Proceedings of the Madras Government, Public Department,

11th March 1867.

No. 66. Read the following letter from the Chief Secretary to the Government of Bombay, to the Chief Secretary to the Government of Madras; dated Bombay Castle, 23rd February 1867, No. 400.

General Department.

I am directed by His Excellency the Governor in Council to forward, for the information of the Government of Madras, the accompanying copy of the Resolution of this Government, No. 398, dated this day, together with a printed copy of the

Abstract* of the Proceedings and Reports

* Government Selection No. CI.

of the International Sanitary Conference

of 1866, compiled by Dr. A. H. Leith, President Sanitary Commission, Bombay Presidency.

Bombay Castle, 25th February 1867, No. 398.

RESOLUTION OF GOVERNMENT.

General Department.

The acknowledgments of Government are due to Dr. Leith for the complete and expeditious manner in which he has compiled this Abstract of the Proceedings and Reports of the International Sanitary Conference.

2. The attention of the Municipal Commissioner of Bombay should be requested to the suggestions contained in paragraph 4 of Dr. Leith's Memorandum.

3. His Excellency the Governor in Council attaches the greatest weight to Dr. Leith's suggestions for watching most carefully the outbreak and progress of Cholera at places of pilgrimage and at fairs. He relies on the Police Commissioners and the Magistrates of Districts using their best efforts to give effect to the proposals for collecting statistical and other information. The reforms that are now being effected at Pundhurpoor will, it is to be hoped, be carried out at similar places of large concourse.

4. Copies should be distributed to all Governments and Administrations, to all Departments and Offices, and to all public journals and periodicals.

5. The Sanitary Commission should be requested to draw up a Circular of instructions, calculated to give full effect to the suggestions contained in Dr. Leith's Memorandum of 23rd January 1867, and the Circular after being approved by Government should be issued.

6. The attention of the Government of India should be specially drawn to Dr. Leith's suggestions, with a view to further legislation, and a copy of the Abstract should also be sent to the Honorable Mr. Shaw Stewart.

7. The Municipal Commissioner of Bombay should be requested to favor Government with a special report on the measures which he thinks necessary to prevent Bombay being regarded by European nations as a base whence Cholera habitually spreads westward by sea.

(Signed) F. S. CHAPMAN,
Chief Secretary to Government.
