Read the following papers :—

No. 33. From the Reverend C.C. SHUTIE, Pulicat, to the Right Honorable Lord NAPIER, K. T., Governor of Madras; dated Pulicat, 14th October 1867.

With due deference I beg to bring to your Lordship's notice that as there is no Medical man attached to this station, I am necessitated, in addition to my pastoral duties, as an ordained Agent of the Colonial and Continental Church Society, to prescribe and administer medicines for the sick of this place. Last year when cholera raged here with such virulence I had, under my treatment, no less than 250 cholera patients, and by God's blessing only twenty-five died and the rest recovered, and ever since then the people of this and adjacent villages are continually coming to me for treatment, as will be seen by the enclosed Statement.

2. But as I am obliged to purchase my own medicines, and as I am already considerably out of pocket thereby, and as there is no one here rich enough to help me with subscriptions, I am, therefore, unable to continue practising on so large a scale. Under these circumstances, I humbly presume to solicit your Lordship to make me a medicine grant for the use of this station—for which act of kindness I shall feel infinitely grateful.

Proceedings of the Madras Government, Public Department,
5th November 1867.

No. 34. From the Inspector General Indian Medical Department, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 25th October 1867, No. 417 :—

Adverting to the application of the Reverend C. C. Shutie, to His Excellency the Governor, referred to me under your docket of the 22nd current, I have the honor to acquaint you that a similar application was received from that gentleman, through the Collector of Madras, on the 14th of this month, and I beg to enclose a copy of the reply then made.

No. 3931 of 17th instant.

2. A supply of *prepared* medicines (with instructions) for the sick poor of Pulicat had, a week previously, been sent to Mr. Thornhill on his requisition, in accordance with the custom of this Department, in all cases where there is no Medical Officer or Subordinate qualified to prescribe.

From the Officiating Secretary to Inspector General Indian Medical Department, to the Acting Collector of Madras; dated Fort Saint George, 17th October 1867, No. 3931.

In reply to your letter No. 578 of the 11th instant, I am directed to acquaint you that the Inspector General Indian Medical Department has reason to believe that Mr. Shutie has received no such medical instruction as would make it desirable, or even safe, to entrust him with a supply of unprepared medicines; indeed the entry in the statement, forwarded with his letter to you, of sixty-five cases of "Typhus Fever" is sufficient of itself to prove that he has no professional knowledge.

2. The Inspector General cannot, under these circumstances, recommend medicines being issued from the Stores to Mr. Shutie.

No. 35. ORDER THEREON, 5th November 1867, No. 1387.

It appears that a supply of prepared medicines has been already sent for the use of the sick poor of Pulicat—no further aid in this respect is, therefore, now necessary.
