Proceedings of the Madras Government, Public Department,

13th October 1869.

15. The tax on carriages, &c., under Schedule C. produced Rupees 392-12-0, against an estimate of Rupees 150.

16. Fees for the registration of carts came to Rupees 299, or Rupees 99 more than the estimate.

17. The increase under the last two heads may be accounted for in the same way as that of the house-tax.

18. By some mistake no entry of "Miscellaneous entries" was made in the budget. The receipts were Rupees 238-9-10, and consisted mainly of cattle-pound fines, for the years 1867 and 1868, which were paid to the Commissioners in compliance with Government Order, dated the 2nd December 1867, No. 1508.

19. On the question of the general working of the Act, I am happy to say I am able to report favourably. The taxes are paid without apparent discontent; the town is kept clean and is daily improving; the roads are all kept in fair repair; burglaries and other similar crimes with which it is peculiarly the duty of a Town Police Force to deal have to a great extent been repressed; and the leading inhabitants not only regard it as somewhat of a distinction to be nominated as Commissioners, but while in office have rendered me ready assistance, both at Municipal meetings and by taking on themselves, whenever necessary, the duty of superintending the works that have from time to time been in progress.

20. In conclusion I must express my regret at the late date at which this report is submitted. It should have been sent in by the end of June, but during my absence on leave nothing was done towards its preparation, and on my return I did not even find the accounts audited, and in proper order for submission to Government. After my return other work prevented my at once attending to the matter, and thus caused a further delay which I trust Government will be pleased to excuse.

No. 52.

ORDER THEREON, 13th October 1869, No. 1412.

In submitting the annual report and abstracts of the accounts of income and expenditure in the Dindigul Municipality for the past year 1868-69, the President brings to notice that the cost of clothing and accoutrements for the Police has not been paid for the years 1867-68 and 1868-69. The attention of the Inspector General of Police will be drawn to the omission to recover from the Municipality the amount due for the purposes stated, and also to the remarks contained in paragraph 10 of the report, and he will be requested to explain the cause of the difficulty stated to exist in furnishing the Municipal Commissioners with an account of the charges incurred for the Police Force at the close of each year.

2. The Municipal income exceeded the amount which the Commissioners hoped to realize by Rupees 1435-2-3, the rate on houses and buildings, tolls, tax on carriages and animals, registration of carts, and miscellaneous receipts having yielded more than was estimated for. The balance for the last year was also greater, which, with the State contribution, placed at the disposal of the Commissioners Rupees 8655-11-1.

Rupees 44 more than was intended. But, considering that the Commissioners had a large sum of money at their disposal, they might have spent more than they have on new works and improvements, and for the conservancy of the town.

4. It is observed from the annual report that the actual expenditure on behalf of the Police, as per account rendered, was Rupees 1482-4-2, exclusive of the cost of clothing, &c.; but in the Return B. the estimated amount, viz., Rupees 2362, has been entered, and the State contribution calculated thereon. This mode of dealing with the accounts is not correct, and the Government direct, therefore, that the Return B. be revised as follows, viz.:—

7. The Government notice with satisfaction that the Commissioners have afforded the Vice-President much assistance in the working of the Towns' Improvement Act, and that consequent on the expenditure incurred on conservancy, the town is daily improving in cleanliness. Proceedings of the Madras Government, Public Department,
13th October 1869.

No. 51. Read the following letter from the Officiating Magistrate and President of the Dindigul Municipal Commission, Madura, to the Chief Secretary to Government, Fort Saint George, dated Madura, 27th September 1869, No. 153.

I have the honour to submit, herewith, copies of the annual report and statements received from the Vice-President of the Dindigul Municipality, for the year ending 30th April 1869, on the working of the Towns' Improvement Act X. of 1865.

2. The submission of the Report has been delayed by the Vice-President's absence on leave, and subsequently by a correspondence between him and the Superintendent of Police with regard to the adjustment of certain Police charges payable to Government by the Municipality.

3. The Vice-President states that the cost of clothing and accoutrements for the Police, payable by the Municipality to Government, has not been paid for the two-and-a-half years that the Act has been in force in Dindigul; but a reference to the accounts with the Treasury Deputy Collector shows that the cost for the six months ending 30th April 1867 has been paid, and the cost for the remaining two years, viz., 1867-68 and 1868-69, has still to be credited to Government from the funds of the Municipality. I will, therefore, cause this payment to be made, and have the accounts properly adjusted.

