficiently, as well as more economically carried out by the Commissioners; but on this point I respectfully request the orders of Government.

No. 79. From the Magistrate of South Canara, to the Acting Chief Secretary to Government, Fort Saint George; dated Mangalore, 11th July 1866, No. 29.

I observe that in those Towns in which the Municipal Act has been ordered by Government to be introduced, the Superintendent of Police has been nominated as one of the Town Commissioners; if not, therefore, too late, I would take leave to suggest that the name of Lieutenant Jenkins be added to the List of the Commissioners for the Town of Mangalore.

2. Lieutenant Jenkins was stationed here, for four years, with his Regiment some time back, and has now officiated as Superintendent of Police for one year; he is, therefore, well acquainted with the place and its inhabitants, and I consider that his experience and local knowledge may be availed of with advantage.

No. 80. ORDER THEREON, 13th September 1866, No. 928.

In this first of the foregoing letters, the Magistrate of South Canara proposes the arrangements necessary for introducing the "Towns' Improvement Act, 1865," into the Town of Mangalore.

2. The proposed expenditure amounts to Rupees 19,106, of which Rupees 5966 is on account of the Police.

3. The Government consider that the Establishment charges may very well be reduced by one Section Inspector and two Peons, thereby saving Rupees 378 yearly. The charge for Police Stations may also be reduced from 1000 to 500 Rupees. The charges for lighting the streets and for Fire Engines fall under Section 29 of the Act.

4. The total estimated expenditure under Section 25 thus amounts, for the whole year, to Rupees 16,878,* of which Government would have to contribute one-fourth, or Rupees 4219-8-0, leaving Rupees 12,658-8-0 to be raised by local taxation.

5. The Magistrate proposes to raise the requisite funds by a tax on houses and lands at 5 per cent., a tax on trades, &c., and tolls.

6. The three first items are expected to produce Rupees 14,988, which, with the Government contribution, would more than suffice for the expenditure proposed under Section 25.

7. The 4th item is expected to yield Rupees 1000, and is approved, on the understanding that the toll is within Municipal limits.

8. With reference to the concluding paragraph of the Magistrate's letter, the Government observe that all buildings within Municipal bounds, as well as persons residing within those limits, come within the scope of the Act. Whether the maintenance of the "small pieces of road within Military limits" should be transferred to the Commissioners, will be decided in the Military Department, if, as appears to be the case from the Magistrate's expression, it now devolves on the Cantonment Officers.

9. The income and expenditure for the half-year commencing on the 1st November 1866 from which date the Act will be brought into operation will be Rupees 8439, of which the Government will contribute Rupees 2109-12-0.

10. Ordered that the following Notification be published in the *Fort Saint George Gazette*.
