Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Department,
11th June 1869.*

No. 61. Read the following letter from the Magistrate of Bellary, to the Chief Secretary to Government, Fort Saint George; dated Bellary, 3rd June 1869, No. 36.

I have the honour to report, for the information of Government, that cholera has appeared in different parts of the district, and that a few fatal cases have occurred in the native pottahs and bazars of Bellary. The persons who died were ascertained to be travellers who brought the disease on with them from the direction of Hospett and Sreegoogah, distant thirty and forty miles from Bellary, at both of which places there have been a number of deaths. It is also reported as prevailing in the western taluqs along the banks of the Tungabudra, and is believed to have been imported across the river from the Nizam's territories, where I hear there has recently been a large festival and a great deal of sickness. It has broken out also at Tadpatry, and a few days ago a number of the coolies employed on the Railway bridge over the Huggry were attacked, and one of their number died at Purnadavanachully, only nine miles from Bellary, on the Gooty road. Measures are being taken to mitigate the disease as much as possible in the district by the distribution of cholera pills.

2. Not a single case has, I am thankful to say, originated in Bellary, and to prevent its being brought in I have stationed constables at the principal entrances to the town, who are instructed to convey all persons suffering from the disease to a camp hospital which has been established about three quarter mile to the leeward of the town, and it was to enable me to carry out this precautionary measure that I applied by telegram for tents until temporary huts could be constructed. More than two inches of rain fell on Monday night, which has, I think, checked the disease in the vicinity of Bellary. There is at present only one patient in the cholera hospital, and he is in a fair way to recovery. I will report daily by telegram as directed, and will do my best to keep the disease out of Bellary.

No. 62. ORDER THEREON, 11th June 1869, No. 790.
To be recorded.
(True Extract).

R. S. ELLIS,
Chief Secretary.

BELLARY MAGISTRATE'S OFFICE.

No 36

Date, { 11/11/62 } 3

From, P. & S. Bellary District.
