*Proceedings of the Madras Government, Public Department,
4th May 1869.*

No. 19. Read the following letter from the President of the Combaconum Municipal Commission, Tanjore, to the Chief Secretary to Government, Fort Saint George; dated Poodoocottah, 13th April 1869, No. 34.

I have the honour to submit, in the prescribed forms, estimates of receipts and charges proposed to be raised and expended in the Municipal town of Combaconum, during the year 1869-70, with a statement of the several taxes to be raised, and a list of the names of persons to be appointed as Commissioners.

2. I beg also to forward the original estimate received from the Superintendent of Police wherein he proposes to construct, during the year, Police huts and a hospital, at a cost of Rupees 4756 and Rupees 2000, respectively. The construction of a hospital having been already sanctioned by Government in their Order, dated 21st September 1868, No. 1179, and its construction having been begun, it has been omitted in the estimate now submitted.

3. With reference to the construction of Police huts, I have the honour to propose that the project may be deferred, till there is a sufficient margin to allow of such an expenditure being fairly incurred without detriment to more important interests.

No. 20. ORDER THEREON, 4th May 1869, No. 574.

The President of the Municipal Commission for the town of Combaconum submits the estimates of the probable receipts and disbursements in that Municipality for the year ending the 30th April 1870.

2. The Government observe, from the estimate of receipts, that the income from tolls forms the largest item, and that it is in excess of the estimate* for the year 1868-69 by Rupees 6905. There is also an excess of Rupees 2504 in the rate on houses and buildings, while the tax on arts, trades, and professions is not to be imposed. The Government would have preferred the imposition of this tax to the raising of the income from tolls; but as there is

not at present sufficient time to admit of a reference being made to the Commissioners, or for their arranging for the revision of the estimate and for the collection of the tax on arts, trades, and professions from the 1st instant, the estimate will be passed.

3. The provision (Rupees 14,264) under the head of "Repairs" is considerably greater than the assignment (Rupees 5500) under that head in the estimate for 1868-69. The detail of estimates should have shown what "channels" and "tanks" are to be repaired. It should also have shown how many carts were to be hired for Rupees 8640, and how many latrines are to be constructed for Rupees 3000. As no provision is made in the estimate for sweepers or scaven-
