*Proceedings of the Madras Government, Public Department,
31st December 1867.*

Read the following papers:—

No. 205. From W. MACKENZIE, Esq., M. D., Inspector General, Indian Medical Department, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 12th October 1867, No. 397.

With reference to the Proceedings of Government, Public Department, No. 1170, of the 21st ultimo, requesting me to submit, for transmission to the Government of India, Quarterly Lists of all Uncovenanted Medical Officers employed in this Presidency, I have the honor to submit the following remarks for the information of Government.

2. Government are aware that there are no Uncovenanted Medical Officers on the Establishment of this Presidency.

3. There are, however, three Medical Subordinates of the Warrant grade in permanent medical charge of civil stations—Apothecary Doig, at Cocanada; Apothecary Gillespie, at Chicacole; and Assistant Apothecary Watts, at Chatterpore. The first draws Rupees 100 per mensem, in addition to his pay of rank, Rupees 45-14-0; the second, Rupees 50 additional on account of Civil Dispensary, his pay of rank being the same; and the third, nothing additional to his pay, which is Rupees 70 per mensem.

4. In the annexed Quarterly List, which I have the honor to submit in obedience to the Order of the Government of India printed with these Proceedings, the amount actually drawn by each of these Subordinates is entered; but as the Government of India direct that these Lists “should be framed on the principle that ‘all classes of Uncovenanted Medical Officers in charge of stations, including those who are, or have been, members of the Subordinate Medical Department, benefit

“by the advantages of the new scale of “salaries,” I have the honor to solicit the instructions of Government as to whether the salaries of these Subordinates should be adjusted agreeably to the scale fixed in the Financial Resolution, No. 2295 of 25th April last, with retrospective effect from the date of their assuming charge of their respective stations.

No. 206. From W. MACKENZIE, Esq., M. D., Inspector General, Indian Medical Department, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 2nd December 1867, No. 470.

In continuation of my letter, No. 397, of the 12th October 1867, I have the honor to state, for the information of Government, that having, since it was written, been in communication with the Inspector General, Indian Medical Department, at Calcutta, I have ascertained the following particulars as to the Rules in force in the Bengal Presidency with regard to “Uncovenanted Medical Officers.”

I. Members of the Subordinate Medical Department may be transferred permanently to the ‘Uncovenanted’ Class, by resigning their place in the Department, in which case they forego their claim to pension as Apothecaries, and their names are no longer borne on the Army List.

II. But Subordinates of the Apothecary class may also, without resigning their position in the Subordinate Department, hold independent Civil charges, drawing, while so employed, the same salary that would be drawn by an Uncove-

nanted Medical Officer holding the same post. Such men are still borne on the Rolls of the Subordinate Medical Department, and may revert to their original duty by permission of Government, or may be ordered so to revert on emergency, or in consequence of inefficiency or misconduct. Pension has hitherto been given to them as members of the Subordinate Medical Department, their service in independent Civil charges counting as service for such pension; but it is considered uncertain whether, under the orders lately issued, they might not get pensions on the "uncovenanted" scale, in cases where they had held independent Civil charges long enough to entitle them to such, according to the Uncovenanted Service Rules.

III. Members of the "Sub-Assistant Surgeon" class must resign that particular service before they are eligible for uncovenanted appointments. In any case their pensions come under the Uncovenanted Service Rules.

2. Having been supplied with a copy of the Form in which Quarterly Lists of Uncovenanted Medical Officers are to be furnished in Bengal, I have the honor to submit a List in that form, in substitution of the one attached to my letter, No. 397, of the 12th October 1867; and in doing so, I would respectfully solicit that Government may be pleased to extend to members of the Subordinate Medical Service in this Presidency, holding independent Civil charges, the same privileges and advantages as are accorded to those of Bengal.

Memo for orders.

It will be remembered that
this subject was discussed
in Council.

Dr. Mackenzie as will be
seen has communicated
with the Medical authorities
in Calcutta, and he
now recommends that
the salaries laid down
by the Govt of India
should be allowed to
the medical subordinates
noted in the margin.

Apothecary Doig	Present pay.	245-14	350
Canada.			
Apothecary Gillespie	195-14	-	350
Chindawda			
Apt. Apothecary			
Watts	70	-	350
Chatterpore			

It will be seen that ^{apt} Apothecary
Watts will be moved, and
Apothecary Hay can now
draw 145-14 not ~~there~~
to Chatterpore.

In the present case there
is a very considerable rise
in salary, but it will
probably happen that
often, in future, uncom-
-anted medical men
will be posted to
new civil stations, and
it seems undeniable
to deprive our medical
subordinates of the
benefits enjoyed by
their fellows in Bengal.
St. Mackenzie has used
the Bengal term "Sudder
stations" I would substitute
for this the word used
in the letter from the Govt
of India - civil stations
