*Proceedings of the Madras Government, Public Department,
21st October 1870.*

No. 151. Read the following letter from Colonel G. H. SAXTON, Deputy Superintendent, No. 3, Topographical Party, Central Provinces and Vizagapatam Agency Survey, to the Chief Secretary to Government, Fort Saint George, dated Ootacamund, 19th September 1870, No. 99 :—

I have the honour to request that the usual authority of Government may be given to meet the requirements of my survey party for the approaching field season, as follows.

2. The Treasury Officers in Ganjam and Vizagapatam to make advances, on my receipt and responsibility, to the extent of pay, &c., to my whole establishment, in advance, up to the end of January, to be issued before marching to the field early in December, and, subsequently, for current months, until return to quarters in April or May.

3. The Inspector-General of Police to supply the usual police guards for myself and ten or twelve assistants, all employed in detached parties, chiefly in Jeypore Proper, but some in Bustar, and four surveyors, for part of the season, in the Sowrah Hills. With reference to the Sowrah Survey, I have to report that my own duties last season, triangulating, were completed quite satisfactorily, and the whole tract is now in complete preparation for my detail surveyors, four of whom will be employed on it from the beginning of the season until completion, when they will rejoin the rest of the party in Jeypore. For these four surveyors, I request that special police arrangements may be made to ensure their uninterrupted progress. On completion of the work, the senior surveyor will be directed to report to the police authorities when the special arrangements will be no longer required, but request that a small guard may be allowed to accompany the combined party marching from the Sowrah Hills to rejoin my camp, or elsewhere in Jeypore.

4. My party has been without any medical subordinate since our return to quarters after last field season. I request that an Assistant Apothecary may now be appointed to remain permanently in medical charge, as I have felt much inconvenience from being without one during the current recess, and also an experienced Native Dresser for the field season. The latter will be employed with the surveyors in the Sowrah Hills, and a duly qualified and suitable man should be appointed.

5. The Assistant Apothecary and Native Dresser should be available for duty at Vizianagram not later than 1st December next, as much preparation has to be made for supplying the several detached parties with made-up medicines, &c. The police arrangements I would make in communication with the District Superintendent,* as may be necessary, after 1st December.

* In Vizagapatam.

6. I shall be glad to be authorized to indent upon the Camp Equipage Department, at Vizagapatam, for a few sepoy's tents, not more than four, in case I may need them; I will provide carriage and lascars. I have difficulty in providing needful shelter for medical subordinates and police, who join the party without any provision in the way of tentage.
