*Proceedings of the Madras Government, Public Works Department,
4th May 1870.*

No. 57. Read the following Proceedings of the Board of Revenue, dated 11th April 1870, No. 2,433.

Read the following letter from the Acting Collector of Coimbatore, to the Acting Secretary to the Board of Revenue, dated Erode, 14th March 1870, No. 56:—

I HAVE the honour to forward, for the sanction of Government, an estimate, amounting to Rupees 220, for walling in a small Christian cemetery at this station which has been closed by my orders, a new site having been provided in a more accessible and less objectionable locality.

2. The burial ground in question is situate at the junction of two roads just outside the gate of the old Public Bungalow which is now used as the Deputy Collector's office. It contains only a few tombs where travellers who died on the march in former days, were interred. A short time ago a Rest-house Serjeant who died here was buried there, and, as the spot is close to the town, the new Talook Cutcherry, and the Deputy Collector's office, and as the space is very confined, I prohibited any more interments, and the wall which it is now proposed to erect is to preserve the existing graves from being desecrated.

• To be executed by the Public Works Department.

3. I presume that this will be considered a local work,* and propose to meet the charge from the reserve of 1870-71.

THE estimate, amounting to Rupees 220, for erecting a wall around the burial ground at Erode is submitted for the sanction of Government in the Public Works Department.

2. It is observed that the estimate should have been submitted to Government through the Superintending Engineer of the division. The work is one which cannot be charged to Local Funds, (*vide* Standing Order, No. 83, published at page 57 of the Board's Circular Orders).

No. 58. ORDER THEREON, 4th May 1870, No. 1,176.

CIVIL WORKS, No. 4.

THE estimate is sanctioned.

2. The Government regret that no money is at present at their disposal for appropriation to the proposed wall, but the Superintending Engineer will state whether he can provide the small amount that is required from his "Minor New Works allotment" under the head "Civil Buildings."
