*Proceedings of the Madras Government, Public Department,
19th October 1867.*

No. 196. Proceedings of Government, dated 19th October 1867, No. 1300.

It having been brought to the notice of Government that the chief annual feast will shortly take place at Srirungam, in the neighbourhood of Trichinopoly, His Excellency the Governor in Council resolves to call the attention of the Acting Collector of Trichinopoly and of the Inspector General, Indian Medical Department, to the Proceedings of Government under date the 29th May 1867, No. 600, communicating to the several Collectors the sanitary precautions adopted at the annual festival at Humpi, in the Bellary District, for the prevention of epidemic disease, and to direct that similar arrangements may be made at Srirungam. A European Medical Officer should be required to visit Srirungam for the purpose of seeing that the necessary conservancy arrangements are duly carried out, and a Medical Subordinate with a supply of medicines should be sent there before the festival begins.

2. As it is desirable that some fixed plan should be adopted for providing adequate sanitary arrangements on the occurrence of similar festivals at other large towns throughout the Presidency, the Governor in Council directs that the Sanitary Commissioner will place himself in communication with the several Collectors and with the Inspector General of the Medical Department, and will submit to Government a list of the festivals or other occasions on which large crowds of people are periodically brought together in one place, and a sketch of the arrangements which should be made in each instance.
