*Proceedings of the Madras Government, Public Department,
7th August 1867.*

Read the following :—

No. 40. Letter from the Vice-President, to the President of the Municipal Commission, Ganjam District ; dated Chicacole, 23rd July 1867, No. 18.

Under Section 77 of Madras Act X of 1865, the Municipal Commissioners of Chicacole propose to raise a loan of 1500 Rupees for the construction of tiled shops in the market place, in lieu of the thatched sheds which are now erected.

2. The Commissioners have already erected one block, consisting of six tiled shops, at a cost of 300 Rupees, and have found no difficulty in leasing the shops at $2\frac{1}{4}$ and 2 Rupees per month. They now propose erecting five similar blocks, and they calculate that the rent of these will bring them in, at least, 60 Rupees per month. If the loan can be raised at 12 per cent. on the security of the shops, this will give them a profit (after paying the interest) of 45 Rupees per month.

3. I have the honor to request that you will obtain the sanction of Government to this arrangement.

No. 2156.

Copy submitted for the sanction of Government.

CHETTERPORE,

Read the following letter from the President of the Municipal
Commission, Ganjam District, dated 25th July 1887 No. 2156.

Order No. 7 August 1887 No. 959.

In accordance with the provisions
of Section 77 of Madras Act 4 of
1865 the Government in Council
authorizes the Commissioners
of the Town of Chicacole to
borrow a sum not exceeding
Rs. 1500 (fifteen hundred) at a
rate of interest not exceeding
12 per cent, on the security of
certain buildings, the erection
and use as shops, for the
purpose of erecting tiled shops
in the market place of Chicacole.

Proceedings of the

1853, August 1853.

1853, August 1853.

*Proceedings of the Madras Government, Public Department,
22nd September 1866.*

Read the following letter from the Principal Inspector General, Medical Department.

(* Here enter 11th May 1866, No. 169.)

No. 130. ORDER THEREON, 22nd September 1866, No. 959.

With the letter above recorded the Principal Inspector General, Medical Department, submits the Report of the General Superintendent of Vaccination, showing the results of the operations of the Vaccine Department during 1865.

2. The Department was re-organized during the year, and as the new arrangements were not fully completed until the last quarter, the decrease in the number of persons vaccinated, as compared with that of 1864, is satisfactorily accounted for.

1864.....	3,11,587.
1865.....	1,91,394.

3. The present Returns, moreover, may be accepted as more trustworthy than those of former years.

4. The Government concur in the advantages of the measure proposed by the General Superintendent, that each Deputy Superintendent should be supplied with a box of medicines for the purpose of affording medical aid to applicants on their tours, provided, of course, that this is kept in due subordination to the proper duties of these Officers.) This arrangement was always intended, as stated in paragraph 3 of the letter to the Supreme Government, dated 17th August 1864, No. 939, and will be carried out at once. The Government do not, however, see the necessity of attaching a lascar to each Deputy Superintendent, as one of the two Peons attached to each Vaccine party can carry the medicine chest.

5. The unsuitableness of the building in Chintadrepettah as a Vaccine Depot, as represented by the General Superintendent in paragraph 37 of his report, is very apparent. The building serves also as a Dispensary, and as Mr. Shaw is of opinion that it might be now closed both as a Dispensary and as a Vaccine Depot, the measure will be carried out as soon as practicable, and the patients transferred to the Out-patient Department of the General Hospital.

6. The usual gratuity will be granted to Vaccinator Nero attached to the Vaccine Depot, and also to the three old Peons referred to in the report of the Superintendent of the Madras Circle.

7. The Government fully approve of the proposition for extending the benefits of Vaccination through the aid of the local Municipal Associations. The attention of the Presidents of these bodies will accordingly be drawn to the subject.

8. The proposals of Dr. Shortt and Mr. Shaw for the partially re-modelling and strengthening the Vaccine Department, so as to render it more equal to the requirements of the Presidency, is now engaging the attention of Government, and renders it unnecessary for them on this occasion to notice Mr. Shaw's remarks on the expediency of granting pensions to the Vaccinators on the comparative inefficiency of the Hospital Assistants, &c.

Proceedings of the Madras Government, Public Department,

22nd September 1866.

9. In concluding this brief review of the operations of the year, the Government deem it only due to Dr. Shortt to record their approval of his judicious arrangements in organizing and working his Staff of Vaccinators and his own zealous exertions in supervising their work.*

10. The Government also notice with pleasure the efficient aid afforded to Dr. Shortt by the several Deputy Superintendents.

PROCEEDINGS of the MADRAS GOVERNMENT.

Letter from the Principal Inspector General
Medical Department

(Here Entered 4th May 1866 No 189)

Order thereon 22 Sept. 1886 h: 959-

With the letter above
recorded the Honorable Prin-
cipal Inspector General,
Medical Department, submits
the Report of the General
Superintendent of Vaccina-
tion, showing the results
of the operations of the
Vaccine Department during
1875.

yes. The general order
on D. Shorthouse's proposal
of the 18th of 1871 - at present
1871

the last quarter, the decrease in the number of persons vaccinated, as compared with that of 1864, is satisfactorily accounted for.

1864 - 311587
1865 - 191394

3. The present Returns moreover, may be accepted as more trustworthy than those of former years.

The Government will be better able to judge how far the strength of the Department requires increase when they have before them the results of its work for the current year.

4. In L. O. 15th June 1864, No 680, reorganizing the Vaccine Department, it was determined that the Vaccinators should be replaced gradually by Hospital Assistants. From the General Superintendent's Report it is inferred that the prospect of their

not a great number of persons being employed in the Vaccine Department, and that the Government will be better able to judge how far the strength of the Department requires increase when they have before them the results of its work for the current year.

has been refused
this is almost in order
is now in order

services being thus eventually dispensed with is discouraging, and renders the Vaccinator less willing to apply themselves to their work: as an incentive therefore to greater exertion, the Offg. Municipal Surgeon General submits, with his support, Dr. Shute's recommendation that the temporary Vaccinators may be considered entitled, after a certain period of service, to the benefits of the pension Rules.

5. The Governor in Council observes that, as the pay of the Vaccinators exceeds 10 Rs per mensem, they are entitled to reckon their service as Vaccinators towards pension, and sees no reason why temporary service in the Vaccine Dept. should

should have attached to it advantages not attached to temporary service in any other Department of the Public Service. The cost of superintendence in the Vaccine is as enormous as compared with that of other Departments, and there can therefore be no difficulty in securing the performance of a proper amount of work. Inefficient and unwilling agents should be at once discharged.

6 The Government concurs in the advantages of the measure proposed by the General Superintendent that each Deputy Superintendent should be supplied with a box of medicines for the purpose of affording medical
