Public **DEPARTMENT.**

G.O. No.	993	Press Mis.
Dated	14-8-	1867

Not to be folded or roughly handled

14th August 1867.

No. 97. Read the following letter from the Inspector General, Indian Medical Department, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 6th August 1867, No. 318.

Government having been pleased, in their Proceedings of 26th June last, No. 742, Public Department, to admit Native Surgeon Anthony Pillay to the allowance of 50 Rupees per mensem, for independent charge of the Zemindary Dispensary at Ramnad, I have the honor to solicit the extension of the indulgence to the three remaining Native Surgeons also in independent charge of Civil Dispensaries.

2. Native Surgeon P. S. Mootoosawmy Moodelliar has held independent medical charge of the Dispensary at Munnargoody for the last ten years, and has rendered good service to that District, as has been annually reported to Government. By his sole exertions, a lying-in-ward has been attached to that Dispensary, and the Native Surgeon is now engaged in training Native female pupils for usefulness in the District. In his last annual Inspection Report, the Deputy Inspector General of

the Division brought the claims of this Native Surgeon, for the allowance of 50 Rupees, to notice, in the extract which is quoted in the margin, for the favorable consideration of Government.

3. Native Surgeon T. Ruthnum Moodelliar is also in independent charge of the Civil Dispensary at Pollachy, and has conducted his duties very satisfactorily. The nearest European Medical Officer is at Coimbatore, which is believed to be at a distance of 20 miles from the Native Surgeon's station.

4. The third and last Native Surgeon I would recommend for the allowance is Mr. Rajanthram, of the Branch Dispensary at Cuddalore. This gentleman's claims are already well known to Government, from the recent correspondence laid before them as to the necessity for maintaining the branch institution at that station, and the advisability of retaining the Native Surgeon in connection with an institution he had been instrumental in founding and advancing to its present state of usefulness. It is right that Government should be informed that, although a branch, and situated in the same station with the Civil Surgeon, the Native Surgeon is in independent charge of the institution, and is solely responsible for its working. He takes a very lively interest in the Dispensary, has won the confidence of the people of Munjacoopum, and has altogether rendered himself deserving of the indulgence I have now the pleasure to recommend on his behalf.

5. The other Native Surgeons are attached to Dispensaries presided over by the Zillah or Civil Surgeon of the District, and are not entitled to the allowance for independent charge.

No. 98. ORDER THEREON, 14th August 1867, No. 993.

As recommended in the foregoing letter, the Governor in Council sanctions the

P. S. Mootoosawmy Moodelliar.

To

The Chief Secretary to Government, Public Dept.

Fort Saint George.

SIR,

Government having been pleased in their Proceedings of 26th June last 1862, Public Department, to admit Native Surgeon Anthony Pullay to the allowance of 50 Rupees per mensem, for independent charge of the Seminary Dispensary at Ramnad, I have the honor to solicit the extension of the indulgence to the three remaining Native Surgeons, also in independent charge of Civil Dispensaries.

2. Native Surgeon P. S. Mootarasamy Moodelliar has held independent Medical charge of the Dispensary at Maraguday for the last ten years, and has rendered good service to that District, as has been annually reported to Government. By his sole exertions a lying-in ward has been attached to that Dispensary, and the Native Surgeon is now engaged in training native female pupils for usefulness in the district. In his last Annual Inspection Report, the Asst. Inspector

General of the Division brought the claims of this native surgeon, for the allowance of 50 Rupees, to notice, in the Extract which is quoted in the margin, for the favorable consideration of Government.

3. Native Surgeon.

Pathammur Moodelliar is also in independent charge of the Civil Dispensary at Pollachy, and has conducted

his duties very satisfactorily. The nearest European Medical Officer is at Coimbatore, which is believed to be at a distance of 20 miles from the Native surgeon's station.

4. The third and last Native Surgeon, I would recommend for the allowance, is Mr. Rajanthram, of the Branch Dispensary at Coimbatore. This gentleman's claims are already well known to Government, from the recent correspondence laid before them as to the necessity for maintaining the Branch institution at that station, and the advisability of retaining the Native Surgeon in connection with an institution he had been instrumental in founding and advancing to its present state of usefulness. It is right that Government should be informed that although a Branch, and situated in the same station with the Civil surgeon,

Conduct in every way satisfactory. The people have great confidence in him as a successful practitioner and a conciliator. He is now about to resume the instruction of a class in midwifery, and as his pay of Rs. 150 is not sufficient for a gentleman in his position, I hope the Principal Inspector General will recommend the allowance for charge of a Dispensary being paid to him.

the Native surgeon is in independent charge of the institution, and is solely responsible for its working. He takes a very lively interest in the Dispensary, has won the confidence of the people of Munjacoopum, and has altogether rendered himself deserving of the confidence and support now only, I think, on his behalf.

5. The other Native Surgeons are attached to Dispensaries presided over by the Zillah or Civil Surgeon of the District, and are not entitled to the allowance for independent charge.

I have the honor to be

Sir

Your most Obedient servant
