Dated	21-3-	1857

Not to be folded or roughly handled

No. 135. Read the following letter from the Directors of the Monegar Choultry, to the Right Honorable FRANCIS NAPIER BARON NAPIER, K. T., Governor in Council, Fort Saint George; dated Monegar Choultry, 20th February 1867.

We have the honor to submit the Annual Report and Accounts noted in the margin, for the year 1866, of the several Institutions under our superintendence, viz., the Monegar Choultry, the Native Infirmary, Idiots' Asylum, and the Asylum for Foundling and Stray Children.

2. The average daily number of Paupers, including Foundling and Stray Children, maintained throughout the year was 301, while in 1865 it was 306, or 5 less per diem.

3. We beg to explain that the establishment of Relief Houses in various parts of the Town during the year, at which the famished poor readily obtained food, prevented the large increase of Pauper applicants to the Monegar Choultry, which might have been expected during a season of severe general distress.

4. The expenses, exclusive of establishment and contingencies, were Rupees 13,070-2-4, making the average cost per diem of each Pauper in the Choultry 1 Anna 10 Pies, of each Idiot in the Asylum 2 Annas 1½ Pies, of each Patient in the Infirmary 2 Annas ½ Pie, and of each Child in the Foundling Asylum 1 Anna 1 Pie.

5. The cost of the establishment was Rupees 6,310-13-11, and for clothing and contingencies Rupees 3,050-14-1, the aggregate for the year, including expenses of dieting, referred to in the last paragraph, being Rupees 22,431-14-4; the increase, compared with the expenses of the preceding year, being Rupees 735-11-10. This is owing to the enhanced value of provisions during the year under report.

6. At the close of the year 1865 there was a balance of Rupees 2,486-6-2 at the Bank of Madras.

7. The receipts from all sources during the year 1866 was Rupees 22,208-10-0, as will be seen from the accounts of the Treasurer, and which are likewise noted in the margin.

8. The actual expenditure was Rupees 22,066-10-2, leaving a balance in the Bank of Madras of Rupees 1,753-12-7 in favor of the Institution on the 31st December 1866.

9. In the early part of the year interest, amounting to Rupees 406, realiz-

ed on some of the Government Securities was, as usual, deposited in the late Agra and Masterman's Bank; and Rupees 2,600 was drawn from the Bank and invested in Government Securities, leaving only Rupees 438 to credit when the Bank stopped payment. There is, however, reason to believe that this money will not be entirely lost, a dividend of 4 Annas in the Rupee having been already paid; and the balance will, in due time, be recovered. The interest since realized, viz., Rupees 418, with the dividend, Rupees 110-3-5, has been deposited in the Savings' Bank.

10. With reference to Extract Minutes of Consultation dated (Public Department) 25th March 1859, No. 450, para-

graph 6, we beg herewith to submit an account of the expenses incurred for the Idiot Asylum during the year 1866. The total amount disbursed was Rupees 5,257-0-4, as per margin, leaving a balance of Rupees 1,209-1-5 due to the

Funds of the Monegar Choultry after deducting the advance of Rupees 4,000 received from Government in May last; and for the payment of the balance, viz., Rupees 1,209-1-5, we now solicit sanction.

11. We regret to state that the public subscriptions realized during the year have fallen off, compared with the year preceding, by Rupees 151-1-6, as per statement in the margin. This, no doubt, is attributable to the sympathies

of the charitable public being enlisted towards the immediate and pressing wants of the Famine Relief Fund during the year.

12. We take this opportunity to add that, with reference to the Report of the Honorable R. S. Ellis, C. B., on the Monegar Choultry and the other branches of the Institution, and with reference also to the letters and minutes of some of the Members of the Committee and the Surgeon, a Sub-Committee has been formed to take into consideration and to suggest the means and measures necessary for the improvement of the present premises, for enlarging accommodation, for better ventilation, for the erection of additional sheds, and for better draining.

13. We trust at an early date to be able to address your Lordship in Council upon all these points, and also with respect to the present situation and state of the Institution known as the Idiots' Asylum.

MADRAS,
31st December 1866.

(Signed) T. G. CLARKE,
Treasurer.

From Mr. J. R. BARROW, Superintendent, Monegar Choultry, to the Visiting Members of the Monegar Choultry; dated 31st January 1867, No. 114.

I have the honor to submit my Annual Accounts and Statements connected with the several branches of the Institution for the year 1866.

