No. 38. Read the following letter from the Inspector General, Indian Medical Department, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 8th December 1868, No. 389.

I have the honor to submit, for the favorable consideration of Government, the

No. 145 of 26th November 1868.

accompanying application from the Surgeon of the 1st District, claiming the employed allowance of Rupees 30 per

ensem, on behalf of Assistant Apothecary Baker, of the Leper Hospital, for the period he performed the duties of the Native Infirmary, in addition to his own.

2. The objections taken by the Examiner of Claims are twofold :—

1st.—That there is no provision made in G. O. G. G., No. 550 of 1868, for the grant of an additional allowance to Medical subordinates for performing the duties of another appointment in addition to their own; and

2nd.—That Assistant Apothecary Baker already draws a staff salary in the Leper Hospital.

3. With regard to the first objection it may be observed, that the General Order does not disallow remuneration for additional work, nor is there anything in the order at variance with the recognised principle of additional payment for additional work. Government affirmed the principle in the case of the late Apothecary of the Native Infirmary, by granting him the staff salary (Rupees 25) attached to the Leper Hospital, where he acted for Assistant Apothecary Baker, detailed for Military duty, and the latter was granted compensation to secure him from loss.

4. With regard to the second objection, I beg to state that a staff allowance was specially sanctioned by Government for the Assistant Apothecary of the Leper Hospital, in consideration of the repellent nature of his duties, and his receiving this special allowance should not bar his claim to the allowances of another appointment, the duties of which he discharged in addition to his own, without extra expense to the State.

From the Surgeon Major, 1st District, to the Deputy Inspector General, Indian Medical Department, Presidency Division; dated Madras, 26th November 1868, No. 145.

On presenting a bill for "employed allowance to Assistant Apothecary C. W. Baker, from 27th May to 16th October 1868," in accordance with G. O. C. C., 18th November 1868, I have the honor to state that the Examiner of Claims returned it "as no provision is made in G. O. G. G., No. 550 of the 5th June 1868, for the grant of an additional allowance to medical subordinates for performing the duties of another appointment in addition to their own. It is observed that Assistant Apothecary Baker already draws a staff salary in the Leper Hospital." It, therefore, becomes necessary to refer the matter for the decision of Government, and, in doing so, I beg to recommend it to your support and that of the Inspector General.

2. In the early part of 1867, the late Apothecary Grove performed Assistant Apothecary Baker's duties in the Leper Hospital, and, although compensation for the loss of staff allowance was allowed the latter, when absent on public duty, the former was also permitted by Government to draw the staff allowance, thus entailing a double charge upon the State, which the Examiner of Claims acknowledged to be "unavoidable in the circumstances, and not inconsistent with the practice in other cases of a similar nature." In the present instance, Mr. Baker, during the absence of the Apothecary of the Native Infirmary, performed, with alacrity and efficiency, the latter's heavy duties in addition to his own, for which he claims the allowance provided by Government, an allowance not drawn by any one else, so that there will not be a double charge to the State

as in the former case. I, therefore, submit that, while Mr. Baker's present application is supported by the considerations which recommended Mr. Grove's former one, it is not weakened by the only objection which was urged against the latter.
