		Mis.
Dated	28-7-	1869

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Department,
28th July 1869.*

No. 188. Read the following letter from the Acting President of the Municipal Commission, Nellore, to the Chief Secretary to Government, Fort Saint George; dated Sriharikota, 15th July 1869, No. 1372.

I have the honour to forward statements of receipts and disbursements, together with audit and annual reports of the Nellore Municipality for the official year 1868-69. The reports herewith submitted were approved of by the Commissioners at a meeting held on the 12th instant.

Annual Report of the Proceedings of the Municipal Commissioners of Nellore for the year ending on the 30th April 1869.

The Commissioners appointed for the year were thirteen in number exclusive of ex-officio members, and twenty-five meetings were held, at which the average attendance was seven.

2. It having been considered desirable that the services of a non-official, a native of the town, should be obtained for auditing the accounts, one Seetaram Lalah, at the desire of the Native Commissioners, was entrusted with this duty. His report, together with the certified statements of receipts and expenditure in the usual form, are enclosed.

3. The balance at the close of the last year was Rupees 165-0-5; the total receipts from all sources during the year has been 21,260-3-0, and the expenditure Rupees 20,739-6-4, leaving thus a balance, on the 30th April 1869, of Rupees 685-13-1. Of the receipts Rupees 1928-5-2 were on account of arrears, the rest, Rupees 18,496-13-10, being collected on account of the year under review. Of the expenditure Rupees 4100 odd were expended on new works, the principal items of which were the Cutcherry square reservoir, and the slaughter-house, and 2100 on repairs. It will be observed that, of the total amount expended, Rupees 17,624-3-10 were expended on works falling within the provisions of Section 25 of the Act.

4. New works—(1.) *Buildings*.—The only work coming properly under this head is the slaughter-house and yard, of which a plan is enclosed; it has now been completed at a cost of Rupees 2368-9-4. The slaughter-house was opened on the 16th December last, the hours for slaughtering being fixed at from 5 to 8 A.M. and 3 to 6 P.M.; a uniform charge is fixed upon each sheep brought. The establishment consists of a clerk on a salary of Rupees 10, and a sweeper on Rupees 5. The yard seems to have been a success; the receipts since its opening have been Rupees 136-1-3, and expenditure Rupees 59-0-4, leaving a balance of Rupees 77-0-11, which shows a profit of more than three per cent. on the expenditure.

2. *Tanks and Drains*.—The chief works to be mentioned under this head are the Cutcherry square reservoir, and the six village reservoirs. The former has now been completed at a cost in this year of Rupees 823-4-0; a plan is herewith submitted. In connexion with this subject it may be mentioned that the Commissioners have lately resolved to purchase a Persian wheel or bucket-pump, and have written to Colonel Carpendale on the subject. The pump will be put up at the Skewbridge in Traverspett, and the water from the channel raised by it will be taken into the reservoir, and thence after filtration will be conducted by conduits to the east of the main bazaar. Another channel will conduct the water from the bridge to the western parts of the town.

In the six village reservoirs it is proposed, by raising a bund between the skew and Traverspett bridges, to form a basin where water will be stored contiguous to the market-place, and from which a supply may be regulated to certain neighbouring villages. The original estimate for the work was Rupees 400, and it was commenced in January; up to this time Rupees 148 have been spent, and its progress has lately been suspended from want of funds.

3. *Roads*.—The only work of any importance under this head is the new road into the town across the Survepally gate. Full information on this project has already been given, and it has received the sanction of Government. In last year's report mention was made that Rupees 1015 had been expended in the purchase of the bastion from Mr. Ward. The work was commenced last October, and up to the present time Rupees 800 have been expended in removing the bastion, constructing some tunnels, and making 1700 square yards of road.

Proceedings of the Madras Government, Public Department,
28th July 1869.

4. *Miscellaneous.*—In paragraph 10 of last year's report mention was made of a project for erecting a market at the Survepally gate; Rupees 329 was spent this year in further levelling the site. The work was lately suspended from want of sufficient funds. The work of levelling a site for a Mussulmen graveyard was executed last year, and mention was made of it in the report; the expenditure, Rupees 65-8-1, has been entered in the accounts of the year as the bill for payment was not presented till June 1868. The ground here has been found to be too hard for the purpose originally intended, and it is proposed to use it as a site on which to erect police lines. This, however, has not as yet been carried out.

5. *REPAIRS*—(1.) *Buildings.*—Under this head Rupees 324 was expended chiefly in petty repairs made to five latrines and 235 dust-boxes, and in constructing parapett walls to three wells. The police station was also cleaned and whitewashed, floor tarred, and four new iron-grated doors supplied. Besides these ordinary repairs Government in G. O., No. 1316, dated 21st October 1868, have consented to bear the cost of certain extra repairs, such as asphaltting the floor, and inserting ventilators. Up to this time Rupees 83-8-1 have been spent in inserting ventilators and in collecting some materials.