Number of Paupers, Idiots, Sick, and Foundlings maintained on an average per

	Day.	Month.	Year.
In 1865.....	306	9,316	1,11,790
In 1866.....	301	9,147	1,09,767
Decrease...	5	169	2,023

Expenditure in 1865..... Rupees 21,696 2 6
Do. in 1866..... " 22,431 14 4
Increase... 735 11 10

1. The Comparative Statement No. 3 shows that 2023 is the aggregate decrease in number of Paupers maintained in the several branches of the Institution, compared with the year preceding, and the increase in the expenditure is Rupees 735-11-10, which will be explained under their respective heads.

BATTA PAUPERS.

Number of Batta Paupers maintained on an average per

	Day.	Month.	Year.
In 1865.....	9	270	3,238
In 1866.....	8	243	2,920
Decrease...	1	27	318

Expenditure in 1865..... Rupees 252 15 6
Do. in 1866..... " 228 2 0
Decrease... 24 13 6

Average per head in 1865... A. P. 1 3
Do. in 1866... " 1 3

2. These Paupers are maintained on an allowance of 1 Anna 3 Pie per day. In 1865 the average maintained per day was 9, and in 1866, 8 or 1 less; the Pauper consented to receive cooked food like the other Paupers, and he was necessarily transferred to the Depot in November 1865, thus causing a decrease in the expenditure under this head of Rupees 24-13-6.

Proceedings of the Madras Government, Public Department,
21st March 1867.

dren got milk and oppers in the morning, but since the dry grain was introduced into the diet scale all received the same diet, which is cheaper. I beg to take this opportunity to state that there has been a gradual increase of admission into the Asylum during the last six months, chiefly of young children, the ages varying from one month to three years, they require constant attendance and care. There is only one female and a male servant to attend to 23 children, three of these are infants and have wet nurses at 4 Rupees each, with diet and two cloths a year. The monthly cost of the Asylum, including servants' wages and contingencies, amounts to Rupees 55-15-5 per month. The Government allowance being only Rupees 41, the balance, Rupees 14-15-5, being borne by the Funds of the Charity.

3. The number dieted in the Choultry for 1865, on an average per day, was 152. In 1866, 153, the increase being only one compared with the preceding year. The aggregate throughout the year was 563, the increase in the expenditure Rupees 877-12-7; the increase is owing to the enhanced value of provisions during the year under report.

4. The number of Children maintained in this Asylum per day in 1865 was 12, and in 1866, 13, or 1 less than the year preceding. The aggregate throughout the year was 397. The expenditure was Rupees 312-13-5, the increase being Rupees 1-9-1. The decrease in the expenditure is owing to the alteration in the diet during the previous year, the younger chil-

5. The average number maintained in the Asylum in 1865 was 74 per day, and in 1866, 73, or 1 less than the year previous. The decrease throughout the year was 309, and the expenditure was Rupees 3479-3-6 less by Rupees 553-7-9 compared with the previous year. The decrease is on account of the change of diet, viz., during the previous year they were allowed three meals of rice per diem, but since November 1865, when the dry grain was introduced, only

6. The number of Patients maintained during the year 1865 was, on an average, 60 per day, and in 1866, 54 or 6 less. The aggregate decrease throughout the year was 2356, while the expenditure in 1866 has increased by Rupees 22-1-2, making an increase in the average cost 4 1/2 Pie each per diem. This is owing to the larger amount of extra diets charged for. In the year 1865, the expenditure was Rupees 720. In 1866 the cost is Rupees 796, or Rupees 76

7. The increase under this head is Rupees 194-2-10. This is on account of cloths and cumblies purchased for the use of the Idiots, Sick and Foundlings. No cloths were purchased for the use of the Paupers in the Depôt for the last four years, this will be accounted for in the accounts of the Workshop; the quantity of cloth and cumblies purchased for the year 1865 is about the same, but the price was in 1865 5 1/4 Rupees, and 1866, 6 Rupees per piece of 24 yards.

MONEGAR CHOULTRY,

ANNUAL MEDICAL REPORT OF THE MADRAS NATIVE INFIRMARY

FOR THE YEAR 1866.

Station—Madras.

Number of Sick.

Remained 31st December 1865.....	64
Admitted.....	1,590
Discharged.....	1,128
Transferred to Idiot Asylum.....	41
Died.....	433
Remaining 31st December 1866.....	52
Average daily number of Sick in Hospital.....	55

The Hospital has undergone extensive repair; it has been blue and white-washed, but, I regret to say, the white-washing within the wards has been done with such ill-made materials that it is already flaking off, and will require to be done again ere long.

A larger proportion of gum in the wash used would probably render it more adhesive, and this opportunity is a favorable one for urging that all the wards should be white-washed within regularly once a year, and blue-washed without once in two years. All the doors and windows of the Infirmary have been painted, the wards numbered and the number of beds in each painted on the upper lintel of the principal doors, medicine shelves varnished, and drawers, bottles, and jars, neatly labelled. An unseemly cistern in the verandah of the operating room has been removed, and the drains and cesses and wells newly chunamed.

