DEPARTMENT.

G.O. No. <i>103</i>	Press Mis.
Dated <i>24</i> 1	<i>1868</i> 19

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Department,
24th January 1868.*

No. 128. Read the following letter from G. A. BALLARD, Esq., Collector of Malabar, to the Chief Secretary to Government, Fort Saint George; dated Calicut, 20th December 1867, No. 159.

Adverting to the correspondence noted,* I have the honor to submit a plan and estimate for a Civil and Police Hospital and Dispensary at Munjeri in the Ernad Taluq of this District.

*Collector to Government, dated 23rd August 1867, No. 98.
G. O., dated 16th October 1867, No. 1284.

2. The advantages of having the Female and Police Wards separate from the main building and each other are very great, but the plan entails increased expense.

Rupees 500 were allowed for the Police Ward in the total sanction of Rupees 2250 conveyed in G. O., dated 16th October 1867, No. 1284.

It will be seen that the present proposal entails an expense of Rupees 1190 for the Police Ward.

3. In the G. O. quoted there was sanctioned—

	RS.	RS.
Police Ward	500	
General	1,750	
		2,250
Private subscription		1,250
		3,500

I now venture to request for—

	RS.	RS.
Police Ward... ..	1,190	
General	2,260	
		3,450
Private subscription		1,250
		4,700

4. I think it probable there may be a rather larger amount collected by private subscriptions, and the proceeds of the Malliappoorum building will be carried to the Munjeri Hospital credit. These

Vide G. O., dated 26th November 1867, No. 1467.

sums will be amply sufficient to provide cook-rooms and privies of an ordinary

discription, and to surround the piece of ground—a very fine site of about two acres, which it must be remembered is a *gift* to the Hospital from the landlord—with a fence or mud wall.

5. I, therefore, trust that Government will be pleased to sanction the rather larger grant which I now ask for. With the concurrence of the Superintending Engineer, the building will be carried out in the Revenue Department. Stones, &c., have already been collected to a considerable extent, and I only await sanction to have the work proceeded with, and I yet hope it may be finished and the Hospital opened before the monsoon.

No. 129. ORDER THEREON, 24th January 1868, No. 103.

Under the circumstances stated by the Collector of Malabar, the Governor in Council approves of the revised plan of a Dispensary at Munjeri at an increased cost of Rupees 1200.

likely to receive support

Proceedings of the Madras Government, Public Department,

24th January 1868.

2. Mr. Ballard should, in the first instance, have carefully considered the requirements of this Dispensary, so as to have obviated the necessity of the revision of the plan and estimate.

(True Extract).

R. S. ELLIS,
Chief Secretary.

To the Collector of Malabar, with plan and estimate returned

- „ Public Works Department.
- „ Inspector General of Police.
- „ Inspector General, Medical Department.

24th January 1868
16.1.68
W. J. Ballard Esqr
Collector of Malabar
P.L. 103-24/1

I have not yet received the plan and estimate for the dispensary. The stones are made ready in the working place, and sand is now being brought to make mortar. There is a sufficient quantity of chunnam for the required work. The timbers are all brought down to Edamunna and sawing has been commenced for the Chittam. Six sawyers are come, on terms of contract from Calicut. Within a week the sawing of timbers for chittams will be finished. The working of the sawyers will have to be stopped if the plan and estimate be not received within that time. There are only four months for the commencement of rain. And then it will be difficult to bring down boards, because of from Edamunna by baidys, and also to complete the work before the rainy season.

Therefore I again humbly request your honor to send the plan

and estimate as soon as possible

I have the honor, Sir,
to remain your honor's
most obedient servant
P. M. M. M. M.

Memo for order

In this order. 16th Oct. 1867. Mr.
Govt sanctioned 2250 Rs. towards
building a dispensary at Mangiri
Malabar Dist.

Mr. Ballard now forwards plans
and estimates for three buildings
one for Males, one for Females &
one for Police at a total cost of
4700 Rs. of which he asks Govt
to contribute 3450 Rs. or 1200 Rs.
more than was sanctioned.

There are great advantages in
the separation of wards as proposed
by Mr. Ballard and Mangiri
is likely to increase in importance.
The only question is, whether the Dis-
pensary will be decedely supported
hereafter. For the present there is
not much chance of this even
from 5 of Mr. Ballards letter.

Pro of Oct. 16th Oct. 67.

But on the other hand a thoroughly
good Dispensary is more
likely to receive support

I would adhere to the
original sanction.
I doubt whether Mangiri
will ever be a place of
much importance.
I would tell him to
revise his plan.

Y Y

I am decidedly in favor
of making the Police
& female wards separate
from the main building
and I think that

than an indifferent institution
under these circumstances
I regret that Mr. Ballard's
proposal may be approved
and the increased girl
sanction awarded.

WJ

a larger grant and
to well bestowed on such
a purpose. I have shown
him given to understand
that this store of provision
of the Police work with
the then ward, in better to
direction.

I would suggest that the
plan of the female hospital
be somewhat modified so
as to secure a 'separate' ward
for special cases. Under
several of the difficulties
this need not involve increased
expenditure & this should
be ascertained.

I have no personal knowledge of the locality of the
but it strikes me that the Government made a liberal
sufficient grant on Mr. Ballard's original application, but
as we are providing accommodation for the average
diet of only 16 police men & one Inspector, I would
not increase this grant. In regard to women, we
have no data on which to calculate the probable
number of coming inpatients, but as we know
that, as a general rule, women resort very unwillingly
to these dispensaries even for out treatment, we
can depend to believe that more should not be
demanded from poor than what Mr. Ballard found
solicited. Is it not a doubtful point, whether
on the Western Coast, separate buildings during
the heavy monsoon, are as comfortable & healthy
as buildings with sufficient ventilation built
adjacent each other? WJ

I think the Police should be quite separate for the other classes
and females
