*Proceedings of the Madras Government, Public Works Department,
20th November 1867.*

No. 385. Read the following letter from the Superintending Engineer, 7th Division, to the Secretary to Government, Department Public Works, dated Camp at Vitla, 6th November 1867, No. 126 :—

1. This department is from time to time called on to perform such work as raising or repairing pandals to public buildings, being of a nature which I cannot but think it is restricted from undertaking, under the operation of late orders from the Government of India. Those orders would seem to imply that all such temporary work as pandals to shade buildings, tatties to shut off the monsoon, &c., should be carried out by the subordinate agency of the departments occupying the buildings to be so protected, and the cost thereof charged in their contingent bills, or provided for in their own Budgets.

2. It is really desirable that an authoritative order should be issued on the subject for the information of all public departments.

No. 386. ORDER THEREON, 20th November 1867, No. 3,575.

CIVIL WORKS, No. 49.

See Financial Proceedings 29th November 1865,
No. 548.

The rules which were circulated with G. O. of the 6th December 1865, No. 3,697, are clear and precise as to the character of the works which are to be carried out under the agency of the

professional department and of the department requiring them, respectively, and the Government observe that pandals and works of that nature when provided in connection with buildings which are not in charge of the Public Works Department and not borne on the returns of that department as recognized State buildings, should be erected by and at the cost of the department requiring them.

(True Extract.)

Colonel, R. E.,
Secretary to Government.
