Proceedings of the Madras Government, Public Department,
30th April 1869.

No. 262. Read the following letter from the President of the Mannargudi Municipal Commission, to the Chief Secretary to Government, Fort Saint George; dated Adanacottah, 7th April 1869, No. 29.

I have the honour to submit, in the prescribed forms, estimates of receipts and charges, proposed to be raised and expended in the Municipality of Mannargudi, during the ensuing year 1869-70, with a statement of the several taxes to be levied, and a list of the names of the persons to be appointed as Commissioners.

2. I beg also to forward, in original, an estimate received from the Superintendent of Police, wherein it is proposed that the sums of Rupees 2204 and Rupees 2000, respectively, on account of the construction of Police huts and hospital are to be expended during the year.

3. With reference to the construction of a hospital, the Commissioners state that "the Police Force of the town consists of a Police Inspector, two Head Constables, two Deputy and thirty Constables, making in all thirty-five men. The average sick does not exceed *one* in a month; and for the accommodation of this one patient, a Hospital building at a cost of Rupees 2000 is proposed by the Superintendent of Police, which seems to be uncalled for, especially as sufficient arrangement can be made for the accommodation and separate treatment of this one patient at a very trifling cost." With regard to the huts the Commissioners are of opinion that they should be built at an early date, but not in 1869-70, the charge being too heavy to be borne in that year if due consideration is paid to more urgent wants immediately affecting the health and comfort of the town.

4. I beg also to submit a memorandum showing the revised boundaries of the Mannargudi Municipality, in which the suburbs of Sherangolum with its hamlet, Bhagavatapuram, as well as Naduvakattai, have been omitted; these villages having, in my opinion, been originally included within the Municipality without good and sufficient cause.

No. 263.

ORDER THEREON, 30th April 1869, No. 559.

In submitting the estimates of the probable receipts and disbursements of the Mannargudi Municipality, the President points out that the Superintendent of Police has inserted in his estimate the sums of Rupees 2204 and Rupees 2000, respectively, on account of the construction of Police huts and a hospital, and that the Commissioners are of opinion that as the average number of sick in a force comprised of thirty-five men, does not exceed *one* in a month, a separate hospital is not required, especially as sufficient arrangement can be made for the accommodation and separate treatment of a single patient at a very trifling cost. They are also of opinion that the erection of the Police huts should be deferred until the more urgent wants affecting the health and comfort of the inhabitants of the town are provided for. The Government concur in the opinion that a separate Police Hospital is unnecessary, and approve of the exclusion, from the estimates for 1869-70, of the sum of Rupees 2000 above assigned for this building. The sum required for the Police huts is not open to objection, and should be assigned as proposed by the Superintendent of Police.

2. The Commissioners estimate their receipts and expenditure at Rs. 19,639, which is in excess of the estimates* for 1868-69 by Rupees 2039.

* Rupees 17,600.

3. The Government observe with disapproval that the Commissioners still refrain from imposing the rate on houses, buildings, and lands, the tax on carriages and animals, and the fees for the registration of carts, &c., and that their principal source of income (Rupees 7000) is derived from tolls on the traffic entering the Municipal limits.

4. The details of the expenditure on new works and improvements show that the Commissioners contemplate laying out a sum of Rupees 8000 in the excavation of channels for securing a supply of water from a river in the tanks in the town. The Government would be glad to have before them the plans or surveys which may have been

prepared for carrying out this very desirable project, and they request that the President will arrange for their submission.

5. The estimates are sanctioned.

6. The revision of the Municipal limits is also sanctioned. The Notification on the subject, with that relating to the taxes, &c., to be levied, as well as the list of Municipal Commissioners, will be published in the *Gazette*.
