Public DEPARTMENT.

G.O. No.	935	Press ~~Mis~~
Dated	31-7-	1867.

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Department,

31st July 1867.

No. 305. Read the following letter from G. A. BALLARD, Esq., President of the Municipal Commission, Calicut, to the Acting Chief Secretary to Government, Fort Saint George; dated Calicut, 19th July 1867, No. 83.

1. Big Bazaar Canal.
2. Beach Road.

The works noted are now being carried out in this Municipality.

2. I do not anticipate that it will be necessary to have recourse to legal measures to acquire the ground, as compromise will generally easily be effected without, and, indeed, has been to a great extent.

3. But to avoid the delay and inconvenience that might ensue if obstinate opposition to come to reasonable terms is met with, I have the honor to request sanction to take up the ground, if necessary, under Section 15 of the Towns' Improvement Act.

4. I enclose the necessary Notifications.

DRAFT NOTIFICATION.

Under the provisions of Section 15 of the Towns' Improvement Act, Madras Act X of 1865, the Governor in Council of Fort Saint George hereby declares that all that piece of land required for excavating the Big Bazaar Canal, and forming road-ways along its banks, from the Big Bazaar to the Kalai road, having a breadth averaging from 160 to 60 feet, be the same a little more or less, is needed and required for a public purpose—to wit, the formation of a canal and road-ways—and shall be taken by Government at the public expense.

(Signed) G. A. BALLARD,
President.

CALICUT, 19th July 1867.

*** DRAFT NOTIFICATION.**

Under the provisions of Section 15 of the Towns' Improvement Act, Madras Act X of 1865, the Governor in Council of Fort Saint George hereby declares that all that piece of land from the Kalai river to the Exhibition road along the beach at Calicut, in the District of Malabar, having an average breadth of 30 feet, be the same a little more or less, is needed and required for a public purpose—to wit, the making of a high road—and shall be taken by Government at the public expense.

(Signed) G. A. BALLARD,
President.

CALICUT, 19th July 1867.

No. 306. ORDER THEREON, 31st July 1867, No. 935.

Section 15 of the Towns' Improvement Act contemplates the application of the provisions of Act VI of 1857 only when the Commissioners of the Municipality may be unable to agree with the owners of any land for its purchase. From the communication from Mr. Ballard, it does not appear that any such inability has been found to exist. The Government are consequently precluded from now sanctioning the issue of the Notifications of which Mr. Ballard has forwarded drafts. If, after the requisite communications have been made to the owners of the land wanted by the Calicut Municipality, specific offers to purchase are rejected, the Government will be prepared to consider the propriety of taking possession of the land required, of which, when again addressing Government, Mr. Ballard will be pleased to submit a rough sketch plan.

(True Extract).

Acting Chief Secretary.

To the President of the Municipal Commissions in Malabar.

Exd. J. H. Burns.

*Proceedings of the Madras Government, Public Department,
15th September 1866.*

No. 89. Read the following letter from J. D. ROBINSON, Esq., Magistrate of North Arcot, to the Chief Secretary to Government, Fort Saint George; dated Chittoor, 11th August 1866, No. 33.

I have the honor, with reference to Government Order, dated 9th May 1866, to submit Draft Notification, setting forth—

1st.—The proposed limits of the Municipality of Wallajapett within which the Towns' Improvement Act shall be in operation.

2ndly.—The names of the proposed Municipal Commissioners.

3rdly.—The number and rank of Town Police to be maintained, and the rates at which the Force is to be paid.

4thly.—The estimated amount to be raised for the purposes specified in Section XXV of the Act.

2. The Municipal limits have been carefully considered and determined by Mr. Price, and my personal acquaintance

Vide enclosed copy of letter from the Head Assistant Magistrate, dated 12th July 1866, No. 107.

with Wallajapett enables me to commend them with confidence to the acceptance

of Government. I should have been glad had these boundaries been of a more permanent and well defined character, but there are few natural features in the country immediately adjoining Wallajapett, and Mr. Price has, I feel sure, done the best he could under the circumstances.

3. The Committee have, I think, been judiciously selected, and are, so far as I know, men who should command the good-will and confidence of the town's people.

4. The strength and rank of the Police Force and rates of pay have been fixed on the scale given in the Appendix to Proceedings under reply.

5. I have carefully considered that part of Mr. Price's proposition which relates to the expenditure under the head of "Office" and "Conservancy Establishments." As the town is small and compact, and the population by last census was only 10,768, this part of Mr. Price's proposition admits of some modification. I have appended to Mr. Price's a revised statement, showing the modifications which I would recommend. If my scale of establishments and other modifications be adopted, the total expenditure will amount to Rupees 9915.

6. Mr. Price proposes to raise funds by—

1st.—Tax on Arts and Professions.

2ndly.—A five per centum rate on the annual value of house and shop property.

7. Mr. Price's calculations have, I know, been carefully made, and his estimate, so far as it goes, may be confidently accepted.

