Public DEPARTMENT.

G.O. No. <i>1180</i>	Press Mis.
Dated <i>16-9-</i>	<i>1870</i> 19-

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Department,
16th September 1870.*

Read the following papers:—

No. 81. From the President of the Municipal Commission, Adoni, to the Chief Secretary to Government, Fort Saint George, dated Bellary, 25th June 1870, No. 74.

I have the honour to forward, in original, a report received from the Vice-President, Dorasawmy Iyer, of the proceedings of the Municipal Commissioners of Adoni for the year ending 30th April 1870.

2. Statement C. shows that the actual receipts have greatly exceeded the estimated ones. The increase is greatest in the items of tolls, taxes on carriages and animals, and fines.

3. Statement B. shows the total expenditure to have been Rupees 14,950-13-3; of this Rupees 2603-8-1 have been spent for purposes other than those specified in Section 25 of the Act. Under this head the item of refunds appears heavy, and requires explanation. Under a misapprehension the Tahsildar allowed credit to the Municipality for a certain sum refunded on account of Municipal License-tax from the Imperial License-tax of 1867-68, under the orders of the Accountant-General in his Circular, No. 25, of the 5th September 1867. The Municipality was, in fact, not in existence till November 1867, and as the refunds in question only referred to payments made previous to 31st May 1867 of course nothing was due; I, therefore, ordered the sum to be re-transferred.

4. A moderate sum seems to have been expended in the formation and repair of roads. Conservancy and the erection of latrines seem to have the chief care of the Commissioners.

5. I have not been able to visit this Municipality much to my regret. The Vice-President, Dorasawmy Iyer, is an energetic man, and is, I am sure, doing his utmost to improve the sanitary condition of the place.

6. One paragraph in the latter part of the Vice-President's letter is evidently not correct. He states that 477 persons died of cholera during the year, whereas the returns show only twenty-two deaths in the town of Adoni. The mistake must, I think, have arisen by taking into account the deaths in the whole taluq.

From V. DORASAWMY IYER, Vice-President of the Municipal Commission, Adoni, to the President of the Municipal Commission, Adoni, dated 21st June 1870, No. 54.

In obedience to the Order of the Government, dated the 11th July 1867, No. 820, paragraph 1, I beg to submit a report of the operations of the Municipal Act during the year 1869-70 in this Municipality.

2. The enclosed Statements A., B., and C. show the collections and expenditure during the year, as also the details of charges incurred under various items.

The estimated receipts and expenditure of the year were each Rupees 10,375. The actual collections were Rupees 19,073-0-1, inclusive of Rupees 2145-0-11, the balance of funds on hand on the 30th April 1869; the actual expenditure amounted to Rupees 14,950-13-3. Thus both the items were in excess of the estimates by Rupees 8698-0-1 and Rupees 4575-13-3, respectively.

3. A comparative view of the year's Budget and the Statement C. enclosed will show that receipt from tolls was treble, taxes on carriages and animals nearly double, rates on offensive trades more than double, and fines and miscellaneous receipts three-and-a-half as much the sums estimated for.

16th September 1870.

TOLLS.—For the first half of the year this item of revenue was let for Rupees 1050, and in the latter half the completion was so brisk that it rose to Rupees 5000. These sums, *minus* Rupees 500, were actually collected during the year under report, the last sum being subsequently collected was brought to the account of the current year.

TAX ON CARRIAGES AND ANIMALS AND FEES ON OFFENSIVE TRADES, &c.—The increase under these heads is due to the vigilant working of the Municipal establishment in bringing every one liable under the Act to the incidents of taxation.

FINES.—During the early part of the official year cholera of an epidemic form broke out in the town. An extreme caution had to be exercised in preventing the commission of nuisances that mostly tended to engender the disease, a more severe enforcement of the provisions of the Act and of the bye-laws had been resorted to. Hence the cause of increase on the estimate.

