To

Charles Hough Esq.

Assistant Collector
of Salem

Sir

I have the honor with reference
to your letter No. 4 dated the 17th Instant
to state that a Bill for your salary
from 16th to 31st December 1867 signed
by the Chief Secretary to Government was
passed upon the 1st January last and
a Cheque issued on the same date in
that Officer's favor for the net amount
thereof Rs. 145-2-7. It is understood that
the same was forwarded to you direct by
the Chief Secretary's Department.

*Proceedings of the Madras Government, Public Department,
7th March 1868.*

No. 48. Read the following letter from the Collector of Salem, to the Chief Secretary to Government, Fort Saint George; dated Salem, 29th February 1868, No. 18.

My Assistant Mr. Kough writes me word that he has not received his salary for the period between 16th and 31st December 1867, but it would appear from a letter received by him from the Examiner of Claims, dated 20th instant, a copy of which is enclosed, that the amount due, viz., Rupees 145-2-7, was drawn by Cheque by the Chief Secretary's Department on the 4th ultimo. Perhaps you will kindly have this matter looked into, and give the necessary orders on the subject.

From the Examiner of Claims, Fort Saint George, to the Assistant Collector of Salem; dated Fort Saint George, 20th February 1868, No. 165.

I have the honor, with reference to your letter No. 4, dated the 17th instant, to state that a Bill for your salary from 16th to 31st December 1867, signed by the Chief Secretary to Government, was passed upon the 4th January last, and a Cheque issued on the same date in that Officer's favor for the net amount thereof, Rupees 145-2-7. It is understood that the same was forwarded to you direct by the Chief Secretary's Department.

No. 49. ORDER THEREON, 7th March 1868, No. 302.

As the Cheque for Rupees 145-2-7 for Mr. Kough's salary from the 16th to 31st December 1867, which was sent to his address at Salem on the 9th January last, appears to have miscarried, the Accountant General is requested to cancel the Cheque in question, and to arrange for the payment of the amount to Mr. Kough on satisfying himself that the Cheque has not been presented, or the money drawn from the Bank of Madras.

(True Extract).

Chief Secretary.

To the Accountant General.

„ Collector of Salem.

„ Examiner of Claims.

Ed. F. Bantleman.

I. General observations bearing upon the climate, seasons, atmospheric phenomena; their influence upon the public health of the districts; presence or otherwise of epidemic diseases.

The prevalence of the diseases, fever, dysentery, diarrhoea, ophthalmia, and dracunculus, among the people is injurious to the public health, although the present season is more favorable than last year.

II. A detailed narrative of any epidemic diseases which may have existed during the year, from its first appearance until its subsidence, and whether influenced in its origin or progress by its atmospheric changes, &c.

There is no appearance of epidemic cholera and small-pox in the district of Cumbum during the year.

III. Remarks on the principal diseases and classes of diseases, medical and surgical, which have been most prevalent.

Five in-patients were admitted during the year, viz., one anasarca, one atrophica, one contusio, and two vulnus incisum, and of these one died and four recovered.

The out-patients 2604, viz., 1 parotitis, 1558 intermittent and 3 remittent fevers, 108 ophthalmia, 54 dysentery, 51 diarrhoea, 60 rheumatism, 78 other zymotic diseases, 30 anasarca, 14 other constitutional diseases, 96 diseases of the nervous system, 1 disease of the circulatory system, 62 diseases of the respiratory system, 277 diseases of the digestive system, 12 diseases of the urinary system, 6 diseases of the locomotive system, 134 diseases of the integumentary system, 4 other local diseases, 5 developmental diseases of women, 28 diseases of nutrition, and 28 wounds and injuries. Out of these 5 deaths have occurred, 1 from intermittent and 1 remittent fevers, 1 anasarca, 1 ascites, and 1 atrophica.

The intermittent fever having broken out during the latter end of September, the public health is still in a suffering state in consequence of occasional and unexpected attacks. Its prevalence is greatly extended among the whole community, both young and aged everywhere, both in low and damp places, as well as high and dry localities in Cumbum. The existing fever is more obstinate and resists large doses of all antiperiodic medicines, and brings on a series of ill results, such as emaciation, enlarged and indurated state either of spleen or liver, jaundice, dysentery, and general dropsy. The cases which came under my treatment lastly recovered.

IV. Special cases which have been particularly worthy of notice.

There are no special cases worthy of notice.

1st.—Remarks on the success which has attended the efforts to make the Dispensary self-supporting. If any obstacle exists, point out what appears the best mode of removing them.

The Dispensary is supported by voluntary contributions of some of the Natives through the aid of the subordinate officials, both Revenue and Judicial; but I am sorry to state that they are not willing to come forward to give liberal aid, although the Acting Head Assistant Collector advised and communicated its benefit to them.

The present Dispensary for the accommodation of in-patients is not a substantial one, but it was built, for a temporary use, with mud walls and thatched roof.

2nd.—If a Lying-in-Hospital has been established give an account of it, and state what efforts have been made to introduce a more rational system of treating puerperal women in the town.

No system of this kind is introduced.

3rd.—List of operations performed during the year.

Abscessus, opened, 5 cured.
Ascites, tapped, 2 relieved.
Fracture of the upper arm, set, 1 cured.
Do. do. clavicle, set, 1 cured.
Dislocations, reduced, 3 cured.
Stricture Urethrae, catheterism, 5 cured.

N. B.—This is to certify that the orders respecting the custody of poisonous drugs, issued by the Inspector General, Indian Medical Department, dated 23rd January 1863, are fully carried out.

CUMBUM, 1st January 1868.

(Signed) P. PARSERAMOOLOO, 1st Dresser,
In Medical charge, Civil Dispensary.

*Proceedings of the Madras Government, Public Department,