8. I cannot, however, concur in his (Mr. Price's) observations (paragraph 6) respecting the difficulty and inexpediency of levying Tolls within the new Municipality. Toll gates should, I think, be placed at the points where the main approach from the Railway Station, and where Trunk Road No. 1 from Madras to the interior, enter municipal limits. Both roads pass through the heart of the town; and the heavy traffic passing along them, being for the most part gene-

Malabar Magistrate's Court
Calcut 19 July 1867.

No 83

From
G. A. Ballard Esquire
Resident - Calcut Municipality -

To
The Honorable R. S. Ellis
Actg. Chief Secretary to Government -
Madras.

Sir,

The works noted are now being carried
out in this Municipality -

2. I do not anticipate that it will be
necessary to have recourse to legal measures
to acquire the ground, as compromise will generally
easily be effected without - and indeed has
been to a great extent.

3. But to avoid the delay and incon-
-venience that might ensue if obstinate
opposition to come to reasonable terms is
met with, I have the honor to request
sanction to take up the ground, if
necessary under Section 15 of the Towns
Improvement Act.

4. I enclose the necessary
Notifi-

1. The sewer canal
2. The road

ral, may most fairly be placed under contribution towards the maintenance of those portions of both lines which lie within Municipal limits. I have no data before me upon which to base an estimate of the proceeds of such tolls, but as adequate funds are already provided from the two sources proposed by Mr. Price, plus the Government grant-in aid for the purposes of the Act, I would recommend that two toll bars should be placed experimentally at the points above indicated as an additional means of Municipal income.

9. In estimating the income from this source at Rupees 2500, I am probably under the mark; but in every case, I feel assured that tolls levied at the rates mentioned in Schedule B, Section 57, of the Act would be remunerative enough to afford the Municipality the means of dealing with the difficulties adverted to in the latter part of the paragraphs 6 and 7 of Mr. Price's letter.

10. I would propose that for the first year each toll bar should be placed in charge of a Toll-keeper with an Assistant, who should both be paid in the form of a liberal percentage on actual proceeds. With the data thus obtained, it would be easy to firm out the privilege hereafter to the best advantage.

11. The estimated income would thus be Rupees 12,423, inclusive of the Government grant of 25 per cent., against a probable expenditure of some Rupees 9915. If the population be set down at 10,768, the average rate per head would be 14½ Annas.

12. I should have been glad, had it been possible, to have included an European in the list of Municipal Commissioners; but as the Tahsildar is an Officer of intelligence and tact, and will generally take the chair as Vice-President, the Board, as at present constituted, will, I have reason to think, work harmoniously and effectively together.

13. Having thus laid the proposition before Government, I may perhaps be allowed to observe that a more inopportune time for the introduction of such a measure could not well be conceived. The District is, as Government know well, passing through a crisis of severe and wide-spread distress; and the measure is one which, even under the most favorable conditions, would not at first commend itself to the cheerful acceptance of the people. I do not know how far it is in the power of Government to suspend its introduction for another year; but should such a course be practicable, I venture most earnestly to recommend that further action be set in abeyance until the District have recovered from the distress through which it is now painfully struggling.

14. Mr. Barlow's proposition for Vellore has just come to hand, and, in a letter which accompanies it, he deprecates, I observe, for the same reasons, the immediate introduction of the Act into that Town.

From J. F. PRICE, Esq., Head Assistant Magistrate of North Arcot, to the Magistrate of North Arcot; dated Ramecpett, 12th July 1866, No. 107.

With reference to your letter, No. 63, dated 25th May 1866, I have the honor to herewith forward the Draft Notification called for in the Order of Government, Public Department, No. 50, dated 9th May 1866.

2. I have carefully selected the Commissioners, and have discussed with them the points mentioned in paragraph 3 of the Order above alluded to. The estimates for Police and Conservancy

have been prepared in consultation with the Superintendent and Assistant Superintendent of Police, and the Executive Officer, Department Public Works, in charge of Wallaja Range, respectively.

3. I have, as suggested in paragraph 2 of your letter under reply, increased the number of Municipal Commissioners. Not being an inhabitant of Wallajapett, I could not include my own name in the list.

4. The result of the consultations held regarding the means of raising the sum mentioned in the Draft Notification has been that the Commissioners are disposed to adopt—1st, Taxes on Arts, Professions, &c.; 2nd, Taxes on the annual value of houses and lands. These two taxes will be sufficient to raise the requisite amount. The mode in which I have made the necessary calculations is shown in the accompanying Memorandum. The number of traders, &c., has been counted, as have the houses, and I have left a considerable margin for reductions on account of inability to pay the taxes imposed.

5. My estimates have been prepared on careful consideration. That for establishment is high, but it is impossible to get a reliable man without paying him well. There being no European amongst the proposed Commissioners, there cannot be the same supervision as there would be in either Chittoor or Vellore.

6. The modes of taxation which I have proposed are the only ones which it seems to me that one could possibly introduce. The levying of Tolls, as Wallajapett is a city of streets, would cost very nearly as much in collection as the tax would produce, and the remaining modes would not yield any thing like the required sum. The tax on Arts and Professions will, I think, press somewhat upon the petty dealers, but this can be in a great measure obviated by careful and judicious working of the concluding portion of Section 36 of the Act.

