No. 121. Read the following letter from the President of the Municipal Commission, Cuddapah, to the Chief Secretary to Government, Fort Saint George; dated Cuddapah, 24th August 1868, No. 35.

Agreeably to paragraph 4 of the Government Proceedings, No. 820, dated 11th July 1867, I have the honor to forward, herewith, the annual report of the Cuddapah Municipality and statements in detail of all the works executed by the Municipal Commissioners, and of all sums received and expended by them, as provided in Section 32 of the Act.

2. I have deputed C. Stri Bauliah, the Deputy Collector in charge of the Treasury, to audit the accounts. I have ordered a remuneration of Rupees 100 be paid to him.

Annual Report of the Cuddapah Municipality,

for the year commencing 1st May 1867 and ending on the 30th April 1868.

In submitting the annual report of the Cuddapah Municipality for the year ending 30th April 1868, I have much pleasure in being able to speak most favorably of its progress and working.

2. The resources of the Municipality continue to be derived, as in the former half-year, from tolls, trade tax, house tax, license fees on carriages and animals, and registration of carts.

3. During the period under review, I am happy to say, there has been no outbreak of cholera or other epidemic disease in the town and its suburbs. Even fever, which used to be very prevalent, especially after rains, has shown itself in a very mild form in few instances. The town has been kept remarkably clean by the conservancy department, particularly since the arrival of new scavengers from Madras, for whom the Commissioners have erected separate huts. In order still further to improve the sanitary condition of the town, it has been determined to make three more conservancy carts, in addition to the five now in use, and to employ extra scavengers, and also to construct dust-boxes in different parts of the town. The sweepings of the streets and latrines are carried away to some distance and deposited in a pit, and sold every three months by public auction. The sum realized from this source amounts to Rupees 166-8-0. Two cart-stands in suitable localities have been constructed on the north-western part of the town at a cost of Rupees 641-12-0; and another cart-stand in the centre of the town has been established at a cost of Rupees 110. The manure collected in the cart-stands was sold during the past year for Rupees 112-8-0. Nine male and female temporary latrines were built at an expense of Rupees 386-7-5, and Rupees 263-11-6 were spent upon repairing seven old latrines. Seven new roads have been commenced, of which four have been completed, and the remaining three are in course of construction; upon this a sum of Rupees 2,638-4-11 has been expended. No less than 15 main and branch roads have been repaired and improved, at a cost of Rupees 7,314-3-7. Fourteen new culverts have been built, and six old culverts and bridges repaired. During the hot season, when there was a great scarcity of water, the Commissioners deepened and cleared out almost all the wells used by the people, and also excavated springs in various parts of the bed of the river, which certainly increased the water supply both for men and cattle. A great number of narrow and curved streets were widened and straightened to admit free circulation of air, and almost all the ruined and unoccupied houses and old mud walls have been removed and levelled. Many pits and holes have been filled up and drained. The prickly-pear, which was a great nuisance in harbouring dirt and filth and reptiles, has been cleared and destroyed to a very great extent. Two main drains, for carrying away the rain water, have been constructed. No masonry drains for sewage water have yet been constructed; this cannot be done until the town has been properly surveyed and correct levels obtained. The Commissioners have, however, lately given instructions to a competent person to survey the town.

4. The great desideratum in Cuddapah is a market. The Commissioners have already solicited the Government sanction for raising a loan of Rupees 11,000, agreeably to Section 70 of the Towns' Improvement Act X of 1865, for constructing one on a site which has been selected and approved of, and which is in all respects suitable.

*Proceedings of the Madras Government, Public Department,
12th September 1868.*

5. In conclusion, I beg to state that the Municipal Commissioners in their account for the last half-year have shown a balance of Rupees 3,317-12-11 as remaining unexpended; upon this the Government have remarked "that the funds available have not been so fully utilized as might fairly have been expected. There was, however, an error which arose from having taken to credit a sum of Rupees 1,487-12-0, the half of the Government contribution for that half-year, though that amount was not actually received from the Collector's Treasury. A sum of Rupees 10-3-7, transferred from the late Municipal Association has also been omitted. With these alterations, the actual balance of the Municipal Fund on the 1st day of May 1867 amounted to Rupees 1,810-4-6, instead of Rupees 3,317-12-11, as incorrectly stated

No. 122. ORDER THEREON, 12th September 1868, No. 1142.

The President of the Cuddapah Municipality submits the annual report together with a statement of the receipts and disbursements in that Municipality, for the year ending the 30th April 1868.

2. The President's attention will be drawn to paragraph 4 of G. O., dated 11th July 1867, No. 820, which prescribes that statements in detail of all the works executed and of all sums received and expended should be furnished in a form similar to that appended in Statements A, B, and C. The statement furnished on the present occasion is not in conformity with these statements. It is desirable that, in future, the forms laid down should be adhered to.

3. The statement of receipts and disbursements shows that the Commissioners commenced the year with a balance of Rupees 1,810-4-6, and that they received and collected during the year the following sums:—

	RS.	A.	P.
Rate on houses...	5,689	15	0
Tax on vehicles and animals...	1,335	8	0

making in all Rupees 31,719-12-4.

4. The chief sources of revenue were from tolls; tax on arts, professions, &c.; and a rate on houses. Of the collections made under the latter head, Rupees 1,359-7-0 were arrears, and Rupees 4,330-8-0 current.

*Proceedings of the Madras Government, Public Department,
12th September 1868.*

5. The outlay on the works executed during the year amounted to Rupees 31,442-12-4, as particularized below.
