MADURA,
1st November 1867.

(Signed) D. ARBUTHNOTT,
Collector.

Proceedings of the Madras Government, Public Department,
10th December 1867.

No. 95. ORDER THEREON, 10th December 1867, No. 1560.

From the foregoing report it appears that the number of women admitted into the Madura Lying-in-Hospital has been greater, and the number of patients who received diet and batta from the Civil Dispensary Funds less, during the year under report, than in the previous year. The number of women admitted and supported for about two months each was, in 1866, thirty-eight; in 1867, forty-seven. In the former year, 14,676 patients were dieted in the Civil Dispensary, at a cost of Rupees 2725; in the year now reported on, only 7510 were dieted and received batta, at a cost of Rupees 2197.

2. The Government are glad to learn that the number of women availing themselves of the Lying-in Charity is increasing, but the falling off in the number of Civil Dispensary patients, and the great increase in the cost of dieting the latter, which can scarcely be accounted for by the rise in the cost of provisions alone, should have been more fully explained.

3. The present report is a mere *verbatim* copy of the former reports, and the meaning of the following sentence is not obvious:—"Forty-seven women were admitted and supported for about two months each; thus, the number of patients who have received diet has been 3038." The latter figures apparently represent the number of days multiplied by the number of women; but a similar result is not obtained by a similar calculation applied to the former reports. The Collector will explain the apparent discrepancy.

4. Mr. Arbuthnott will explain the heavy items of expenditure again incurred in connection with the bungalow at Sundapett under the following heads:—

	RS.
For "keeping tatties".....	340
Repairs and improvements.....	946
Preparing punkahs.....	33

In 1866, no less than Rupees 132 were expended under the last head, and Rupees 1002 for "preparing tatties" and constructing a well. It is evident that, if the annual charges in connection with repairs and the above charges are to be estimated according to the expenditure of the last two years, the rental of the building cannot be taken to be even as much as $7\frac{3}{4}$ per cent.

(True Extract).

Chief Secretary.

To the Collector of Madura.

„ Inspector General, Medical Department.

Exd. J. H. Burns.

PROCEEDINGS of the MADRAS GOVERNMENT.

Read the following letter from the
Collector of Madras.

(Dated 1st November 1867. N^o 1739).

Order thereon 10th December 1867 N^o 1515.

From the foregoing report it appears that the number of women admitted into the Madras Lying-in Hospital has been greater, and the number of patients who received diet and batta from the Civil Dispensary Funds less, during the year under report than in the previous year. The number of women admitted and supported for about 2 months each was in 1866, thirty eight; in 1867 forty seven. In the former year 14,676 patients were treated in the Civil Dispensary at a cost of Rspees 2725; in the year now reported on only 7510 were treated and received batta at a cost of Rspees 2197.

2. The Government are glad to learn that the number of women availing themselves

of the Lying in Charity is increasing, but the falling off in the number of Civil Dispensary patients, and the great increase in the cost of dieting the latter, which can scarcely be accounted for by the rise in the cost of provisions alone, should have been more fully explained.

3. The present report is a mere verbatim copy of the former reports, and the meaning of the following sentence is not obvious. "47 women were admitted and supported for about 2 months each, thus the number of patients who have received diet has been 3038." The latter figures apparently represent the number of days multiplied by the number of women; but a similar result is not obtained by a similar calculation applied to the former reports. The Collector will explain the apparent discrepancy.

4. Mr. Brubothott will explain the heavy items of expenditure again incurred in connexion with the Bungalow at Sunda-hett under the following heads.

for "feeding falties" ———	340
repairs and improvements ———	946
preparing falties. ———	33

In 1866 no less than Rspees 132 were expended under the last head, and Rspees 182 for preparing falties and constructing an well.

It is evident that if the annual charges in connexion with repairs and the above charges, are to be estimated according to the expenditure of the last two years, ~~the~~ the rental of the building cannot be taken to be even as much as $7\frac{3}{4}$ per cent.