(2.) *Roads.*—Seven roads were repaired at a cost of Rupees 1676-11-8; with the exception of that to Nabobpett, the main roads are mostly in fair order; Rupees 3400 have been allotted for their maintenance during the current year.

6. *Conservancy.*—The Commissioners are glad to observe a marked improvement in the general appearance and cleanliness of the town, owing to conservancy operations and to the greater strictness with which the conservancy clauses of the Act, now that they are very generally known, are put in force. The conservancy establishment at present employed consists of three Nuisance Inspectors, ten scavengers, fifteen toties, and thirty-two bandymen, the business of the latter being to take away in carts the night soil and rubbish, collected by the scavengers and toties, to places at a distance fixed for the purpose. In G. O., No. 641, dated 18th May 1869, it was suggested that bullocks should be used to draw the carts instead of coolies, but the Commissioners think that such a plan would entail upon them considerable inconvenience, besides being more expensive. The latrines have been extensively used, and it will probably be necessary to erect a few more during the current year. Licenses have been issued in ten cases for private cart-stands, three at Rupees 10, and seven at Rupees 5 annually; and it is the duty of the Nuisance Inspectors in their daily rounds to see to the cleanliness of those places. Licenses have also been issued in fourteen cases for brick-kilns, sites being fixed by the Commissioners with a due regard to the health of the adjacent community. Several provisions of the Act, such as those applying to the setting apart of tanks for drinking purposes, for bathing, for washing clothes, &c., have not yet been put in force; but the Commissioners do not think it desirable to be too precipitate in introducing a number of measures until the people become more accustomed to the working of the Act.

7. *Police.*—The statement of receipts and expenditure required from the Superintendent of Police, under Section 30 of the Act, is submitted with the report. The amount under each head is Rupees 6830-9-3.

8. *Establishment.*—The total sum expended under this head, it will be observed, is Rupees 2400, being about Rupees 349-5-8 less than the previous year. The Commissioners here desire to put on record their sense of the satisfactory manner in which Mr. Williams, the Manager, has discharged his various duties. The special knowledge he possesses in engineering matters has proved of great use. The other servants employed have also, the Commissioners are glad to remark, discharged their various duties most satisfactorily.

9. *Health.*—The general health of the town during the year under review has been good; the total number of deaths from disease was 219, which is a small percentage out of a population of 23,000 nearly. Of these deaths 52 were from fever and 12 from small-pox. No cases of cholera have been reported. Two large festivals took place in February last; at these and at the agricultural show a large concourse of people about 30,000 assembled; a Sub-Committee was formed and certain sanitary arrangements made, at a cost of Rupees 51-8-4, in employing an extra

Proceedings of the Madras Government, Public Department,
28th July 1869.

establishment, and erecting nine extra latrines. No disease broke out on the occasion of these festivals. The Vaccinator employed by the Municipality, on a salary of Rupees 10, (raised lately to 12,) has been working very successfully through the town. During the year 1264 persons were vaccinated, 754 being males and 510 females. Out of the large number of cases no less than 1158 were successful.

NELLORE,
13th July 1869.

(Signed) C. J. KNOX,
Acting Vice-President.

ENCLOSURES 2, 3, and 4.—Statements of Receipts and Disbursements.

- ” 5.—Plan of a Slaughter-house.
” 6.—Plan of a Reservoir.
” 7.—Auditor's Report.

No. 189. ORDER THEREON, 28th July 1869, No. 1051.

With the foregoing letter the President of the Nellore Municipality submits the annual report, the report of the Auditor, and the abstracts of the accounts of receipts and disbursements for the year 1868-69.

2. It appears from the return of receipts C. that the Municipal income was derived from the taxes, tolls, fees, &c.,

	RS.	A.	P.
Rate on Houses and Buildings	5,905	10	8
Tax on Arts, Trades, &c.	82	0	0
Tolls	4,434	5	4
Tax on Carriages, &c.	1,935	8	0
Registration of Carts	730	0	0
Fees for licensing Slaughter-houses, Cart-stands, &c.	267	10	11
Miscellaneous receipts	1,329	6	10
Advances recovered	100	0	0
	14,784	9	9
Government contribution	5,858	1	0
Balance in hand	165	0	5
	20,807	11	2

specified in the margin. The total amount realized less refunds was Rupees 14,784-9-9, which, with the balance from last year, Rupees 165-0-5, and the amount of Government contribution, (Rupees 5858-1-0 arrears and current,) received during the year, placed at the disposal of the Commissioners a sum of Rupees 20,807-11-2.

