G.O. No. 1318, 23rd October 1867.

Junior Civil Servants.

Despatch from the Home Government, intimating the appointment of certain gentlemen to the Civil Service at this Presidency, communicated to the Committee for the examination of Assistants.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

Read the following Despatch from the Right Honourable the Secretary of State for India, to His Excellency the Right Honourable the Governor in Council, Fort St. George; dated India Office, London, 14th September 1867, No. 36:—

The undermentioned gentlemen have been appointed Members of the Civil Service at your Presidency, in the following order—

Mr. Evans Charles Johnson.
 „ Frederick Edward Gibson.
 „ Charles Lennox Bruce Cumming.
 „ Thomas Weir.
 „ Charles Kough.
 „ Thomas James Maltby.
 „ John Archibald Boyle.

2. I forward six copies of three printed statements showing the school and college career, and the marks obtained by these gentlemen at the “open” examination in 1865, and at the “final” examination in June and July last, together with an extract from a letter * from the Civil Service Commissioners, expressing their satisfaction with the results of the “final” examination.

* Dated 30th July 1867.
Extract of letter to the Under Secretary of State for India from the Civil Service Commissioners, dated 30th July 1867.

The Commissioners have much satisfaction in stating that each of the candidates whose names appear in these Tables showed a competent knowledge of the several prescribed subjects while many of them acquitted themselves with great credit.

2. The examination was most satisfactory as regards one of the two branches of study to which the Commissioners attach the greatest importance, viz., Law, and they are confident that these candidates will carry with them to India a more extensive and more accurate knowledge, both of the principles and practice of Law, than has heretofore been possessed by any like number of Civil Servants when entering on their duties.

3. In the equally important Department of Oriental Languages, the general results have been also very satisfactory. Each candidate has shown a qualifying knowledge of the two Vernacular Languages required in the Presidency to which he was allotted, and several have exhibited considerable proficiency in other languages, in addition to those which were prescribed.

4. It will be observed that prizes were on this occasion awarded in six only of the thirteen branches of knowledge for which they were offered.

5. In explanation of this, it should be stated that, in accordance with the wish of the Secretary of State in Council, as conveyed in your letter of 22nd March 1866, a positively high standard of proficiency was established in each branch, and the assignment of the prize was made to depend on the prescribed standard being actually attained.

6. It should also be mentioned that in one of the two branches already referred to, viz., in Law, the candidate who showed the greatest proficiency in the ordinary examination, Mr. Lyall, did not compete for the prize.

ORDER—No. 1318, Public, dated 23rd October 1867.

Copies of this Despatch and of its enclosures will be furnished to the Committee for the examination of Assistants, who will keep in view the instructions contained in the 7th paragraph of the Proceedings to Government, under date the 16th January last, No. 65.

CIVIL SERVICE OF INDIA.

OPEN COMPETITION OF 1865.

TABLE OF MARKS.

NOTE.—The following extract from the Tenth Report of the Civil Service Commissioners refers to a change in the mode of assigning marks:—"It has already been mentioned as one of the ruling principles of these examinations that no candidate should be allowed any credit at all for taking up a subject in which he is a mere smatterer. Hitherto we have thought it enough, in conformity with this principle, to strike out all marks which indicated less than a competent knowledge of the subject selected; leaving those whose knowledge exceeded, by ever so little, the minimum of competence, to count all the marks assigned to them. We are of opinion, however, that superficial study may be more effectually discouraged by allowing no credit for slight knowledge even to those candidates who succeed in passing beyond it. We propose, therefore, that from the marks of all candidates alike a number answering to this slight knowledge shall be deducted; but that it shall be possible, nevertheless, for any candidate who may show remarkable proficiency in any subject to obtain the full number of marks allotted to that subject. One exception we have thought it right to make to this rule of deduction, *i.e.*, in the case of Mathematics."

On this occasion a deduction of 125 has been made.

Extract of Letter to the Union Secretary of State
for India from the Civil Service Commissioners
dated 30th July 1867

The Commissioners have much satisfaction in stating that each of the candidates whose names appear in their Tables showed a competent knowledge of the several prescribed subjects, while many of them acquitted themselves with great credit.

The examination was most satisfactory as regards one of the two branches of study to which the Commissioners attach the greatest importance, viz Law; and they are confident that their candidates will carry with them to India a more extensive and more accurate knowledge both of the principles and practice of Law, than has hitherto been possessed by any like number of Civil Servants when entering on their duties.

In the equally important department of Oriental Languages, the general results have been also very satisfactory. Each candidate has shown a qualifying knowledge of the two Vernacular Languages required in the Provinces to which he was allotted, and several have exhibited considerable proficiency in other languages in addition to those which were prescribed.

It will be observed that Prizes were

on this occasion awarded in ~~six~~ only of
the thirteen branches of knowledge for which
they were offered.

In explanation of this it should
be stated that, in accordance with the wish of
the Secretary of State in Council, as conveyed
in your letter of 22nd March 1866, a positively
high standard of proficiency was established in
each branch, and the assignment of the
prize was made to depend on the prescribed
standard being actually attained.

It should ^{also} be mentioned that in one
of the ~~two~~ branches already referred to viz. in Law,
the candidate who showed the greatest proficiency
in the ordinary examination, Mr. Lyall, did
not compete for the prize.