4. As to details of expenditure, Statement A. is sufficiently explanatory.

NEW WORKS—LATRINES.—Out of four latrines said to have been constructed in 1868-69 only two were actually completed before the close of that year; the completion of the remaining two and the construction of a fifth were undertaken in the past year. All these latrines having been constructed with sun-burnt bricks, with exception of two standing on best soil, the rest milled in parts for the heavy rains. Care will be taken in rebuilding these and in the construction of future latrines that stones are used for the foundations, if the walls in entire stones were apprehended to be beyond the means of the Commissioners.

The ground of some of these latrines was thorough black cotton soil, which rendered their use during wet weather highly offensive. The levelling and spreading of gravel and sand on the surface of one of these was made during the year. Out of the dust houses proposed, one was actually constructed in front of latrine for storing dry earth, which is intended to be used when cleaning the place. During hot weather a number of temporary trench latrines were formed in fields and durable bamboo mats provided for them to afford privacy to those resorting to them. These were shifted as often as the trenches were filled. All these charges have swelled the expenditure under this head by more than half as much again as the estimate.

SLAUGHTER YARD.—Two are already in existence for beef and mutton butchers. It is under contemplation to select a suitable site for a market and construct durable slaughter yards at convenient distance to it. No expenditure was, therefore, incurred beyond purchasing a small plot of ground for chucklers for cutting up the carcasses of animals.

DUST BOXES.—With a view of providing boxes of cast iron sheets, for the main bazaar street, where absence of space renders the construction of those of stone slabs impossible, not more than ten were constructed of slabs where they were much needed. The delay in extension of the Railway to this town was a bar in supplying the requisite number of iron boxes before the close of the year.

ROADS AND DRAINS.—Though no provision was made in the Budget Estimate, the increased revenue under the disposal of the Commissioners enabled them to lay it out in opening a new road and constructing drains, so absolutely necessary, for the better improvement and drainage of the town. The portion of the main bazaar street leading to the Railway station was selected for being widened and rendered straight. A survey and plan were made and prepared. One or two valuable houses and a number of less significant mud huts offered obstruction. The cost set against "Roads" is that incurred in the payment of compensation to the owners of these estates and in the removal of the obstructions. Some of the detached hills and elevated plains on outskirts drained themselves into the town and did considerable damage to the roads and their side drains repaired and constructed during 1868-69; this has been diverted by an embankment rivetted with stones and an excavation of channels into a nullah draining a portion of the town. The sum under "Drains" has been laid out in this scheme, and partly in building masonry drains in the streets.

CHOLERA CAMPS.—During the raging of cholera in the months of June and July last year, huts were formed at the entrance of the town on the leeward in order to treat the travellers affected with the complaint and thereby arrest the spread of the disease into the town. An item of expen-

16th September 1870.

diture, amounting to Rupees 38, included in the head "Peons, cattle seizure, &c.," under conservancy, was disbursed in comforting and supplying the wants of the pauper cholera-stricken patients, and in whitewashing and daily cleaning their premises in the town.

BURIAL GROUNDS AND OFFENSIVE TRADES.—The town originally entirely of Mahomedan population is so widely bestrewn with ancient and modern tombs of their dead, that the Commissioners deemed it high time for them to submit their representation to the Government with request to order the closing of the existing cemetery, and to accord their sanction to the proposal of providing suitable sites for future graveyard. This was sanctioned in their Order, No. 1077, dated the 3rd August 1869; a plot of forty-three acres were purchased and set apart at the furthest limit of the Municipality, not only for the Mahomedans, but for all the other castes of Hindoos. These have been well-defined by trenches and erection of permanent pillars of stone. Since the promulgation of the order quoted above, the burials are duly made on the appointed spots. Sites have also been provided for the oil-mongers, whose manufacture of oil in densely-populated parts of the town was so repulsive of smell that these classes were made convinced, and have been here erecting houses for the removal of their trade. A similar site has been purchased and allotted to the smith's trade. These had heretofore been keeping their shops right over the main bazaar street, already so narrow and difficult of affording free passage, that they obstructed, at times, the right of public way in exercise of their trade by a number of carts waiting on them on the road for repairs. The striking of sparks of heated iron dust on the frequenters of the road was a proper consideration to pronounce this trade at once dangerous.

