*Proceedings of the Madras Government, Public Department,
5th August 1867.*

No. 25. Read the following letter from the Magistrate of South Arcot, to the Acting Chief Secretary to Government, Fort Saint George; dated Cuddalore, 31st July 1867, No. 44.

By the Orders of Government of the 10th January 1867, No. 37, Public Department, Magistrates of Districts, being Ex-officio Presidents of the Municipalities in their respective Districts, were declared privileged to frank all letters on Municipal matters in their capacity as Magistrates.

2. I have now received the recent orders of the Government of India, communicated with Proceedings of Madras Government of the 6th instant, No. 796, Public Department, from which I gather that the previous orders above quoted can no longer be acted upon, and that all correspondence on Municipal matters passing through the Post Office must be stamped as in the case of private letters.

3. I shall be glad to be informed, for my future guidance, if I am correct in this interpretation, and if so, it would seem desirable that the previous orders of January last be generally cancelled throughout the Presidency where Municipalities are in existence.

No. 26. ORDER THEREON, 5th August 1867, No. 951.
Recorded, with reference to G. O., dated the 31st July 1867, No. 934.
(True Extract).

To, Hon^{ble} R. S. Ellis C.B.
(Acting Chief Secretary of Government
Fort St. George)

Sir, By the order of
Government of the 10th January 1861
N^o 37 Public Department,
Magistrates of Districts being
24 Officers President of the
Municipalities in their respective
Districts were declared privileged
to forward all letters on Municipal
matters in their capacity as
Magistrate S. I
Have now received
the recent orders of the Government
of

*Proceedings of the Madras Government, Public Department,
21st September 1866.*

Read the following papers:—

No. 115. Proceedings of the Board of Revenue, dated 26th July 1866.

Read letter from the Collector of Salem, to the Acting Secretary to the Board of Revenue, Madras; dated Salem, 21st July 1866, No. 129.

I have the honor to draw your attention to paragraph 6 of my report upon the Revenue Administration of the District, under date the 19th May last, No. 77, and to request that measures may be devised for remedying the defects in the present system of Vaccination. I pointed out in my report that the services of the Deputy Superintendent, and the entire Staff of the Vaccination Department, for the whole year, was confined to one Taluq and a half only, and that the other parts of the District were left for the whole of that period without a Vaccinator. Since the submission of that report, the three months' recess allowed to the Vaccination Department has come on, and the whole Staff, I understand, are spending the recess at Vellore. There is, therefore, no Member of the Vaccine Establishment left now in the District. I have lately had several reports from different parts of the District of the existence, and the consequent ravages, of small pox, and of the great want of Vaccination among the people.

Submitted for the consideration and orders of Government.

(A true Copy and Extract).

Referred to the Officiating Principal Inspector General, Medical Department, for report.

FORT SAINT GEORGE,

21st August 1866.

(Signed) J. D. SIM,

Secretary to Government.

No. 116. From the Principal Inspector General, Medical Department, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 10th September 1866, No. 335.

In return of the Collector of Salem, referred with your docket of the 21st ultimo, I have the honor to forward a communication from the General Superintendent of Vaccination, offering explanation regarding defects in the system of Vaccination at that station, and to state that complaints of this nature will be obviated, should Government be pleased to sanction the measure recommended in my letter, No. 279, of the 30th July last.

*Proceedings of the Madras Government, Public Department,
21st September 1866.*

From the General Superintendent of Vaccination, to the Secretary to the Principal Inspector General, Medical Department, Madras; dated Camp Karingakotay, 30th August 1866, No. 493.

With reference to Memorandum, No. 3485, of the 23rd instant, and copy of letter from the Collector of Salem, pointing out "certain defects in the present system of Vaccination," I have the honor to offer the following explanation.

2. Every two Districts, or 15 to 16 Taluqs, constitute a Circle, and is under the charge of a Deputy Superintendent and 13 or 14 Vaccinators, who itinerate over the entire Circle, working successively from Taluq to Taluq, visiting every village and hamlet in it.

3. On the opening of the Field season in 1865, the Deputy Superintendent of Vaccination commenced operations in the Salem District, and, although his work was confined to one and a half Taluq only, the number operated on exceeded that of the entire District when compared with the operations performed under the old system, further possessing the advantage of being correctly performed under the personal supervision of the Deputy Superintendent.

4. On the commencement of the recess, the Staff adjourned to Vellore, a large and populous town in the North Arcot District, and since the 1st of July last, they have taken to the field again, and will so conduct their operations as to complete as many Taluqs as possible in this District, and adjourn on the next recess to some populous town in the Salem District.

5. Under this plan, owing to the inadequacy of the Staff, the work progresses slowly, but, nevertheless, it is more certain in its results, and will afford to the people at large a better opportunity of judging of the benefits of Vaccination.

6. At the same time provision is made for sending one or more Vaccinators to other parts of the Circle where their services may be required; but to prevent the services of the Vaccinators being uselessly frittered away, as has been the case on more than one occasion, a List is called for, showing the names of the parties wishing to undergo the operation, and on receiving which the Deputy Superintendent dispatches one or more Vaccinators, with a sufficient supply of lymph, to the locality indicated, to complete the operations in as short a time as possible, and rejoin the Head Quarters of the Circle.

7. This plan is working well. The old Vaccinators, thrown out of employ by the new organization, incite the people to complain of the want of Vaccinators, in the hope of obtaining re-employment, and frequently, when a Vaccinator is sent, no subjects are found willing to undergo the operation.

8. But I hope that the scheme submitted the other day for enlarging the Vaccine Establishment will meet with the support of the Principal Inspector General, and receive the sanction of Government, when a Staff, similar to the one now in charge of the Circle, will be thrown into each District, and a Vaccinator be placed at every Zillah Station.

No. 117. ORDER THEREON, 21st September 1866, No. 951.

Ordered that the foregoing letter from the Principal Inspector General, Medical Department, be communicated to the Board of Revenue.