4. I am glad to be able to report that the Dindigul Municipality is working satisfactorily. The Commissioners take a great interest in the improvement and conservancy of their town, and they have done a great deal of good.

ENCLOSURES 2.—One Report and one Return of Accounts.

From the Vice-President of the Dindigul Municipal Commission, to the President of the Dindigul Municipal Commission, Madura, dated Dindigul, 12th August 1869, No. 13.

I have the honour to submit a report on the working of the Dindigul Municipality for the year ending the 30th of April 1869, together with the usual statements of receipts and expenditure.

2. The sources of revenue were the same as in the preceding year, with the exception that the tax on professions under Schedule A. was discontinued. The total receipts were, including the balance in hand from 1867-68, and the Government contribution, Rupees 8655-11-1, as specified in enclosure C. The actual expenditure was Rupees 4232-8-1, and the balance in hand at the end of the year Rupees 4623-3-0.

3. I will briefly notice such of the items in the enclosures as appear to call for remark.

4. New works.—For new buildings no provision was made in the budget for the year, but an expenditure of Rupees 142-2-3 was incurred, partly in providing additional dust-boxes in the streets, and partly in converting into a substantial station-house an old and disused building leased to the Commissioners by the Pagoda Trustees.

5. A similar excess expenditure of Rupees 86-10-4 was made on the construction of certain small tunnels, and on the planting of avenue trees in some of the chief roads.

6. REPAIRS.—It was not found necessary to expend the sum entered in the budget for the repairs of buildings.

7. Most of the principal streets were gravelled where necessary, at a total cost of Rs. 454-4-2, or Rupees 54-4-2 more than the budget provision.

*Proceedings of the Madras Government, Public Department,
13th October 1869.*

8. For the repair of wells no provision was made in the estimate, but scarcity of drinking water was much felt in the town towards the close of the year under report, and the Commissioners took advantage of the dryness of the wells to deepen and improve many of the most important at a cost up to April 30th of Rupees 90-8-0. These improvements have been since in operation at a further considerable expenditure, and will be a permanent benefit to the townspeople.

9. CONSERVANCY.—The budget provision was Rupees 630, and the actual expenditure Rupees 548-15-0. The reduction was due to the more moderate rates at which the Commissioners were able to hire scavengers' carts. Towards the end of the year, as the funds in hand seemed to justify an increased expenditure, a small staff of sweepers, which has since been strengthened, was entertained, in addition to the three carts previously employed.

10. POLICE.—The amount sanctioned in the budget was Rupees 2362,* and as the Police charges are yet unadjusted, I have entered this sum in enclosure A. By the account furnished to the Commissioners, however, by the Superintendent of Police, the actual expenditure would seem to have been Rupees 1482-4-2 only. This great reduction is caused by the non-supply, at any time during the year, of the full number of Police budgeted for, and by the fact that in his account the Superintendent of Police has charged us nothing for the clothing, arms, accoutrements, &c., of his men, as by Clause 1st, Section 25 of the Act he should have done. I have not addressed the Superintendent of Police on the subject of this error, because it seems to me hopeless to do so, while I can get no proper account of the expenses of the Police for the eighteen months preceding the year under report. I have fully entered into this question in my letter, No. 36, dated 26th April 1869, in which I pointed out how impossible it was for the Commissioners, under existing circumstances, to adjust in their accounts the charges incurred on account of Police, as requested by Government in paragraph 5 of their Order, dated 9th April 1869, No. 458. For the same reason it was then, and has since continued to be, impossible for us to ascertain accurately the amount due by Government to the Municipal Fund from the 1st November 1866 to the 30th April 1869. The accounts now submitted, therefore, as well as those for the years 1866-67 and 1867-68, which have already been before Government, must be taken to be liable to adjustment with reference to the as yet unascertained real amount of Police expenditure.

11. ESTABLISHMENT.—The expenditure under this head requires no notice. It is Rs. 51-15-8 less than the estimate or a reduction of more than one-twelfth.

