*Proceedings of the Madras Government, Public Department,
5th November 1867.*

No. 31. Read the following letter from W. MACKENZIE, Esq., M. D., Inspector General, Indian Medical Department, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 16th October 1867, No. 401.

Adverting to Proceedings of Government noted in the margin, paragraph 5,

No. 2322 of 3rd October 1867, Revenue Department.

I have the honor to state, for the information of Government, that the practice in this Department has always been to supply 'prepared medicines,' with printed instructions for use, to parties which are not under the charge of a Medical Officer or Subordinate, and the working party in Mudamullay Forest was provided with such medicines in sufficient quantity; the 'fever powders' containing quinine in combination with other ingredients.

2. Major Morgan's Indent was for medicines *in bulk*; the Principal Inspector General declined to sanction their supply in that form, there being no competent medical man to administer them; and I must express my own opinion, that it would be dangerous to place such potent agents in the hands of men unacquainted with their properties.

3. I beg to add, that if it be intended by Government that such parties should be supplied with chlorodyne, a much larger quantity of that medicine will have to be obtained from England than has heretofore been asked for.

No. 32. ORDER THEREON, 5th November 1867, No. 1386.

Communicated to the Revenue Department.

2. With reference to paragraph 3 of the letter of the Inspector General, Medical Department, the Governor in Council requests that Dr. Mackenzie will supply parties in the Forest Department, who are not within reach of any Medical Officer, and who may be particularly exposed to attacks of illness for which chlorodyne is a suitable remedy, with a moderate supply of that medicine.
