*Proceedings of the Madras Government, Public Department,
11th November 1867.*

No. 79. Read the following letter from the Meteorological Superintendent, Madras Presidency, to the Chief Secretary to Government, Fort Saint George; dated Madras Observatory, 31st October 1867.

I have the honor to notify for your approval the appointment of the following individuals as Observers on the new Meteorological Establishment, made agreeably to the Order of Government of the 10th April 1867, No. 379, paragraph 2, in consultation with the Inspector General of the Indian Medical Department.

<i>No.</i>	<i>Name.</i>	<i>Station.</i>	<i>Date of appointment.</i>
1....	M. C. Gungadura Mudali.....	Bangalore...	1867, October 21st.
2....	M. Christnoma Charry	Salem... ..	1867, November 1st.
3....	V. Coopposawmy... ..	Secunderabad.....	1867, November 1st.

Also, as soon as the thermometer sheds and additional instruments in hand at the Public Works Department can be supplied, which I have reason to hope will not be later than November 16th, of the following Observers:—

<i>No.</i>	<i>Name.</i>	<i>Station.</i>
4....	L. Thunsing.....	...Bellary.
5....	L. Moghan Sing... ..	...Coimbatore.
6....	V. Sashachellum... ..	...Madura.
7....	G. Vecrasawmy Naidoo...	...Negapatam.
8....	Serjeant O'Brien... ..	...Trichinopoly.

2. In reference to these individuals, I beg leave to submit the following remarks:—

No. 1. A young man formerly attached to the Great Trigonometrical Survey of India, and well qualified for the duties required of him. He commenced training at the Observatory on October 21st, and will, I presume, be entitled to salary from that date, agreeably to the Order of Government, 20th July 1867, No. 876, paragraph 9.

No. 2. An attentive, careful, and deserving man, attached to the Madras Observatory as an Assistant from May 1st, 1841. Being well acquainted with the duties of the new appointment, he will require no preparatory instruction or training.

No. 3. The Observer employed by Dr. Arnold Smith for keeping a Meteorological Register since July 1863, all of which will, by a fresh reduction upon the new forms and arrangements, be well worthy of publication and incorporation with future records. He has, I understand, been steadily engaged at his post at the small rate of Rupees sixteen per mensem, and as the past records and copies have been well kept and regularly transmitted to my care, only requiring re-arrangement in form and the application of the new tables of corrections, I beg to suggest that he may be allowed to draw the balance of his increased allowance from the 1st April 1867, the date of establishment of the new meteorological scheme, so soon as I am able to certify to the fresh reduction of the Secunderabad meteorological records. Upon the subject of the treatment of the records between July 1863 and March 31st 1867, I shall have occasion to make further suggestions hereafter.

Proceedings of the Madras Government, Public Department,
11th November 1867.

Nos. 4, 5, and 6. Three promising young men of good character, who, I have every reason to believe, will prove careful and honest Observers.

No. 7. An Assistant upon the Observatory Establishment since 1st May 1849; steady, attentive to his duties, and, like No. 2, requiring no preparatory training.

No. 8. Recommended by the Medical Officer in charge, as qualified for the post, and as having been employed for some time past in keeping a Meteorological Register at Trichinopoly. No returns having been supplied to me, as in the case of Secunderabad, I am unable to form any opinion as to their value, or the possibility of their being available for incorporation with future records upon the new arrangements.

3. With reference to the Medical Officers, I have the honor to suggest that the allowance of carriage hire sanctioned shall date from the 1st November for the gentlemen in charge at Bangalore, Salem, and Secunderabad. The Officers in charge at the other five stations will not receive their instruments before 1st December, but may be considered as on duty from that date.

No. 80. ORDER THEREON, 11th November 1867, No. 1415.

The Governor in Council approves of the appointments of Observers already made, and those proposed to be made, in the new Meteorological Establishment, as specified in the foregoing letter.

