Proceedings of the Madras Government, Public Department,

2nd December 1869.

No. 5. Read the following letter from the Acting Magistrate and President of the Municipal Commission, Bellary, to the Chief Secretary to Government, Fort Saint George, dated Bellary, 12th November 1869, No. 124.

With reference to the endorsement marginally noted of the Under Secretary, No. 462, dated 8th instant, on my letter, No. 119, dated 1st instant, submitting the estimates of receipts and expenditure for the year 1870-71, for the Municipality

Returned, with reference to G. O., 31st August 1868, No. 1080. The estimates, &c., should be submitted for the formal sanction of Government, required by the Act, two months before the commencement of the Municipal year, in accordance with G. O., No. 820, dated 11th July 1867.

of Bellary, I have the honour to explain that I acted in accordance with the instructions contained in Government, Order, Public Department, No. 547, dated the 28th April 1869.

No. 6. ORDER THEREON, 2nd December 1869, No. 1651.

With reference to the letter above recorded, the Magistrate is informed that the submission of the estimate direct to the Public Works Department, before the 1st November of each year, is intended to enable that Department to furnish, with the Imperial Budget Estimate, a statement of the gross sums proposed to be expended by Municipalities on Public Works; but that, for the reasons stated in paragraph 2 of the order cited by the Magistrate, it is believed that the estimates furnished at that period of the year cannot be more than approximate; and it is desired that, should the occurrences of the four months, from 1st November to 1st March, render minor alterations of the estimates of receipts and proposed expenditure necessary, such alterations should be made in the estimates to be submitted for the sanction of Government before the 1st March, as directed in G. O., 11th March 1867, No. 820. The permission to make such revision does not, of course, relieve Municipal Commissioners from the duty of framing the estimates submitted in October with the greatest possible care, and on the best information then obtainable.
