G.O. No.	183	Press Mis.
Dated	5-2-1936	

Not to be folded or roughly handled

No. 8. 4
From Surgeon G. A. Andrews
Civil Surgeon
Mysore

To, The Deputy Inspector General
Indian Medical Dept
Bangalore.

Sir, I have the honor to report
that Cholera has become Epidemic
in this station, 5 Cases having oc-
curred within the last 3 days. Every
effort has been made to keep the
Town and Station free from infec-
tion, but persons coming from
the vicinity of the Camp of the
No. 2nd & 1st Regts of the 19th Regiment
N.I. have evaded the guards &
~~pretend to be from the station~~
and have introduced the disease.
Great precautions are now
being taken to prevent the spread
of the disease.

A daily Report will be for-
warded from tomorrow morning.

I have the honor to be
Sir
Your most Obedt Servant
G. A. Andrews

Mysore Civil Surgeon

*Proceedings of the Madras Government, Public Department,
5th February 1869.*

Read the following papers:—

No. 86. From the Magistrate of Kurnool, to the Chief Secretary to Government; Fort Saint George; dated Ayalur, 30th January 1869, No. 25.

I have the honor, with regret, to inform you that cholera has broken out in Kurnool, one case having occurred in the Jail, and two in the Town.

2. It is my impression that the disease was introduced by the Right Wing of the 19th Regiment, Native Infantry, en route from Samalkota.

3. On my arrival at Painem on the 3th instant, I heard from Deputy Collector Sudarsana Row, that cholera had broken out at Nunnipally, near Nundial, where the Wing had encamped. I immediately reported this to the Officer Commanding Kurnool, Major Fletcher, and the Officer Commanding the Right Wing, Colonel Howlet, and requested the latter not to take the Wing into Kurnool, until the Doctor with the Regiment, and Doctor Andrews, the Civil Surgeon, could certify that there was no sickness in the Wing.

4. The Wing was, therefore, forced to encamp at Nannur, and shortly afterwards a death from cholera took place. Since that the Wing has every few days been encamping at various places outside of Kurnool, and has now encamped at Voravakul, near Calwa, cholera in the camp having broken out very seriously.

5. I have written to Colonel Howlett to request him not to encamp near the high road, and to prevent communication, as much as possible, between the Wing and the inhabitants of neighbouring villages, and to keep as far as he can from the vicinity of villages.

6. Cholera broke out at Yeldurti, on the Gooty road, shortly after the Wing reached Nannur, being introduced, I believe, by compties who had been with the Wing.

7. I am glad to say, however, that there is, at present, no cholera at Yeldurti, and since ten days, there has been no sickness at Nunnipally; but I do not consider it safe for troops to pass through either of those villages.

8. I have written to the Quarter-Master General, requesting no Troops may be allowed to march through Kurnool, and have sent information to the Officer Commanding Her Majesty's 2-24th Foot, regarding the cholera at Kurnool.

9. I have had Kurnool itself kept in close quarantine, not allowing travellers and others to enter, though it is hardly possible to prevent, people occasionally entering in a clandestine manner.

10. I trust the steps I have taken will meet with the concurrence of the Government.

No. 87. From Surgeon C. A. ANDREWS, Civil Surgeon, Kurnool, to the Deputy Inspector General, Indian Medical Department, Bangalore; dated Kurnool, 30th January 1869, No. 8.

I have the honor to report that cholera has become epidemic in this station, five cases having occurred within the last three days. Every effort has been made to keep the town and station free from infection, but persons coming from the vicinity of the camp of the Head Quarters and Left Wing of the 19th Regiment, Native Infantry, have evaded the guards posted to prevent their entrance, and have introduced the disease.

2. Great precautions are now being taken to prevent the spread of the disease:

3. A daily Report will be forwarded from to-morrow morning.

4 *The Wing*

Proceedings of the Madras Government, Public Department,
5th February 1869.

No. 202.

Forwarded for the information of the Inspector General, Indian Medical Department.

BANGALORE,
2nd February 1869.

(Signed) W. JOHNSTON, M. D.,
Surg. Major in charge of the Office of
Depy Insp. Genl., Indian Medl. Dept.,
Mysore and Ceded Districts.

No. 88.

ORDER THEREON, 5th February 1869, No. 183.

Ordered that the following telegram be despatched to the Collector of Kurnool:—

“ Send daily telegram of health of Kurnool city and Troops. Have special Municipal measures been taken to keep town clean and protect water by employing extra establishments?”

(True Extract).

R. S. ELLIS,
Chief Secretary.

No. 25.

Kurnool Magistrate's Office.
on Circuit Ryasur
30 January 1869.

From J. R. A. Chase Esq.
Magistrate of Kurnool.

To, The Chief Secretary to
Government.
Fort Saint George.

Sir,
I have the honor with regret to inform you
that Cholera has broken out in Kurnool, one case
having occurred in the jail and two in the Town.
2. It is my impression that the disease was
introduced by the Right Wing of the 19th Regiment
A.I. en route from Samalkota.
3. On my arrival at Panam on the 5th Instant,
I heard from Deputy Collector Sudarona Rao
that Cholera had broken out at itunipally, near
Kandial where the Wing had encamped. I immedi-
ately reported this to the Officer Commanding the
District and the Officer Commanding the
Right Wing. Colonel Horrold and requested the latter
not to take the Wing into Kurnool until the Doctor
with the Regiment and Doctor Andrew the Civil
Surgeon could certify that there was no sickness
in the Wing.
4. The Wing was therefore forced to encamp at
Panam

Dist. of 1868

FEBRUARY.

Nos. 86-88.

Despatching a telegram to the Collector of
Kurnool, issuing instructions relative to the out-
break of cholera in that district.

Kannur and shortly afterwards a death from Cholera took place. Since that the King has every few days been encamping at various places outside of Kurnool, and has now encamped at Voravakul near Kalwa. Cholera in the Camp having broken out very seriously.

5. I have written to Colonel Herdott to request him not to encamp near the High Road and to prevent communication as much as possible between the King and the inhabitants of neighbouring villages and to keep as far as he can from the vicinity of villages.

6. Cholera broke out at Yaldewati on the Gooty Road shortly after the King ~~arrived there~~ being introduced I believe by Compties who had been with the King.

7. I am glad to say however that there is at present no Cholera at Yaldewati and since 10 days there has been no sickness at Annipally but I do not consider it safe for troops to pass through either of those villages.

8. I have written to the Quarter Master General requesting no troops may be allowed to march through Kurnool, and have sent information to the Officer Commanding H. M. 2/24 Fort regarding the Cholera at Kurnool.

9. I have had Kurnool itself kept in close

quarantine not allowing travellers and others to enter though it is hardly possible to prevent people occasionally entering in a clandestine manner.

10. I trust the steps I have taken will meet with the Concurrence of the Government.

I have the honor to be,

Yours most obedient servant,
J. Chatterjee
Magistrate.

From the 7th January to the 27th the return of the 14th Regt shows that there were 103 admissions from Cholera, 44 discharged and 4 died
