*Proceedings of the Madras Government, Public Department,  
12th February 1868.*

No. 86. Read the following letter from the Deputy Superintendent of Vaccination, Godavery Circle, to the Superintendent General of Vaccine, Madras Presidency; dated Camp at Berhampore, 30th December 1867, No. 206.

I beg to inform you that travelling in the Hill Tracts of Orissa is not only hazardous and arduous, but also very expensive, the unhealthiness of the climate having gained such celebrity that few are willing to venture there; I am very much afraid that next year there will be scarcely two out of the whole staff of Vaccinators fit for duty. Government liberally grant double batta to the Collectors and other establishments temporarily visiting the hills on duty, whilst those serving in the hills are liberally paid. I respectfully beg that the claims of the Vaccine Establishment may be taken into consideration, and the boon of double batta be granted to us also during our tenure of service in the hills, at the risk of life and health we serve in the hope that our claims may be favorably considered: we beg no more than that granted to the other branches of the service.