7. I have not entered in my estimates any sum for extending the drains already built in Wallajapett. These can, I think, justly be called works of a permanent nature, and it would not be fair to saddle the Municipality in its infancy with charges for this purpose. I would, therefore, suggest that the sanction of Government, under Section 77, be obtained to raise the sum of Rupees 3000 by debentures. This amount will be sufficient to carry out the more important part of the work to which I have been alluding.

NORTH ARCOT, MAGTE.'S OFFICE,
CHITTOOR, 11th August 1866.

(Signed) J. D. ROBINSON,
Magistrate.

No. 90. ORDER THEREON, 15th September 1866, No. 935.

With this letter, the Magistrate of the North Arcot District submits, with his own modifications, the proposals of his Head Assistant for introducing the "Towns' Improvement Act, 1865," into Wallajapett.

2. The Head Assistant, Mr. Price, proposes to raise and expend Rupees 8688, and to borrow Rupees 3000 for the construction of drains. Mr. Price's plan is to raise the requisite funds by a rate on houses, and a tax on Arts, &c. The Magistrate would further have recourse to tolls, and suggests some modifications in the expenditure. At the same time, Mr. Robinson deprecates the introduction of the Act on account of the distress prevailing in the Town and District.

3. The Government, under existing circumstances, consider that the more limited proposals of the Head Assistant will be sufficient at present. The Establishment charges are certainly high, and should be reduced, if practicable.

Proceedings of the Madras Government, Public Department,
15th September 1866.

4. The Government consider that the appointment of the Tahsildar, if the Magisterial charge of the Town is in his hands, objectionable. In this case, the Magistrate will recommend a person in his stead.

5. The annual expenditure being, as above stated, Rupees 8688, that for the half-year commencing 1st November 1866, and ending 30th April 1867, will be Rupees 4344, of which the Government will contribute Rupees 1086.

6. The Government approve of the method in which it is proposed to raise funds, and will be prepared to issue the necessary Notification, to take effect from the 1st November next, unless circumstances should render further postponement necessary.

7. On this point, the Magistrate will report by the 15th proximo.

Mayor of the N. West
District du hui to
his own modifi-
fications, the proposal
of his Head Assistant
for introducing the
Towns Improvement
Act 1865 into Walla-
junga

WPA

The Head Asst.
Mr Price proposes
to ~~raise and~~ expend
Rs 8000 and to borrow
Rs 3000 for the
construction of drains.
Mr Price's plan is
to raise the rate
further by a rate
on houses &c. tax
in the town. The most
likely for the time being.

Rec. of the Madras Government. Public Office
 Read the following letter from the President of the
 Municipal Commission, Calicut. dated 19th July 1867. No. 83.
order thereon. 31st July 1867 No. 935-

Mr. Ballard is requested to submit
 a plan showing the extent &
 direction of the land required
 for excavating the Canal and
 road-ways along its bank, in
 order that the necessary notifi-
 cation may be issued under
 Section 15 of (Madras) Act X of
 1865 and Act VI of 1867.

Mr. Ballard's
 not a person and
 in town & I think
 all out. I should prefer
 sending this
 order below
 W.M.

P/2 J.B.

Section 15 of the P. I. Act contains
 states the application of the
 provisions of Act VI of 1867 only
 when the commissioners of the
 municipality may be unable to agree
 with the owner of any land for its purchase.
 From the copy from Mr. Ballard it does
 not appear that any such inability has
 been found to exist. The provisions are
 consequently precluded from now sanctioning
 the issue of the Notification of which Mr. Ballard
 has forwarded drafts. - If after this the
 Commission have been made to the owner of the land
 wanted by the Calicut Municipality and specific
 offer to purchase ~~has been~~ ^{has} refused, the Govt
 will be prepared to consider the business of taking
 possession of the land required, for which a plan
 and a map of the land required, of which a plan
 is to be submitted to the Govt. Mr. Ballard will be
 pleased to submit a rough sketch plan -

It is to be noted that the Commission is to be held on the 19th July 1867

- course to tolls - and
Laffer to some work-
peations in the Ex-
penditure - and at
the same time Mr.
Robinson deprecates
the interposition of
the Act as a result
of the distress here.
Sailing in the town
& District.

The put under
Existing circum-
stances can be
that the more limited
proportion of the H d
cost will be suf-
ficient to be present.
The estimated amount
charges are certainly
high - & should be re-
duced, if possible.
The put under

At the same time
of the Expenditure - of
the more material
charge of the Town
is in his hands - &
objectionable - in the
case the Mayor will
recommend a person
in his stead.

The annual Ex-
penditure being, as
above stated Rs
8688 - that for the
half year commen-
cing 1 Nov. 1866 &
ending 30 April 1867
will be Rs 4344 - of
which the put will
contribute Rs 1036 -

The put appears
of the method in
which it is proposed
to raise funds &
will be prepared to
