*Proceedings of the Madras Government, Public Department,
26th January 1869.*

No. 139. Read the following letter from the President of the Municipal Commission, Madras, to the Chief Secretary to Government, Fort Saint George; dated Madras, 14th January 1869, No. 22.

I have the honor to submit, for the favorable consideration of the Right Honorable the Governor in Council, the accompanying application from my Assistant, Mr. Cardozo, for twenty months' leave of absence to England on medical certificate herewith annexed. As will be seen from Mr. Cardozo's letter to my address, he is very anxious to proceed by a vessel leaving this port in February next, and in order to enable him to secure a passage for himself and family, I would beg to request early consideration of his application.

2. I regret very much that the state of his health should necessitate this step, as I shall miss very much the ready help and assistance which have always been so cheerfully and cordially rendered by Mr. Cardozo during my tenure of office.

3. I would fain hope that Government may see fit to allow of his drawing a moiety of his salary for the entire period of the leave granted him, under Section 13 of Municipal Act IX. of 1867.

From B. CARDOZO, Esq., Assistant to the President of the Madras Municipal Commission, to the President of the Municipal Commission, Madras; dated Madras, 14th January 1869.

I have the honor to enclose a certificate from my Medical Attendant Dr. R. S. Mair, with a statement of my case, countersigned by the Acting Surgeon of the 4th District, and by the Inspector General, Medical Department, recommending me to apply for leave of absence to proceed to Europe for twenty months, and to request that you will submit the same for the favorable consideration of Government.

2. I beg to mention that I have only once, during a period of twenty years and ten months' public service, been absent from duty, on medical certificate, viz., in 1865, for a period of six months in India.

3. I purpose proceeding to England by one of the vessels advertised to sail from Madras in all February next; but it is necessary, in order to secure good accommodation for myself and family, that I should engage passages with as little delay as possible.

STATEMENT of the case of Mr. B. Cardozo, Assistant to the President, Madras Municipal Commission.

Disease, Diabetes, Dyspepsia; temperament, Leuco-phlegmatic; habit very temperate; age 53 years; residence in India 35 years.

Mr. B. Cardozo is at present, and has been for a considerable time past, in a bad state of health. The principal symptoms complained of are loss of appetite, prostration of strength, depression of spirits, headaches, diarrhoea, pain on loins, and impaired memory. During the past eighteen months, repeated examination of the urine show the presence of sugar in varying quantities.

The treatment adopted has chiefly consisted of tonics, astringents, stimulants, and alkalies, (for diabetes).

As no permanent benefit has been derived from any treatment, and as the above symptoms are, to the best of my belief, mainly due to the long and uninterrupted (35 years) residence in a tropical climate, I am of opinion that a sea voyage and change of climate are absolutely necessary for Mr. Cardozo's recovery.

I have, therefore, recommended Mr. Cardozo to apply for leave of absence to proceed to Europe for twenty months, and have granted him the required certificate accordingly.
