

MADRAS RECORD OFFICE.

Government of Madras.

Public DEPARTMENT.

G.O. No.	1413	Press Mis.
Dated	11-11-	1967.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Department,
11th November 1867.*

No. 75. Read the following Proceedings of Government in the Public Works Department, dated 4th November 1867, No. 3417.

Approving of the suspension of the erection of the cistern or reservoir at the General Hospital. } (Vide Proceedings, Public Works Department, dated 4th November 1867, Nos. 73 & 74).

No. 76. ORDER THEREON, 11th November 1867, No. 1413.
Communicated to the Inspector General, Medical Department.

(Signed) R. S. ELLIS,
Chief Secretary.

To the Inspector General, Medical Department.

Exd. J. Tulloch.

*Proceedings of the Madras Government, Public Works Department,
4th November 1867.*

No. 73. Read the following letter from the Acting Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 26th October 1867, No. 3,595:—

No. 523, dated 23rd October 1867. 1. I have the honor to forward a letter from the Secretary to the Sanitary Commissioner, requesting me, at the

instance of the Inspector General, Indian Medical Department, to stop the erection of the cistern at the General Hospital, sanctioned in Government Order No. 2,958, dated 23rd September 1867. I have waited for two days in the hopes of receiving some expression of Dr. Mackenzie's opinion on the subject, but in the absence of all information as to the cause which has induced the Inspector General to ask me to take this step, I beg to refer his application to Government, considering, as I do, also, the advantages to be derived from the erection of this reservoir.

2. Captain Goddard complains of the great waste of water at the Hospital, and independent of the check which this cistern would give on its indiscriminate use, by gauging the daily supply, and thus enabling the Seven Wells department, with a fewer establishment of cock-turners, to regulate the demand which they can only meet under present circumstances with great difficulty, the reservoir will answer another very useful purpose of enabling the Hospital authorities to flush the open drains round the building, which they are unable to do effectually at present.

3. A similar reservoir was built at the Penitentiary, on the Sanitary Commissioner's approval, for the very same purpose, and I do not see why this one should not be turned to the same use also to meet one of the objections raised to the drains.

From the Secretary to the Sanitary Commissioner, Madras, to the Acting Superintending Engineer of the 4th Division, dated Madras, 23rd October 1867, No. 523.

I have the honor to inform you that I am requested by the Inspector General, Indian Medical Department, to solicit that you will be so good as to order the discontinuance of the works for the erection of the proposed cistern at the General Hospital, as that officer is about to submit to Government certain proposals which, if approved, will render its erection unnecessary.

No. 74. ORDER THEREON, 4th November 1867, No. 3,417.

CIVIL WORKS, No. 10. The Government approve of the suspension of the work in question, pending the issue of orders on the proposals which are about to be submitted by the Inspector General of the Indian Medical Department.

(True Extract.)

Colonel, R. E.,

Secretary to Government.

To the Superintending Engineer, 4th Division.

" Controller of Public Works Department.

" Public Department.