3. The expenditure amounted to Rupees 20,121-14-1, of which Rupees 17,624-3-10 were for purposes specified

	RS.	A.	P.
New works	2,007	11	10
Repairs	2,036	1	1
Conservancy	4,326	10	6
Police	6,830	9	3
Establishment	2,423	3	2
Total	17,624	3	10
For purposes other than those specified in Section 25	2,167	14	10
Recoverable advances	329	11	5
	20,121	14	1
Balance in hand on the 30th April 1869	685	13	1
Total	20,807	11	2

in Section 25 of the Towns' Improvement Act, Rupees 2167-14-10 for purposes other than those specified in that Section, and Rupees 329-11-5 for advances. The balance on the 1st May 1869 was Rupees 685-13-1. But as a sum of Rupees 254-9-11 is due to the Commissioners to make up the actual amount of the State contribution for the year, they will have had at their disposal, irrespec-

tive of the advances recoverable, Rupees 940-7-0.

4. The new works undertaken and completed within the year, are, a slaughter-house, a reservoir in the Cutcherry square, and drains in Rajjee street. From the plan of the slaughter-house the building seems well-adapted for the purpose. The expenditure incurred under "Repairs" were on "Latrines," "Wells," "Dust-boxes," "Police Station," "Roads," and "Drains."

*Proceedings of the Madras Government Public Department,
28th July 1869.*

5. The Conservancy Establishment seems to have been properly worked ; and the Government learn with satisfaction that a "marked improvement" has taken place in the "general appearance and cleanliness of the town."

6. The particulars given in the body of the report regarding the Conservancy Establishment, should, in future, be given in Return A., which is expressly intended for such details.

Report on the accounts of the Municipality
for the official year 1868/69.

1 The undermentioned Registers Books
and files are kept in this office, i.e.

Register of Arts, Professions, Trades & Callings

Lee of Vehicles and Animals.

Lee of Carts

Lee of Houses & Buildings

Lee of Lands

Lee of Miscellaneous Licenses

Lee of Appeals.

Cash Book

Lee of Silegie Chitta

Cheque Book

Treasury remittance Book

Stock Book

File of Monthly & Annual Accounts Current

Lee of Do. Lee Progress Report of Works

Lee of Letters Despatched & Received

2 These Registers have been preserved

in an excellent manner. Their neatness

and cleanliness is due to the fact

of their being free from unnecessary

corrections, erasures & interpolations.

any authorized corrections &c. have

been made in red ink to facilitate

reference.

3 My Examination has been most

close and scrutinizing; each item in

the Cash Book has been checked with

those in the Silegie Chitta and found

by Mr. H. B. 14/12/69

correct, there are Vouchers for every amount expended. The monthly accounts drawn agree with the entries in the Cash Book there has not been a single sum which was disbursed without due authority. The Bills for completed and incomplete works agree with the annual Progress Report.

4 I have to remark that the file of Vouchers has been confusedly kept; the confused state of this part of the record has given me much trouble. More attention ought to be paid in future to the arrangement of these papers. The service of an attendant I think is necessary for the proper arrangement and preservation of records.

5 The present system of keeping accounts &c. if continued with such improvements from time to time as experience may suggest will no doubt facilitate reference and the preparation of annual accounts and reports.

6 It is not surprising to expect these accounts to be in such perfection, there being such an able officer as Mr Williams the Manager whose experience in the execution of works and account keeping is not small.

7 It has been the custom in the office the stock only 3 times a year

but it is my opinion that such examination should take place in each quarter.

8 I learn that great delay is made by the Treasury officer in submitting to his office dockets informing that remittances of Round Collections and road cess have been directly credited to the Municipal fund in the Treasury. This delay certainly renders incomplete monthly as well as annual accounts.

9 While the Collections of Professional Tax were in progress, the Government in their order No 552 dated 5 May 1868 clearly exhibited their disapproval and ordered refund of such collection which amounted to Rs 424; accordingly a sum of Rs 342 was refunded and the remaining 82 Rs has not been paid as yet under the ground that the parties have missed their certificates. I am of opinion that it should be refunded as early as practicable, after making proper investigation as to the identity of the holders and also by a reference to the Professional Tax Register.

10 The present system of filing Dist^{ct} Gazette and Government Proceedings causes an injury to the papers, therefore it is recommended that they may be properly bound in two Volumes for a year.

11 In conclusion it would be

will to say a few words upon the efficiency
of the Office Establishment. The present
system of working reflects much credit
on the Operation of the Manager, the Head
and 2^d Clerk. The remuneration they
at present receive is I think, quite
inadequate and it is requested that
the Commissioners will take my
recommendation into their favorable
consideration. —

12 The balance brought forward
Rs 685-13-1 has been found quite
Correct. —
