Proceedings of the Madras Government, Public Department,
23rd June 1869.

No. 150. Read the following letter from the Collector of Bellary, to the Acting Secretary to Government, Revenue Department, Fort Saint George; dated Bellary, 12th June 1869, No. 40.

In the absence of the Chief Secretary from the Presidency I have the honour to inform you that, although cholera still prevails to a slight extent in the district, it is certainly on the decline, and I have little doubt that the next fall of rain, which is expected on the 14th or 15th, will carry away what remains. Owing to some misapprehension of orders issued from this office on the 3rd instant to the Tahsildars of Gooty and Tadpatry, directing them to report with reference to the disease which broke out at their cusbahs towards the end of last month, no information has been received from those taluqs; but as I heard privately from the Tahsildar of Gooty a few days ago, and as he made no mention of cholera in his letter, I am inclined to think that it cannot prevail to any extent. I write by to-night's post to the Head Assistant Collector to report to you direct how matters stand, and to state whether troops and details can safely proceed via Tadpatry and Gooty.

No. 151. ORDER THEREON, 23rd June 1869, No. 868.
To be recorded.

misapprehensions of orders issued from this office
~~in the 2nd instant to the Tahsildars to direct them to~~
directing them to direct with reference to the disease which
broke out at their Chubabs towards the end of last month
no information has been received from the Tahsildars of Gooty

in his letter I am inclined to think that it cannot
prevail to any extent. I write by to-night's post to the
Head Assistant Collector to enquire to you direct how
matters stand and to state whether broods and de-
tails can safely proceed in a satisfactory and Gooty.