REPAIRS—ROADS.—With the exception of Rupees 66-14-0, which were spent in the purchase of tools, the rest of the amount was laid out in repairing the old roads by levelling and gravelling them. The expenditure under this item has fallen far short of the estimate. To spend more than this on roads where repairs were needed was simple waste, without materially improving the number of drains intersecting the town. This has been duly undertaken and explained in the appropriate head.

CLEANING DRAINS AND WELLS.—Half-a-dozen of the public drinking wells were cleaned and two repaired, and a number of cesspools formed during the rainy season was drained and filled.

CONSERVANCY.—The several heads of charges under this item do not call for remarks except "Hire of carts and bullocks," and "Feeding of bullocks and pay of bandymen." In the early part of the official year under review, besides six carts and as many pairs of bullocks purchased and permanently maintained at the Municipal cost, an additional number of half-a-dozen was hired out for removing daily the street sweepings from dust boxes and streets. This mode was considered too expensive, the use of the hired carts were dispensed with, and agreements were entered into with the buffalo-keepers of the town to have all the dust boxes daily emptied not less than once simply for the sake of manure. The working of these animals was found satisfactory. Three more of the Municipal carts that were supernumerary were dispensed with, and the remaining ones now in use are quite adequate for those parts of the town where the construction of dust boxes is impossible owing to want of space except it were cast iron boxes. Arrangements are being made to have as many supplied as may be absolutely wanted.

I may state that, with the exception of visitation of cholera during the year by which 477 souls were swept away, the public health was generally good.

The original formation of this town is so awkward, the streets are so narrow, crooked, and the situation so unfavourable, being considerably depressed below the level of the adjacent hill slopes and plains and the drainage yet so defective, that I think years will have to be spent before the Commissioners are possessed of means of completely improving the town. What has been done is but infinitely small when compared with what remains to be done; and this I hope will be done with the aid of the present Superintendent, Mr. A. Erskine, a man of great experience in the Department of Public Works.

The year's account has been audited by Mr. Ward, Head Master of the Anglo-Vernacular School, and one unconnected with the Commission, and I beg to enclose his certificate.

Proceedings of the Madras Government, Public Department,
16th September 1870.

No. 82. From the President of the Municipal Commission, Adoni, to the Chief Secretary to Government, Fort Saint George, dated Bellary, 14th July 1870, No. 79.

With reference to the Memorandum of the Under Secretary, Public Department, No. 175, dated 5th instant, requiring certain information regarding the accounts of the Adoni Municipality for the past year, I have the honour to submit, in original, a report from the Vice-President, as also an amended Statement C., (Receipts.)

2. This report furnishes the information required.

From V. DORASAWMY IYER, Vice-President of the Municipal Commission, Adoni, to the President of the Municipal Commission, Adoni, dated 13th July 1870, No. 64.

In reply to your order on the copy of Under Secretary to Government's Memorandum, No. 175, I beg to submit the information therein called for as follows:—

2. In answer to paragraph 1 of the Memorandum an amended Statement C. (Receipts) is enclosed exhibiting separately the collections on account of arrear demand. There was no other item under the arrear demand than the Government contribution due for the year 1868-69.

3. A detailed statement of receipts from fines and miscellaneous sources is annexed as directed in paragraph 2.

4. The statement of the Superintendent of Police, showing the whole actual cost of Police, is herewith sent. As directed in the Accountant-General's Circular, No. 2221, dated 5th July 1869, the sum of Rupees 465-6-7 is the one-fourth the amount of Rupees 1861-10-5 due to the Police for twelve months from April 1869 to March 1870 as provided in the Budgets of those years. The former was deducted on the monthly payment to the Police. The latter is the nominal remittance in the Municipal accounts; the actual remittance into the Treasury being the difference of the two sums, namely, Rupees 1396-3-10, which is exactly three times Rupees 465-6-7.

5. In reply to paragraph 4 I beg to explain that the State contribution for 1868-69, as stated in the review of that year's report, is Rupees 2862-9-4, the amount drawn during the year is Rupees 1780-2-1, and not Rupees 1981-4-4 (as would appear from the enclosed copy of the late President's letter to the Treasury Deputy Collector forwarded to me for my information); the balance of the Government contribution was thus Rupees 1082-7-3 due to the Commission, and not Rupees 881-5-0.

