*Proceedings of the Madras Government, Public Department,
30th April 1869.*

No. 253. Read the following letter from the Sanitary Commissioner for Madras, to the Chief Secretary to Government, Fort Saint George; dated Madras, 14th April 1869, No. 1013.

With reference to G. O., No. 103, dated 25th January 1869, upon my Report upon the Lying-in Hospital, wherein sanction is given for the immediate execution of some of the alterations and improvements recommended by me, and in the propriety of which the Inspector General, Indian Medical Department, has concurred, I have the honour to bring to the notice of Government, and for their favourable consideration, the accompanying letter* from

* Copy appended.

the Superintendent of the institution.

2. I may explain that upon a recent inspection of the hospital with a view to examining the plans proposed for the bath-rooms and night closets, Dr. Harris represented to me the great desirability of at once erecting a suitable dead-house, foul-linen room, and fumigation chamber; and on his being asked to report if he considered the necessity for these as urgent, he replied that these works were emergently required.

3. The condition of the nullah is most unsatisfactory, and, as the present season is most favourable for its being deepened and narrowed, and the banks sloped and turfed, I would respectfully recommend that this may be authorized as an emergent work.

4. I beg to refer to my previous report (paragraphs 1, 2, and 3 of page 16) for a design for a combined dead-house, fumigation room, and latrine for male servants, which might, I believe, be erected at a small cost, and which would meet three very pressing wants in the institution.

From the Superintendent, Lying-in Hospital, to the Secretary to the Sanitary Commissioner for Madras; dated Madras, 10th April 1869, No. 249.

In reply to your demi-official note of the 7th instant I have the honour to state that I consider the erection of a "dead-house" and of a foul-linen room and fumigation chamber is urgently required, and I should be glad if the Sanitary Commissioner would represent to Government the desirability of sanctioning the immediate execution of this work in addition to the improvements ordered in G. O., 25th January 1869, No. 103.

2. The improvement of the nullah in the manner proposed by the Sanitary Commissioner in his reports is much required, and I think it very desirable it should be made before the next rains.

No. 254. ORDER THEREON, 30th April 1869, No. 555.

The Government sanction the early execution of the works proposed in paragraphs 2 to 4 of the foregoing letter, and direct that the necessary orders for this purpose be issued in the Public Works Department and funds provided.

(True Extract).

Chief Secretary.

To the Public Works Department.

„ Inspector General, Indian Medical Department.

N^o 249

To the Secretary Sanitary Commissioner
for Madras.

Sir,

In reply to your demi-official note of the
7th Instant I have the honor to state that I
consider the erection of a "dead house" and of
a foul-linen room and fumigation chamber,
is urgently required and I would be glad if the
Sanitary Commissioner would represent to
Government the desirability of sanctioning
the immediate execution of this work in ad-
dition to the improvements ordered in G.O.

25th January/69 N^o 103.

The improvement of the nullah
in the manner proposed by the Sanitary Com-
missioner in his reports is much required and
I think it very desirable it should be made
before the next rains.

OFFICE OF SANITARY COMMISSIONER,

Madras, April 14th 1869.

From

The Sanitary Commissioner for Madras,

To

The Honorable R. S. Ellis C. B.
Chief Secretary to Government
Fort Saint George

Sir,
With reference to G. O. No. 103 dated 26th January 1869 upon my Report upon the Lying-in Hospital, wherein sanction is given for the immediate execution of some of the alterations and improvements recommended by me, and in the propriety of which the Inspector General Indian Medical Department has concurred, I have the honor to bring to the notice of Government and for their favorable consideration the accompanying letter from the Superintendent of the Institution.

2. I may explain that upon a recent inspection of the Hospital with a view to examining the plans proposed for the bathrooms and nightclosets, Dr. Harris represented to me the great desirability of at once erecting a suitable dead house, foul linen room and fumigation chamber; and on his being asked to report if he considered the necessity for them as urgent, he replied, that these works were urgently required.

3. The condition of the inlet is much unsatisfactory and as the present season is most favorable for its being deepened and narrowed, and the banks sloped and tufted, I would respectfully recommend that this may be authorized as an urgent work.

4. I beg to refer to my previous Report (paras 1st, 2nd and 3rd of page 12) for a design for
