*Proceedings of the Madras Government, Public Department,
27th October 1870.*

No. 191. Read the following letter from the Supervisor, Government Press, to the Chief Secretary to Government, Fort Saint George, dated Fort Saint George, 1st October 1870, No. 999 :—

I have the honour to submit the Budget of the Government Press for 1871-72, of which a copy has, as usual, been forwarded to the Accountant-General.

2. The amount of the budget is Rupees 1,80,416 ; but from this is to be deducted the amount which, under the Order of the Government of India, No. 1035, dated 7th June 1870, will be, in the first instance, provided in the budgets of Public Officers employing the Press, and, on the execution of the work, will be transferred to credit of the Press. In compliance with instructions from the Accountant-General, endeavours have been made to ascertain from those Officers the probable amount of their requirements for the year ; but, the information not being obtained, I have been compelled to base the estimates upon the actual work done in 1869-70 for the several offices, as particularized in the statement enclosed in the budget. I have, therefore, to request that, if the Press grant be fixed at the net amount, viz., Rupees 1,34,918, steps may be taken to secure that the necessary additions are made to the budgets of such of the Officers concerned as may not make themselves provision for their printing work. Of the Officers who use the Press, some are subordinate to the Military and some to the Public Works Departments ; and I have, therefore, sent extracts from the statement, together with a copy of this letter, to the Secretaries to Government in those departments, in view to the necessary provisions being made.

3. The variations in the details of the budget, as compared with the current year, are due to the changes in the permanent establishment recommended in my letter, dated the 30th August 1870, and to the inclusion of a sum of Rupees 12,000 under the head " Compositors, &c.," for the printing of the Vernacular Acts. Rupees 5,000 have been provided for the purchase of vernacular types for the same purpose, under the head " Purchase of Material," thus making up the sum of Rupees 17,000, hitherto provided in the budgets of the Government Translators. The outlay for the purchase of type will not be an annually recurring charge ; the type is necessary at the outset.

No. 192. ORDER THEREON, 27th October 1870, No. 1380.

It appears from the Budget Estimate of the Government Press, submitted by the Supervisor with the foregoing letter, that an outlay of Rupees 1,80,416 will be necessary in 1871-72. Of this amount Rupees 45,498 will be provided for by the several Officers who employ the Government Press, and the balance, Rupees 1,34,918, charged to the Press.

Proceedings of the Madras Government, Public Department,
27th October 1870.

2. The amounts to be charged to the several departments, excluding contingent charges, are—

	RS.
Public, &c., Departments	71,960
Revenue Department	6,920
Public Works do.	13,178
Military do.	9,076
Revenue Board do.	17,280
	1,18,414
Salaries of certain servants, contingencies, and purchase of materials... ..	62,002
Total...	1,80,416

3. Compared with the estimate for 1870-71, the charges for 1871-72 in the Public, &c., Departments and in the Military Department are less. In the Revenue and Public Works Departments there is a small increase of Rupees 780.*

4. The aggregate of the estimate for 1871-72, however, is less than the current year's estimate by Rupees 6,784. This is satisfactory, considering that all the book-work, the printing of the translations of the Acts, and the work done for the High Court, which were formerly executed on contract, are now undertaken at the Government Press.

5. It is observed that Heads of Departments have been called upon by a circular memorandum to include in their respective estimates the cost of the work likely to be executed in the Government Press Department.
