*Proceedings of the Madras Government, Public Department,
25th September 1866.*

No. 142. Read the following Proceedings of the Board of Revenue, dated 15th September 1866, No. 6610.

Read the following letter from H. E. SULLIVAN, Esq., Acting Collector of Kurnool, to the Secretary to the Board of Revenue; dated on Circuit at Yeldoorty, 23rd August 1866, No. 176:—

On the 1st instant, I requested the Deputy Superintendent of Vaccination, Cuddapah Circle, to furnish me with a return of the number of persons vaccinated in this District during the past Fusly, the same being required for insertion in the Annual Settlement Report. In reply, he informs me, that the information cannot be supplied without the sanction of the General Superintendent of Vaccination. I submit that the document is not of a nature to justify such extraordinary precaution, and request that Deputy Superintendents of Circles may be authorized to furnish Collectors with copies of such returns as they may see necessary to call for.

Submitted for the consideration and orders of Government. The Deputy Superintendent's conduct appears to the Board to be almost incredibly silly.

*Proceedings of the Madras Government, Public Department,
8th August 1867.*

Read the following papers :—

No. 61. From Messrs. TRÜBNER and Co., Book-sellers, London, to the Chief Secretary to Government, Fort Saint George; dated London, 22nd May 1867.

We venture to draw your attention to the accompanying prospectus of a History of India by Mr. J. Talboys Wheeler, Assistant Secretary to the Government of India in the Foreign (Political) Department at Calcutta, of which the first volume is now published, and which we have cause to believe will prove to be not only the most important work upon the subject which is especially adapted to educational purposes amongst the higher classes in the Indian Colleges.

2. The first three volumes will be complete in themselves, and will be devoted to what the author has termed the Hindoo period. These volumes will be exhaustive as far as the two great Indian epics are concerned, but will also comprise a searching criticism upon their subject matter, which is not only of value from a historical point of view, but, being applied to topics with which the Hindoo is familiar from childhood, and being moreover entirely free from any religious bias, will be calculated to lead the Native to a course of independent thought, and stimulate that critical faculty which has hitherto lain dormant in the Hindoo mind.

3. As regards the history as a history, we scarcely need say anything. Mr. Wheeler's official position has presented unusual advantages for the undertaking, to which he has already devoted the leisure of many years, whilst his previous literary labors may perhaps be regarded as an earnest of his untiring investigation and critical ability.

4. Trusting that you will support this important enterprise by a liberal order for copies, we have the honor to remain, &c.

Referred to the Director of Public Instruction, for his opinion as to whether the work referred to is likely to be suitable for use in the Educational Department.

No. 62. From the Director of Public Instruction, to the Acting Chief Secretary to Government, Fort Saint George; dated Madras, 29th July 1867, No. 1485.

I have the honor to return the letter from Messrs. Trübner and Co., of the 22nd May last, referred to me for the expression of my opinion as to the probable suitability of Mr. J. T. Wheeler's History of India for use in the Colleges and Schools of this Presidency. I also return the Prospectus of the work, and the copy of Vol. I forwarded with Messrs. Trübner's letter.

2. I do not consider that it will be possible to introduce the work as a text-book into colleges and schools. I am, therefore, unable to recommend the purchase of any large number of copies. Still, I think that the work, if well executed, should find a place in the libraries of colleges and advanced schools. I, therefore, propose, with the permission of Government, to instruct the Curator of Books to write to Messrs. Trübner and Co., and order two dozen copies for the Central Depot. It appears to me that no additional action need be taken in the matter.