12. The tax on houses, &c., yielded Rupees 964-3-1 as against an estimate of Rupees 585. The increase was caused, no doubt, by the estimate having been framed on insufficient data. The very poor classes were generally exempted by the Commissioners from the payment of this tax.

13. The receipts under Schedule A. consist of arrears from 1867-68.

14. The receipts from tolls were estimated to amount to Rupees 2000. For the first half of the year, however, the contract for their collection was sold by auction for Rupees 1910, and for the second half of the year for Rupees 1760. The total receipts, therefore, should have been Rupees 3670. The Contractor, however, unfortunately became bankrupt during the year, and now owes the Municipality Rupees 684, most of which I think we shall be able in time, and with forbearance, to recover. A portion (Rs. 451) of the receipts under this head is due to arrear collections on account of 1867-68. The management of the tolls is still under the same bankrupt contractor, as the contract for the six months terminating November 1st was unfortunately sold to him before his insolvency became known, and there did not then seem to be any legal means by which the contract could be taken away from him. He has, however, entered into an arrangement to pay the Commissioners, daily, his daily collections, from the amount of which it is now quite evident that competition unduly raised the price of the two last half-yearly contracts to a point at which loss to the Contractor was a certainty.

In submitting the

stracts of the accounts of
income and expenditure in
the Vindigul Municipality
for the past year 1868-69,
the President brings to
notice that the cost of
clothing and accoutrements

and 1868-69. The attention
of the Inspector General
of Police will be drawn to
the omission to recover

from the Municipality the amount due for the purposes stated, and also to the remarks contained in paragraph 10 of the Report, and he will be requested to explain the cause of the difficulty stated to exist in furnishing the Municipal Commissioners with an account of the charges incurred for the Police force at the close of each year.

3. The Municipal income exceeded the amount which the Commissioners hoped to realize by Rs. 1435-2-3, the rate on houses and buildings, Tolls, Tax on Carriages and Animals, Registration of Carts, and Miscellaneous receipts having yielded more than was estimated for. The balance

balance for the last year was also greater, which with the State Contribution, placed at the disposal of the Commissioners Rs. 8,655-11-1.

3. The gross expenditure, as per Return B, amounted to Rs. 4,232-8-1, or Rs. 260. in excess of the estimate, owing to a sum of Rs. 228 Rs. 4,232-8-1 having been expended on

1. New works & improvements	Rs. 228-12-7
2. Repairs	544-12-2
3. Conservancy	528-15-
4. Police	2362-
5. Establishment	548-4

New Works and improvements, and repairs having cost Rs. 44 more than was intended. But considering that the Commissioners had a large sum of money at their disposal, they might have spent more than they have on New Works and improvements and for the Conservancy of the Town.

It is observed from the annual report that the actual expenditure in behalf

behalf of the Police, as per account rendered, was Rs. 1482-4-2. exclusive of the cost of clothing &c., but in the Return B, the estimated amount viz. Rs. 2352, has been entered, and the State Contribution calculated thereon. This mode of dealing with the accounts is not correct, and the Government direct therefore that the Return B, be revised, as follows, viz. —

New Works & Improvements	Rs. 228-12-7
Repairs	544-12-2
Conservancy	548-15--
Police	1482-4-2
Establishment	548--4
	<u>Rs. 3352-12-3.</u>

5. The State Contribution on Rs. 3352-12-3, is Rs. 838-3-- or Rs. 219-15-- less than the amount (Rs. 1058-2) entered in Return C. If the latter

latter amount has been paid in full to the Commissioners, they will be called upon to refund the sum of Rs. 219-15-- drawn in excess.

6. Making the necessary adjustment in the Returns, the accounts of the Municipality will stand as follows:

Income	Rs. 8,485-12-1
Expenditure	— 8,582-12-3
Balance	<u>5,082-15-10</u>

7. The Government are true with satisfaction that the Commissioners have afforded the Vice President much assistance in the working of the Town's Improvement Act, and that ~~with~~ ⁱⁿ the expenditure incurred on Conservancy, the town is daily improving in cleanliness. The Government trust

trust that with the large
balance available on the
1st of May last, the Com-
missioners will arrange for
the construction of suit-
able latrines, for impro-
ving the wells and tanks,
and for increasing the Con-
servancy Establishment
in the District Municipi-
-pality.
