PUBLIC DEPARTMENT.

No. 1609.

FROM

THE HON. R. S. ELLIS, C.B.,
Chief Secretary to the Government of Fort Saint George,

TO

THE SECRETARY TO THE GOVERNMENT OF INDIA,
HOME DEPARTMENT, (*Public*).

SIR,

I am directed to acknowledge the receipt of your letter of the 23rd October last, No. 4880, forwarding copy of a communication from the Inspector-General of Hospitals, Indian Medical Department, and requesting the opinion of this Government as to the practicability of adopting in the Madras Presidency certain forms of Return for Dispensaries based upon the new "Nomenclature of Diseases."

2. In reply, I am to state that that Nomenclature has been in use in *all* Hospitals and Dispensaries in this Presidency since the 1st of January 1869, and that new forms of Returns based thereon, and differing in no essential respect from those submitted by Doctor Murray, have already been printed and distributed.

3. The "Nomenclature" itself has likewise been supplied to all Officers holding medical charges.

I have the honour to be,

FORT SAINT GEORGE,
26th November 1869.

Sir,
Your most obedient servant,

Chief Secretary.

Exd. J. Wright.

No. 628, dated Fort William, the 21st September 1869.

From—J. MURRAY, Esq., M. D., Inspector General of Hospitals, Indian Medical Dept.,

To—The Secretary to the Government of India, Home Department.

WITH reference to Resolution No. 4008 of 31st August, I have the honor to submit, for the consideration of the Governor General in Council, a form of monthly return for dispensaries arranged for recording diseases according to the nomenclature of 1869.

2. In drawing this up, the following points have been kept in view :—

- (a.) Each recorder must have a copy of the book of nomenclature.
- (b.) The return should be a printed one, and copies given to each recorder to be filled in.
- (c.) The printed list of diseases has been made copies for the convenience of the least educated class of medical officers ; it being considered that the larger the list of names, the less chance there will be of recorders making mistakes, for it is easier to enter numbers of admission, &c., opposite a printed disease, than to search for the name itself in the index.

3. The form now adopted has been found to answer for the Native troops (copy attached), and it may be expedient therefore to follow it for the returns of dispensaries.

4. The several groups into which the nomenclature divides diseases are here shown, the principal important diseases are given individually, and from the spaces left under each order, other forms of the disease can be entered as they occur.

5. If the plan of this return is approved of by the Government, I would beg to suggest that it should be brought into use by all the Governments and Administrations of the Bengal Presidency ; it might be useful also to extend the form to Madras and Bombay, so as to bring all the dispensary returns of the country under one table.

6. The 600 copies of the book of nomenclature required from England as stated to me in Military Department memorandum No. 435 of the 11th January, may soon be expected ; each civil Medical Officer will then receive a copy, and this form of return might be commenced from the 1st January 1870.

7. Should the design of this return be approved of, I will submit a set of forms for the annual returns of all dispensaries to be brought into use during the ensuing year.

Signature.

 1. The explanations in the book following the "List of Contents," are a key to the scheme of the nomenclature.
 2. These names of diseases are required for registration; therefore the page printed in Egyptian type (without brackets) in the Index defines the situation of the disease in the book (see footnote, page 347.)
 3. To register a disease not printed in this return, look out the name in the Alphabetical Index, refer to the page indicated, as above, and then record in the blank spaces of the order.
 4. No description of any or operation, &c., is to be entered or recorded which is not named in the Index to the nomenclature.
 5. If a variety of disease, printed in the return, is to be recorded, it may be written after the printed word, or in the blank space left under the definite class and order.

OFFICE OF INSPECTOR GENERAL, INDIAN MEDICAL DEPARTMENT,
Fort Saint George, 18th November 1869.

From The Inspector General, Indian Medical Department,
Fort Saint George,

To The Chief Secretary to Government,
Public Department

Sir,
In reply to your endorsement of the 6th
Current; forwarding for report a communication
(herewith returned) from the Secretary to the
Government of India, regarding the adoption
of certain forms of Return for Dispensaries,
based upon the new Nomenclature of Disease.
I have the honor to mention that that Nomenclature
has been in use in all Hospitals and Dispensaries
in this Presidency since the 1st of January
1869; - and that new forms of Returns based
thereon, - and differing in no essential respect
from those accompanying the reference under
reply, - have already been printed and distributed.
The "Nomenclature" itself has likewise
been supplied to all Officers holding medical
charges.

3. I beg to add that, in a communication
addressed to Government in the Military De-
partment on the 7th May last (No 180), this
Office suggested the desirableness of adopting
a uniform system of Returns for all Hospitals,
