Chief Secretary.

Public Works Department.
Proceedings of the Madras Government
Read the following

Proceedings of the Madras Government, Public Department,
1st April 1868.

No. 9. Proceedings of Government, dated 1st April 1868, No. 413.

The Governor in Council observes that no provision has been made for the house drainage of the buildings on the Esplanade, which are ready for the reception of the Warrant Officers attached to the Arsenal.

2. The water from the bath and cook-rooms of these cottages will run out on the ground at the back of the houses, and there become a source of offence.

3. It will be necessary to run a fence at the back of the row of these new buildings so as to divide them from the High Road, the fence not to include the wells which are used by the Native population of the neighbourhood, and to which free access must be left. Pipes should at once be laid for the distribution to these new buildings of the water of the Seven Wells from the main pipe, which is at no great distance.

4. Trees for shade, not Casuarinas, should be planted to the south of the houses with due care, seedlings being provided if possible, and they should be well fenced. The Peepul, in alternation with the Margosa tree, will probably be found best suited to this locality.

5. The necessary orders will be issued in the Public Works Department.

(True Extract).