2. The salary of M. C. Gungadura Mudali will commence from the 21st October 1867, the date on which he was admitted into the Observatory; and the increased allowance will be passed to V. Coopposawmy from the 1st April 1867.

3. The allowance (Rupees 30) as carriage hire will be drawn from the 1st November 1867 by the Medical Officers in charge of the stations at Bangalore, Salem, and Secunderabad; and by the Officers in charge of the Stations at Bellary, Coimbatore, Madura, Negapatam, and Trichinopoly, from the 1st December 1867.

(True Extract).

Meteorological Superintendent, Madras Presiden

To

The Honorable R. S. Ellis Esq^r

Chief Secretary to Government

Fort Saint George

Sir,

I have the honor to notify for your approval the appointment of the following individuals, as Observers on the new Meteorological Establishment made agreeably to the Order of Government of the 10th April 1867, No 379, para. 2, in consultation with the Inspector General of the Indian Medical Department:-

No	Name	Station	Date of appointment
1.	M. K. Gungadwara Mudali	Bangalore	1867 October 21st
2.	M. Christoma Chetty	Salem	1867 November 1st
3.	V. Koopposawmy	Secunderabad	1867 November 1

Also, as soon as the thermometer sheds an additional instruments in hand at the Public Works Department can be supplied, which I have reason to hope will not be later than November 16th,

Public Works Department
No 1415
Proceedings of the Madras
Government of 11th Nov 1867

of the following Observers:—

	Name	Station
4.	L. Thumsing	Bellary
5.	L. Moghan Sing	Coimbatore
6.	V. Sashachellum	Madura
7.	L. Veerasawmy Naidoo	Negapatam
8.	Sergeant O. Drien	Trichinopoly

In reference to these individuals I beg leave to submit the following remarks.—

No 1.— A young man formerly attached to the Great Trigonometrical Survey of India and well qualified for the duties required of him.— He commenced training at the Observatory on October 21st, and will I presume be entitled to salary from that date, agreeably to the Order of Government 20th July 1867. No 876, para 9.—

No 2.— An attentive, careful, and deserving man, attached to the Madras Observatory as an assistant from May 1st, 1841.— Being well acquainted with the duties of the new appointment he will require no preparatory instruction or training.—

No 3.— The Observer employed by Dr. Arnold Smith for keeping a Meteorological Register since July 1863; all of which will, by a fresh reduction upon the new Forms and arrangements, be well worthy of publication and incorporation with future records.— He has I

understand

understand been steadily engaged at his post at the small rate of rupees sixteen per mensem, and as the past records and copies ^{have} been well kept ^{and} regularly transmitted to my care, only requiring rearrangement in form and the application of the new Tables of Corrections; I beg to suggest, that he may be allowed to draw the balance of his increased allowance from the 1st Apr. 1867, the date of Establishment of the new Meteorological Scheme, so soon as I am able to certify to the fresh reduction of the Secunderabad Meteorological Records. Upon the subject of the treatment of the Records between July 1863 and March 31st 1867 I shall have occasion to make further suggestions hereafter.—

No 4-5 and 6.— ~~These~~ promising young men of good character, I have every reason to believe will prove careful and honest Observers.—

No 7.— An assistant upon the Observatory Establishment since 1st May 1849, steady, attentive to his duties, and like No 2, requiring no preparatory training.—

No 8.— Recommended by the Medical Officer in charge as qualified for the post, and as having been employed for some time past in keeping a Meteorological Register at Trichinopoly.— No returns having been supplied to me, as in the case of Secunderabad, I am unable to form any opinion as to their value, or the possibility

of their being available for incorporation with future Records upon the new arrangements. —

With reference to the Medical Officers, I have the honor to suggest that the allowance of Carriage Hire sanctioned shall date from the 1st November for the gentlemen in charge at Bangalore, Salem and Secunderabad. — The Officers in charge at the other five Stations will not receive their instruments before 1st December, but may be considered as on duty from that date. —
