Proceedings of the Madras Government, Public Department,
11th September 1869.

No. 63. Read the following letter from the Acting President of the Nellore Municipal Commission, to the Chief Secretary to Government, Fort Saint George; dated Nellore, 24th August 1869, No. 44.

I have the honour to forward for 1869-70 revised estimates of the receipts and expenditure by the Nellore Municipality.

2. Revised estimates have become necessary owing to a reduction in the receipts caused by a revision of the rate on land. The lands affected by this rate are referred to in paragraph 4 of G. O., No. 641, dated 18th May 1869, where the question is asked whether they are lands paying direct assessment to Government.

3. The rate as originally fixed was estimated to produce Rupees 2500, and the lands so assessed were puttah lands in the occupation of ryots. Against this rate, as at first fixed, appeals were received, and on examination it was found that the gross rental had been very much overestimated, and that the rate was in consequence far too high, in some cases exceeding the puttah sist payable on the lands.

4. The rate has accordingly been reduced, and will now yield but little more than Rupees 700.

5. To balance this reduction, a corresponding reduction has to be made in expenditure, and the present estimate has been framed accordingly. The reduction has been principally under the heads of works and repairs. I have the honour to request that the estimates as now submitted may be sanctioned.

ENCLOSURES No. 3.—Returns of receipts and disbursements.

No. 64. ORDER THEREON, 11th September 1869, No. 1273.

In paragraph 4 of G. O., dated the 18th May last, No. 641, the President of the Nellore Municipality was requested to explain whether the lands on which it was proposed to raise a sum of Rupees 2500 at $7\frac{1}{2}$ per cent. were waste lands or lands attached to compounds of the houses situated within the town, or whether they were garden or other cultivable lands on which the usual assessment was paid by the owners direct to Government.

2. Adverting to this requisition, the Acting President of the Municipality submits revised estimates of the receipts and expenditure, and explains that these estimates have become necessary owing to a reduction in the receipts caused by a revision of the rate on land, which, as originally fixed, was estimated to produce Rupees 2500. The lands assessed were puttah lands in the occupation of ryots. Appeals were received against the rate of assessment, and upon examination it was found that the gross rental had been overestimated and was far too high, in some

cases exceeding the puttah sist payable on the lands. The rate has accordingly been reduced, and it is expected will not yield more than about Rupees 700.

3. It appears from the revised estimate that the Commissioners expect to realize Rupees 20,297-1-3, and that they propose to appropriate the amount for the following purposes:—