6. In answer to paragraph 5 I must state that the whole of the sum of Rupees 589-13-9 was received after the close of the year 1869-70, namely, on the 4th May 1870. The expression "received in part" in Statement C. was meant to denote that the above sum was part payment of the State contribution of Rupees 823-11-9, due on the actual collections of the third quarter.

7. Reply to paragraph 6: the great part of the sums erroneously credited and refunded during 1869-70 was not credited in the Municipal accounts during that year, but in the previous year, and the above refunds were credited to the account are given in the subjoined statement.

8. The item of Rupees 2718, under the head Imperial License-tax, is enclosed in the sum of Rupees 3278 under "Taxes on Arts, Trades, and Professions" in the Statement C. that accompanied the last year's report (1868-69.)

No. 83. From the President of the Municipal Commission, Adoni, to the Chief Secretary to Government, Fort Saint George, dated Bellary, 22nd August 1870, No. 90.

The Superintendent of Police now submits the enclosed revised statement showing the amount expended on account of the Police Force maintained by the

Proceedings of the Madras Government, Public Department,
16th September 1870.

Municipality of Adoni during the official year 1869-70, with the intimation that the one he had already forwarded, and which I had submitted to you with my letter of 14th instant, No. 79, is incorrect, as the "charge for the whole Police employed at Adoni during May, June, and July 1869" was omitted. I have the honour to request you will be good enough to substitute the enclosure for the one previously sent.

No. 84. ORDER THEREON, 16th September 1870, No. 1180.

The foregoing papers show that the Municipal Commissioners of Adoni

	RS.	A.	P.
Rate on Houses and Buildings	4,045	9	4

Other receipts.....	556	8	7
Recoveries.....	0	12	0
Balance brought forward.....	2,145	0	11
Total.....	18,607	9	8

received during 1869-70 from current taxes Rupees 13,068-14-8, from the State Rupees 2836-5-6, of which Rupees 1082-7-3 were arrears, and from other sources and by recoveries Rupees 557-4-7. They commenced the year with a balance of Rupees 2145-0-11, and had thus at their disposal Rupees 18,607-9-8.

2. These receipts far exceeded the estimates, every item but especially tolls exhibiting a considerable excess above the anticipated receipts. The excess is on the whole Rupees 8968-0-3.

3. The expenditure exceeded the estimate by Rupees 4575-13-3, but a portion

	RS.	A.	P.

Total	18,607	9	8

of this, namely, Rupees 1577-11-0, was refunds of sums erroneously credited to the Municipality in former years. The expenditure within the year is shown in the marginal abstract. The outlay on the slaughter yard and in rewards for killing dogs have been transferred to purposes other than those specified in Section 25, and the cost of a cholera camp to conservancy.

4. The cost of the Police was Rupees 1796-5-0, and the proportion directly payable by the Commissioners was Rupees 1347-3-9. They remitted to the Treasury Rupees 1396-3-10, and, therefore, assuming that their payments were made monthly in advance, a sum of Rupees 49-0-1 is to be refunded, and is shown as an advance recoverable in the above abstract.

5. The State contribution for the year is to be struck on the expenditure including the full cost of the Police, and will amount to Rupees 3065-2-4. The Commissioners received during the year Rupees 1753-14-3, since its close Rupees 589-13-9, and by remission of Police charge Rupees 449-1-3, total Rupees 2792-13-3. They are, therefore, entitled to Rupees 272-5-1, which will now be disbursed.

6. The increased revenue of the town appears to be due in some measure to more efficient administration, and the report of the Vice-President shows that considerable improvement has been effected in the town. Conservancy appears to

16th September 1870.

have been especially attended to. There was an outbreak of cholera during the year, but otherwise the health of the town was good. During the epidemic the Commissioners established a cholera camp outside the town, and took other measures to mitigate its virulence. The Government appreciate the services of Dorasawmi Ayyar, the Vice-President.

Superintendent of Police

Public Department
Date Received 21st May 1869.

