MADRAS RECORD OFFICE.

Government of Madras.

Public DEPARTMENT.

G.O. No.	1146	Press ~~Mis.~~
Dated	14-8-	1869

Not to be folded or roughly handled

Proceedings of the Madras Government, Public Department,
14th August 1869.

Read the following papers:—

No. 103. From the Sanitary Commissioner with the Government of India, to the Secretary to the Government of India, Home Department; dated Simla, 19th June 1869, No. 467.

I have the honour to suggest, for the consideration of the Government, the advisability of introducing an uniform series of statements for the purpose of registering vaccination in the different provinces. These returns now vary much, and it is in consequence difficult to draw any comparison between the results shown in them.

2. The information which is now furnished is, in some cases, extremely meagre, and in nearly all there is an absence of definite data regarding the extent and cost of the establishments. Such details are of great importance in connexion with the results attained by the department, and they would be extremely useful for reference when proposals regarding increase or re-arrangement of expenditure are submitted for sanction. A recent reference of this nature, which was forwarded for opinion, was the occasion of bringing to my notice the defective and varied nature of the annual statements now in use.

3. I have, therefore, the honour to submit the enclosed forms for the consideration of the Government, and would suggest that they should be introduced with any additions or modifications that may be thought desirable from the commencement of the ensuing year. The forms are simple, and any explanations that appear to be required have been given, for the sake of convenience, as footnotes.

4. In some provinces, the results of the calendar year are now reported on; in others, the vaccination season is taken as the standard. There are great advantages connected with taking the latter as the period for annual report, and I would, therefore, recommend that the Vaccination Returns should be for the period embraced by the financial year, which corresponds very nearly with the time during which vaccination can be successfully carried out in most parts of India.

—
No. 3232.

Copy forwarded to the Government of Madras for an expression of opinion on the forms proposed by the Sanitary Commissioner with the Government of India.

An early reply is requested.

(By Order of the Governor General in Council).

Under Secy. to the Govt. of India.

—

Referred to the Sanitary Commissioner for early report, in communication with the Inspector General of the Indian Medical Department.

FORT SAINT GEORGE,
27th July 1869.

(Signed) H. E. STOKES,
Actg. Under Secy. to Govt.

Proceedings of the Madras Government, Public Department,

14th August 1869.

No. 104. From the Sanitary Commissioner for Madras, to the Chief Secretary to Government, Fort Saint George; dated Madras, 2nd August 1869, No. 2718.

I have the honour, with reference to your Under Secretary's Memorandum of the 27th ultimo, to inform you that, in communication with the Inspector General, of the Indian Medical Department, I addressed the Superintendent General of Vaccination, who sees no objection to the adoption of the forms submitted with the view to render the Vaccine Returns of the three Presidencies uniform.

2. The Superintendent General's letter is appended.

From the Superintendent General of Vaccination, Madras Presidency, to the Sanitary Commissioner, Madras; dated Madras, 30th July 1869, No. 905.

I have the honour to acknowledge the receipt of your letter, No. 2708, of the 29th instant, with enclosures, late last evening, and to which I hasten to reply.

2. I see no objection whatever to the adoption of the forms now submitted with the view of rendering the Vaccine Returns in the three Presidencies uniform.

3. The form now proposed for registering vaccination is very much simpler than the one we now have in use, but it will require some very trifling modifications to suit the vaccine arrangements of this Presidency.

4. For instance, we have no circles but districts, each of which is in charge of a Superintendent of Vaccination, and I am not aware of mortuary statistics being available in every district in this Presidency. We have no columns in our returns for entering re-vaccination.

5. With reference to paragraph 4 of the Sanitary Commissioner of the Government of India suggesting the substitution of the financial for the calendar year, I think it a good plan, but at first perhaps it may cause some trifling confusion. The adoption of this suggestion or otherwise I must leave to the Inspector General of the Indian Medical Department to decide.

6. On receiving the necessary authority arrangements will at once be made for introducing the new form of returns with the beginning of the year 1870.

No. 105. To the Secretary to the Government of India, Home Department, dated Fort Saint George, 14th August 1869, No. 1146.

With reference to Mr. Under Secretary Geoghegan's endorsement of the 12th ultimo, No. 3232, requesting the opinion of this Government on the forms proposed by the Sanitary Commissioner with the Government of India in view to render the Vaccine Returns of the three Presidencies uniform, I am directed to state that there is no objection to the adoption of these forms in this Presidency.

(Signed) R. S. ELLIS,
Chief Secretary.

Exd. A. S. Rodgers.

No. 467, dated Simla, the 19th June 1869.

From—J. M. CUNNINGHAM, Esq., Sanitary Commissioner with the Government of India,
To—The Secretary to the Government of India, Home Department.

I HAVE the honor to suggest, for the consideration of the Government, the advisability of introducing an uniform series of statements for the purpose of registering vaccination in the different provinces. These returns now vary much, and it is, in consequence, difficult to draw any comparison between the results shewn in them.

2. The information which is now furnished is in some cases extremely meagre, and in nearly all there is an absence of definite data regarding the extent and cost of the establishments. Such details are of great importance in connection with the results attained by the department, and they would be extremely useful for reference when proposals regarding increase or re-arrangement of expenditure are submitted for sanction. A recent reference of this nature, which was forwarded for opinion, was the occasion of bringing to my notice the defective and varied nature of the annual statements now in use.

3. I have, therefore, the honor to submit the enclosed forms for the consideration of the Government, and would suggest that they should be introduced with any additions or modifications that may be thought desirable from the commencement of the ensuing year. The forms are simple, and any explanations that appear to be required have been given for the sake of convenience, as foot notes.

4. In some provinces, the results of the calendar year are now reported on; in others, the vaccination season is taken as the standard. There are great advantages connected with taking the latter as the period for annual report; and I would, therefore, recommend that the vaccination returns should be for the period embraced by the financial year, which corresponds very nearly with the time during which vaccination can be successfully carried out in most parts of India.
