No. 54. Read the following Proceedings of Government, Public Works Department.

Read letter from the Secretary to the Government of India, Public Works Department (Account), to the Secretary to the Government of Madras, Public Works Department ; dated Simla, 3rd July 1868, No. 486A.

I am directed to acknowledge receipt of your letter, No. 1705, dated 29th May 1868, conveying the reply of the Government of Madras to the remarks made by the Government of India on the Local Fund Public Works Budget Estimate of that Presidency for the current official year.

2. The only point in the letter which appears to call for remark is the inquiry contained in the 4th paragraph thereof, viz., whether it is the wish of the Government of India that the Local Fund Budget Estimates should hereafter contain full particulars of the proposed outlay on new works and repairs by the Municipalities of Madras and of the various stations in the Mofussil where such institutions have been organized, it being observed that in this case the measure would entail very considerable trouble, and cause great delay in the submission of the estimates. In reply to this question, I am desired to state that, in order to complete the estimate, it is necessary that the probable outlay from Municipal Funds should be included, but in such detail only as the Government of Madras may be able conveniently to supply without causing any serious delay in the submission of the estimate.

3. The necessary information on this head required to complete the estimate for the current year should, I am to say, be furnished as soon as possible.

4. I am at the same time to suggest that the Government of Madras may take into consideration the question of the annual preparation of a Municipal Fund Budget, drawn up on the plan of other Public Works Budgets, or perhaps in less detail if convenient.

Order, 30th July 1868, No. 2426.

Ordered that the foregoing letter from the Government of India be communicated to the Public Department, with reference to paragraph 4 of the Proceedings of this Department, No. 1704, dated 29th May 1868, and with a request that the Municipalities of Madras and of the various stations in the Mofussil where such institutions have been organized may be called upon to furnish without delay an estimate, in the Budget forms if possible, of the proposed outlay on new works, repairs, and establishments during the current official year, and to furnish, in future, similar statements annually in time to reach the Government Office on or before the 1st November preceding the year to which the estimate relates.

2. In the event of it being in contemplation to entrust the execution of any work to the Officers of the Public Works Department, the circumstance should be specially noticed in the Budget Estimates.