During the year the Sanitary Commissioner has inspected the Choultry and contiguous Charities. He has officially recommended several improvements in the Infirmary, regarding the necessity of which I fully concur. As his propositions have already been laid before Government, it is unnecessary to recapitulate them here. But it is expedient that special mention should be made in this report of the reduction in the number of beds advised by the Honorable Mr. Ellis. He urged that there should be but fifty-nine patients accommodated in the several wards of the Hospital, where formerly upwards of eighty have been entertained.

I have taken the liberty to introduce sixty-four beds into the Institution, including three in the Idiot cells and six in the Epidemic ward. Even to the higher numbers allotted to the general wards, I have found it deficient to restrict myself, and have been obliged to trespass upon the Epidemic ward to provide for patients affected with non-epidemic disease.

There have been 1590 admissions during 1866, which, together with 64 remaining on the 31st December 1865, make 1654 treated at the Infirmary during the twelve months under review. The casualty list is, as usual, a very long one, and shews as many as 433 deaths. The proportion of casualties to patients treated is 1 in 3.82, and in connection with this high mortality it is necessary to note three circumstances, viz., the occurrence of Epidemic Cholera, the moribund condition of a large number of those brought to Hospital, and the advanced age of a considerable proportion of those who have died.

1. The deaths from Cholera amounted to 86; of these 62 died within twenty-four hours.
2. Those who were brought in dying, and expired within twenty-four hours, were as many as 78, of which number no less than 55 sunk in twelve hours and under.
3. And looking to the ages of those who died, 87 were between 50 and 60; 55 between 60 and 70; 32 between 70 and 80; and 5 upwards of 80.

In consequence of the large draft of hopeless cases received into this Infirmary, not only from the 1st District, but also from other Districts of Madras, and even from other public Hospitals, this is fast becoming a Hospital for incurables, and there is reason to apprehend that the rate of mortality here will become still higher than it has ever been. And if additional accommodation be not provided, there will be comparatively few beds available in this Institution for any patients but those afflicted with chronic and incurable disease.

The only class of disease which calls for special remark is that of Constitutional, in which, under the order Diathetic diseases, I have to note a considerable reduction both in the number and fatality of cases of Anasarca. In 1865 there were 127 cases and 81 deaths, a very large

proportion of which were drawn from the Monegar Choultry and Idiot Asylum. But in 1866 there were but 67 cases and 46 deaths, of the latter of which only two occurred amongst the inmates of the Choultry, a difference attributable to the improved dietary.

In the order Tubercular diseases, there have been 73 cases of Phthisis.

It gives me great pleasure to report a marked improvement in the general healthiness of the insanes during 1866. In my last Report I called attention not only to the larger number of forty-two casualties, but also to the fact that twenty-five of them were the result of general Dropsy. I then also stated that a new dietary had been introduced into the Asylum during the last two months of 1865, and its use had been attended with remarkable benefit. I am happy to state that, during 1866, there has not been a single case of Anasarca under treatment, and notwithstanding an outbreak of Cholera during the last six months the casualties have been only twenty-eight, i. e., thirty-three per cent. less than they were in the preceding twelve months. Twelve deaths occurred amongst twenty-nine cases of Diarrhoea, ten amongst twenty cases of Cholera, and four from Apoplexia, Epilepsia, Nephria and Hæmoptysis, and two from Atrophia.

2. The expenses of the Idiot Asylum amounted, as per Statement furnished, to Rupees 5257-0-4. Deducting therefrom Rupees 4000, advanced to the Institution under the general authority conveyed in Proceedings of the 26th March 1860, No. 438, and Rupees 47-14-11 received for the maintenance of an idiot, the Governor in Council directs that the balance, viz., Rupees (1209-1-5) one thousand two hundred and nine, Anna one, and Pice five, be disbursed to the Directors.

3. The falling off in the local contributions of the past year is attributed by the Directors to the calls made on the public in aid of the Famine Relief Fund.

4. Adverting to the last clause of paragraph 13 of the foregoing Report, the Government observe that in their Proceedings of the 12th instant, No. 262, arrangements were sanctioned for the removal of the inmates of the Idiot Asylum to another locality, in view to the use of the building as a hospital.

5. Resolved that the Report, with the Treasurer's Account Current with the Monegar Choultry for 1866, be published in the *Fort Saint George Gazette*, and that the thanks of Government be tendered to the Directors for the interest they have taken during the past year in the management of the affairs of the Institution.
