Proceedings of the Madras Government, Public Department,
24th June 1869.

No. 156. Read the following letter from the Magistrate of Bellary, to the Chief Secretary to Government, Fort Saint George ; dated Bellary, 19th June 1869, No. 44.

I have the honour to report that Cholera still prevails, to a slight extent, at Tadpatry and on the road viâ Gooty to Bellary, but I do not think that, ordinary precautions being taken, there is anything to prevent details and small bodies of troops being sent. In Bellary itself only four cases have originated. There have been other cases but they were travellers who brought the disease in with them and were at once taken for treatment to the Camp Hospital outside the barriers. Most of the persons attacked who received prompt treatment have recovered.

2. In the event of the Military authorities requiring further information, I would suggest that the Head Assistant Collector at Gooty should be communicated with by telegraph.

No. 157. ORDER THEREON, 24th June 1869, No. 873.

Resolved that the foregoing letter be communicated to the Military Department, and that the following telegram be despatched to the Head Assistant Collector at Gooty :—

“Is there still Cholera at Tadpatry and Gooty.”

MAGISTRATE OF
BELLARY,

To, R. A. Esquire.
Secretary to Government

Sir,
I have the honor to report that within the space of a week at Bellary and in the road leading to Bellary, but I do not think that any serious information being taken, there is any thing to be feared. In Bellary itself only 4 cases have originated. There have been other cases but they were travellers who brought the disease in with them and were at once taken for treatment to the Camp Hospital outside the barriers. Most of the persons attacked who received prompt treatment have recovered. In the event of the Military Authorities requiring further information I would suggest that the Head Assistant Collector at Hooby should be communicated with by telegraph.

I have the honor to be,
Sir,
Your most Obedient Servant.
