Dated	12-6-	42/1869

**Proceedings of the Madras Government, Public Department,
19th June 1868.**

No. 65. Read the following letter from the Sanitary Commissioner, Madras, to the Chief Secretary to Government, Fort Saint George; dated Madras, 3rd June 1868, No. 144.

I have the honour to state, for the information of Government, that I find the office establishment, sanctioned in Government Order, No. 4975, dated 31st December 1867, insufficient to enable me to

compile the numerous statistical returns arising from the registration of deaths in military establishments and in public institutions; in addition to the examination of the annual Sanitary Returns of stations, the tabulation of (and preparation of reports upon) the mortality in Collectorates, and the preparation of monthly reports upon the public health for the information of the authorities at Constantinople. All the subjects specified above are additional to work performed in the office prior to the promulgation of the Order of Government sanctioning a slight increase to the establishment from 1st January 1868.

2. I am unwilling, in the present condition of the finances of Government, to propose any immediate increase of expenditure in this department if it can be avoided, although I am convinced that it cannot be long deferred.

3. The only manner in which I can endeavour to meet the pressing want of additional hands is by a rearrangement of the office, as shown below:—

4. I may explain that, during recent leave granted on private affairs to Mr. D'Rosario, I entertained Mr. Maddox in the Statistical Department. I have found him a willing and useful Clerk, and I cannot now dispense with his services without great inconvenience. During the same time Mr. Dique discharged partially the duties of Mr. D'Rosario in the General Department, and I am desirous that he should henceforward be the sole head of the office—a post for which his methodical habits and abilities eminently qualify him. I regret that I cannot now press for any increase to his salary for the reasons alluded to in paragraph 2 of this letter. Although at the head of the office generally Mr. Dique will continue to supervise the Statistical Department as heretofore.

5. The proposed reallocation of duties will, I think, tend to the better working of the office without additional expense to Government.

6. I would beg, however, respectfully to state that the proposed establishment in the Statistical Department is less than one-third that claimed by the Sanitary

Proceedings of the Madras Government, Public Department.

12th June 1869.

Commissioner with the Government of India, from the Inspector General of the Indian Medical Department, Lower Provinces, for Army Station, as recorded in his Proceedings for January 1869.

7. The work devolving on this department is now very heavy, and I can only arrange for its being carried on by the present establishment by transferring to the Clerks in the General Department the copying of all letters even regarding statistics, and the corrections of proofs for the printing press.

8. As Mr. D'Rozario returns from leave to-morrow, I solicit the sanction of Government to the proposed arrangement being carried out with effect from that date.

No. 66.

ORDER THEREON, 12th June 1869, No. 796.

The rearrangement proposed in the letter above recorded is sanctioned.