The Collector of the Treasury to the Government of India
The Secretary to the Government of India

Official Communication
Government of India to the Government of Madras

With reference to the enclosed draft Memo prepared in the Revenue Department for the Collector's signature and which he is requested to sign and despatch the Deputy Collector is requested to note the following remarks.

The Memo is submitted as the state of the in Government Order of 11th November 1868 No 1398 is No 1981 - and that No 1587-4- as stated in the Memo furnished by the Deputy Collector. This discrepancy is the result of mere carelessness and called for an explanation. It shows that neither the Deputy Collector

For my ... Account Department took the trouble to read the Government Order.

The actual state of the case is as follows:

Expenditure for purposes specified in Section 25 { 11450-5-7

Government Contribution on the above { 2862-9-4

Deduct amounts already drawn { 1789-2-1

Balance to the Government { 1082-7-3

Which account under the authority vested in him by Government Order dated 12th August 1869.

the Collector.

the President.

as the balance of the Government Contribution for the year 1868/69.

Public Department

PROCEEDINGS of the MADRAS GOVERNMENT.

Read the following letter

from the
Mg. Magistrate, and President
of the Municipal Commission
Bellary dated 25th June, 14th
July and 22nd August 1870, Nos.
74, 79 and 90.

Order thereon of 16th Sept. 1870. No. 1180.

The foregoing papers
show that the Municipal
Commissioners of Adoni, re-
ceived during 1869-70 from
current taxes Rs 13,068-14-8,
from the State Rs 2834-5-6
of which Rs 1082-7-3 were
arrears, and from other
sources and by recoveries
Rs 557-4-7. They commenced
the year with a balance
of Rs 2145-4-11, and had
thereat their disposal

	Rs.	as	p.
Rate on houses and buildings	4045	9	4
Tolls	5580	0	0
Taxes on carriages &c.	1476	13	0
Carts	334	8	0
License fees	514	5	4
Fines &c.	847	11	0
	13,068	14	8
State Contribution	1,753	14	3
do 1868-69	1,082	7	3
Other receipts	556	8	7
Recoveries		12	0
Balance brought forward	2145	0	11
	18,607	9	8

Ruppes

Receipts 18,607-9-8.

These receipts far exceeded the estimates, every item but especially tolls exhibiting a considerable excess above the anticipated receipts. The excess is on the whole Receipts 8968-0-3.

3. The expenditure exceeded the estimate by Rs 4575-13-3 but a portion of this viz Rs 1577-11-0 was refunded of sums erroneously credited to the Municipality in former years. The expenditure within the year is shown in the marginal abstract. The expenditure on the slaughter yard and on rewards for killing dogs have been transferred to purposes other than those specified

New Works	Rs. 4436-15-4
Repairs	1066-10-9
Conservancy	3017-1-3
Police	1347-3-9
Establishment	1943-10-1
	11,811-9-2
Purposes other than those specified in Section 25	-2624-13-
Advances recoverable	49-0-
	14,485-6-
Balance carried forward	4122-3-
	18,607-9-

specified in Section 25, and the cost of a cholera camp to Conservancy. 22

4. The cost of the police was Rs 1446-5-8 and the proportion directly payable by the Commissioners was Rs 1347-3-9. They remitted to the treasury Rs 1396-2-10, and therefore, assuming that their payments were made monthly in advance, a balance of Rs 49-0-1 is to be refunded and shown as an advance recoverable in the next abstract.

5. The State Contribution for the year is to be ^{including the interest} on the expenditure, and will amount to Rs 3068-8-4. The Commission is also during the year Rs 1788-15-8, and since its close Rs 529-12-9, by remission of police charge, Rs 449-1-3 total

total Rs 272. 13. 3. They
are therefore entitled to
Rs 272. 5. 1 which will
now be disbursed.

6. The increased revenue
of the town appears to be
due in some measure to
more efficient administra-
tion, and the report of the
Till President shows that
considerable improvement
has been effected in the
town. Conservancy appears
to have been especially
attended to. There was an
outbreak of Cholera during
the year, but otherwise
the health of the town
was good. During the
epidemic the Commis-
sioner's establishment
established a Cholera Camp outside
the town and took other
measures to mitigate its
violence.
