From

OFFICE OF SANITARY COMMISSIONER,
Madras, May 11th 1869.

Sanitary Commissioner for Madras,

To

Honble R. S. Ellis Esq.

Chief Secretary to Government
Fort St. George.

Sir,

In reply to Mr. Under Secretary Stokes' official Memorandum No. 199 dated 8th. Current forwarding plan of a Civil Dispensary proposed to be erected at Trichinopoly, I have the honor to state for the information of Government that, the mode of occupation of the rooms is not indicated, and that in the absence of this information it is impossible to report on the plan.

Enclosures
I.

2. I observe however that in several respects it is manifestly incomplete. There are no subsidiary buildings of any kind, as Dead house, Cook room, Latrines, Lavatories &c. and no sufficient means would appear to be afforded for segregation of males and Females, or of ordinary and special cases, respectively nor do any wards of contagious diseases appear to be contemplated.

3. I respectfully venture to suggest that full information on all these points should be submitted with a revised estimate showing the total cost of the proposed institution compared as before indicated. The calculated requirements of the District should also be stated.

4. The cost of that portion of the main building now proposed to be erected (viz 19,436 Rs.) is greatly in excess of former proposals on this point as detailed in my

Report

Tichinopoly Collectors Office
22nd April 1869.

N. 24.

From, Geo. Bunbury Esq.
Collector of Tichinopoly.

To, The Honble R. S. Ellis Esq.
Chief Secretary to Government.
Public Department

Fort Saint George.

Sir,

At the request of the President and Members of the Committee for the management of the Civil Dispensary at this Station, I have the honor to submit the accompanying Plan and Estimate for the construction of a building for our Civil Hospital.

The Plan and Estimate were prepared after careful consideration of the actual requirements of the District, the Station, and its immediate neighbourhood. The estimated expenditure amounts to Rs. 20,000. It is proposed to erect the

Yours truly
R. S. Ellis

the building on the high end open ground behind the District Jail, which space was relinquished to Government agreeably to their Proceedings quoted in the margin. This site has been selected not only as the most advantageous, but likewise as the only really eligible spot available in Trichinopoly for the intended purpose.

G.O. 13 Nov 1857

R.D.

3. When, in 1866, the Committee proposed to allot 3,000 Rs. from the funded assets of our Dispensary towards the erection of a building, the Government expressed their readiness to contribute a similar grant. The aggregate viz (Rs. 6,000) was then found to be altogether insufficient to construct a suitable building. Applications were subsequently made for a grant from famine funds, and failing in this request, all possible means were employed to increase, as much as possible, the private contributions from

from the District at large. The result has placed the Assets of our Dispensary on the footing given below.

In Govt. Promissory Notes at 4 Per Cent. 20,000
Cash on hand 12,659-4-5
32,659-4-5

4. We anticipate being able to collect within a short time the balance requisite for raising the assets to Rs. 35,000, but I fear it is hopeless to expect any further realizations from this source.

5. The Committee have resolved to assign 10,000 Rs. for the construction of the proposed building, and to invest the balance of the amount on hand in Government Paper, as soon as the anticipated collections are realized. The Dispensary will then have at its credit a permanent fund of Rs. 25,000 yielding annually an income of Rs. 1,000, which together with the monthly subscriptions realized from local Residents will, for the present, suffice to maintain the

the Dispensary up to its present standard -

6. As the Committee are unable to spare a larger sum than the amount above specified, without trenching upon their funded Capital, I am desired to request that the Government will be pleased to come to our aid by supplementing the allotment by a similar grant. The aggregate viz. £20,000. will fully cover the required expenditure.

7. As regards the building now proposed to be erected, the plan has been examined, and the Estimate prepared by Captain Vertue the Executive Officer in whose Range the work will be carried out; and whose letter upon the subject I beg to forward. The wings at first annexed to the building altho' affording extra and valuable accommodation added

added so greatly to the outlay, that they have been struck out of the plan, and Estimate, as shown in the former. Should our funds hereafter increase, by legacies or donations, these additions to the present structure can easily be made. I may finally mention that it would be very beneficial to us to have early orders on the subject, as if the Dispensary is sanctioned during the tenure in Office of our present President, Mr. Cadell, we shall have the great advantage of his well known skill and judgment in all matters connected with building and architecture.

I have the honor to be,
Sir,

Yours most Obedt Servt.

Order thereon. No. 1155. 18 Aug. 1869.

In October 1866, the Committee for the management of the Civil Dispensary at Trichinopoly, resolved to assign a sum of Rs 3,000 from the funded capital, towards the erection of a suitable Dispensary at that station if the Government would make a grant-in-aid equivalent to the amount assigned. The Government in Order dated the 14th November 1866, No. 1168, expressed their readiness to do so.

N.
 non

2. After a careful consideration of the actual requirements of the District, the Station, and its immediate neighbourhood, the Committee submitted on the 22nd April last, a plan and estimate, the latter amounting to Rs. 20,000, for a new Dispensary, to be erected on the high and open ground behind the District Jail. They stated that they had resolved on assigning a sum of 10,000 Rs. and requested that the Government would be pleased to supplement the assignment by a similar grant.

3. The Committee have since submitted a less expensive plan of a Dispensary, with the requisite out-buildings, estimated to cost Rs. 14,700, but omitting therefrom the cost (Rs. 1280) of the Dispensary quarters which

which are stated not to be absolutely necessary at present, the outlay proposed to be incurred is reduced to Rs. 18,420.

4. The Secretary Board since to whom the plan was submitted, has subscribed his comments thereon in his letter dated the 26th July last. No. 2707. A copy of this letter will be furnished to the managing Committee of the Civil Dispensary, with a view to their giving effect to the suggestions it contains.

5. The Government regret that the state of the finances will not admit of their making so large a grant as that solicited by the managing Committee, but as the institution is intended solely for the benefit

benefit of the inhabitants
of the Town of Trichinopoly,
the Government are of
~~opinion that the Muni-~~
cipal Commissioners of
that Town should con-
tribute a portion of the
necessary outlay for the
purpose. According to the
estimate last sent in, the
outlay required is Rs 18,420.
Taking it in round num-
bers at Rs 10,000, the
Government are of opinion
that the Municipal Com-
missioners should con-
tribute a sum of Rs 4,625,
equivalent to the proportion
which will be allotted
to Government in the
Public Works Budget for
the ensuing year 1870-71.

In the meantime
arrangements might be
made with the funds
at

at the disposal of the
Committee, for commen-
cing the building of
the new Dispensary.
