Dated 15-8-1870

Proceedings of the Madras Government, Public Department,
15th August 1870.

No. 89. Read the following letter from the Supervisor of the Government Press, to the Chief Secretary to Government, Ootacamund, dated Madras, 11th August 1870:—

I have the honour to submit, for the information of Government, the Superintendent's report upon the operations of the Press during the year 1869-70.

2. In the Secretariat as a whole the work has remained nearly stationary showing a slight increase of cost and number of original pages. But for the heavy increase in the Revenue Department, there would have been a satisfactory decrease.

The figures given in the margin for the last three years show that the great increase which took place in 1868-69 has been stopped in 1869-70, owing, it is believed, to the efforts made to reduce the work.

3. There has been an enormous increase of 4043 solid pages, and 362,662 impressions in the Revenue Board Department. The increase in cost, however, has not been commensurate with that of work done, as the increase has been chiefly in light work, which is paid for at lower rates.

4. It will be observed that the allowance for depreciation of stock and interest are much higher for 1869-70 than for the previous year. This is owing to the revised valuation of stock adopted under G. O., 4th April 1870, No. 382. Notwithstanding this, however, the cost per page has slightly decreased.

From the Superintendent of the Government Press, to the Supervisor of the Government Press, dated Fort Saint George, 29th July 1870.

I have the honour to forward, herewith, the usual Statements showing the amount, cost, and value of the work turned out at the Government Press, and the Penitentiary Branch Press, during the year ending 31st March 1870.

2. Once more there has been a considerable increase to the number of pages printed, and to the number of copies or impressions struck off, the total number of foolscap pages of matter being,—

In 1868-69	...	...	...	...	...	...	...	1,11,906
„ 1869-70	...	...	...	...	...	...	...	1,27,966

The number of impressions or copies struck off amounted to,—

Less than Annas 14-6 per page, for 329 copies per page.

3. In the Departments under the Chief Secretary, and in the Military Department, there has been a considerable decrease in the number of pages printed (chiefly statements) since the issue of Memorandum, dated 30th June 1869, No. 270,

Proceedings of the Madras Government, Public Department,
15th August 1870.

and also a decrease in the cost, although there has been an increase in the press-work of the first-named department, as shown below:—

4. In the Revenue Department there has been an increase under all heads—number of pages, press-work, and cost—as given in the following statement:—

		RS.	A.	P.
	In 1868-69, foolscap pages ..	9,860	Cost...	7,507 11 7

	„ 1869-70, „ „ ...	2,15,585		
	Increase...	56,085		

5. In the Public Works Department, although the amount of work rose rapidly during the first six months of the year, a great reduction was made in the last six months, but still leaving a slight increase on last year:—

		RS.	A.	P.
	In 1868-69, foolscap pages...	19,033	Cost...	14,556 7 8
	„ 1869-70, „ „ ...	20,123	„	15,092 6 8

	„ 1869-70, „ „ ...	3,54,902

6. In the Revenue Board Department there has been an increase on last year under all heads:—

		RS.	A.	P.
	In 1868-69, foolscap pages...	22,491	Cost...	19,692 2 2
	„ 1869-70, „ „ ...	26,534	„	20,586 2 5

	„ 1869-70, „ „ ...	8,16,712		
	Increase...	3,62,662		

7. The Gazette Department remained much the same as last year.

Proceedings of the Madras Government, Public Department,

15th August 1870.

8. In the Secret Department there was a considerable increase (1000 pages) chiefly owing to the Report of the Commissioner for settling claims against the Prince Azeem Jah having been printed in it. The increase in cost has been about Rupees 1000.

9. In last year's report, under the head Miscellaneous, the work of the Book Department was included; this year I have separated them, so that there does not appear to be any addition to the number of pages printed in the Job Department:—

		RS.	A.	P.
	In 1868-69, foolscap pages...	21,270	Cost...	33,431 9 0
	„ 1869-70, „ „ ...	24,350	„	25,277 5 7
	Increase...	80	Decrease	8,154 3 3
	In 1868-69, Impressions...	1,30,33,288		
	„ 1869-70, „ „ ...	1,61,86,011		
	Increase...	31,52,723		

The decrease in cost is owing to a great portion of the work having been printed at the Penitentiary.

10. In the Book Department, books and pamphlets were printed numbering in all 7174 pages, nearly one-third of which were expensive statements, many in small type. These pages, reduced to foolscap, as in other departments, give as below:—

		RS.	A.	P.
	In 1869-70, foolscap pages...	9,875	Cost...	14,724 15 7
	Increase...	„		„

The cost was very greatly enhanced by copy being sent in not properly prepared for press, several jobs having been thoroughly altered from their original shape, and that more than once, necessitating a large outlay for corrections and alterations. The cost of these corrections, during the past year, was Rupees 1375 for 11,000 hours.

11. I have compared the cost in the Government Press during last year with outside prices, and the results are generally favourable. In the Book Department a loss appears (11½ per cent.) as compared with Graves' and Cookson's rates, but compared with other printers' rates, shows a gain of 21 per cent. by Government doing their own printing. Add the amount paid for making authors' corrections and alterations to Graves' rates, and the result is only 2 per cent. in their favour.

12. But as I have said before, the schedule of rates for which Graves and Cookson offered to do Government printing was prepared without thought or calculation, and they could not possibly have worked at those rates. I give the statement below to show that their prices were all *guess-work*:—

Proceedings of the Madras Government, Public Department,
15th August 1870.

In addition to this "rise in scale" one anna per page *more* should be paid for Bourgeois, two annas for Brevier, and one rupee for Nonpareil, small type being far more troublesome to compose than large.

13. In calculating Gantz' and Foster's "cost," I have deducted 20 per cent. from their prices for private work, Mr. Foster having told me he would be willing to do so, provided he could get *all the work*.

14. In the Binding Department there has also been a much larger quantity of work turned out, both in the Government Press and in the Penitentiary Branch:—

15. The increase to the out-turn of work at the Penitentiary Press has been much greater than could have been expected, taking into consideration the quality of the workmen. In calculating the cost of this work I have put down Rupees 2000 for superintendence. The value of the printing, at office rates, for the year, is Rupees 19,543-4-0; for binding, perforating, and machine ruling, Rupees 2372-10-2. The cost of establishment, including superintendence, contingencies, depreciation, &c., added to convict labour (Rupees 6654) has been Rupees 12,989-13-7, showing a clear profit of Rupees 8926-0-7.
