No. 193. Read the following letter from the Inspector-General, Indian Medical Department, to the Chief Secretary to Government, Fort Saint George, dated Fort Saint George, 4th October 1870, No. 239 :—

I have the honour to forward, for submission to Government, the Civil Budget Estimate of the Medical Department for the year 1871-72, with the following remarks as to the causes of variation between the present and the estimate immediately preceding.

2. MEDICAL SERVICE.—The gross amount for this year, with the addition of the Medical College Budget, is less than that of the revised budget of last year to the extent of Rupees 10,762, notwithstanding the provision for printing, &c., for the use of this office to the extent of Rupees 500, agreeably to Notification of Government of India, No. 1035, dated 7th June, published in the *Fort Saint George Gazette* of date 28th June 1870, page 806, the provision for the pay of Hospital Assistants ordered to prosecute their studies at the Medical College for Sub-Assistant Surgeons (*vide* G. O. G. G., No. 550 of 1868, paragraph 34, and the Order of Government, Military Department, No. 2084, dated 27th July 1870), the stipends of Medical Pupils to be entertained in 1871-72, and house-rent and staff allowance for Apothecaries included agreeably to orders as per margin. The decrease is attributable to the deduction made on account of the allowances of the Officer appointed to

Vide Order of Govt., Public Dept., No. 792, dated 23rd June 1870, and G.O. G. G., No. 981, dated 2nd October 1869.

investigate cholera, sanctioned in Proceedings of Government, Public Department, No. 1215, dated 31st August 1869, but disallowed by Order of Government, Financial Department, No. 542, of date 8th November 1869, and on account of jail allowances as sanctioned in Order of Government, Judicial Department, No. 1885, dated 29th November 1869.

3. FOREIGN SERVICE.—The increase under this head is owing to the promotion of the Assistant Surgeon to that of Surgeon.

4. HOSPITALS AND DISPENSARIES.—The increase under this head is owing to the inclusion of house-rent (*vide* Order of Government, Public Department, No. 792, dated 23rd June 1870), as well as to the addition of stipends of Native Medical Pupils after passing the preliminary examination, agreeably to the Order of Government, Educational Department, No. 273, dated 12th August 1869, also the pay of

* *Vide* Order of Govt., Public Dept., No. 1217, dated 31st August 1869.
† Do. do. No. 684, dated 31st May 1870.

Hospital Assistants for the Dispensaries at the taluqs of Tritrapundi* and Sydapett†. Provision is made on account of assessment and repairs of the building occupied as the Eye Infirmary, and extra railway fare and carriage hire required on account of medicines to be despatched to the various Civil Dispensaries, &c., in consequence of the abolition of Medical Depôts at Bangalore, Bellary, and Trichinopoly—*vide* Order of Government, Military Department, No. 1788, dated 24th June 1870.

5. VACCINE ESTABLISHMENT.—The gross amount is less than that of last year, notwithstanding the provision of Rupees 25 for each Deputy Superintendent, to cover expenditure for stamps, sealing-wax, &c., they being placed on the official list as privileged officers. The decrease is owing to the discontinuance of the provision on account of rice for the use of subjects vaccinated at Provincial Civil Dispensaries, as it is understood that the same has never been drawn.

21

*Proceedings of the Madras Government, Public Department,
27th October 1870.*

6. LUNATIC ASYLUMS.—The increase under this head is owing to the inclusion of employed allowance for the Apothecary, Lunatic Asylum, Madras, and of the stipends of pre-collegiate Native Medical Pupils doing duty at the Asylum, agreeably to the Order of Government, Educational Department, No. 273, of date 12th August 1869; also the pay of the scavenger increased and the entertainment of a female scavenger, sanctioned in Order of Government, Judicial Department, No. 954, dated 14th July 1870, and the increased diets, &c., required by the Medical Officers in charge of the Asylums at Trichinopoly and Vizagapatam. The former states that diets are re-arranged in conformity with experience of the past year and with probable increase of patients; and the latter observes that the increase is on account of increased number of patients, as the new Asylum is now advancing towards completion.

7. MARINE ESTABLISHMENT.—The increase under this head is owing to the addition of employed allowance, agreeably to G. O. G. G., No. 931, of 2nd October 1868.

8. REVENUE.—The increase under this head is owing to the addition of Hospital Assistants, *vide* Order of Government, Public Department, No. 323, dated 16th March 1869.

9. POLICE.—The increase under this head is owing to the addition of the employed allowance* and house-rent, *vide* Order of Government, Public Department, No. 792, dated 23rd June 1870.

10. JAILS.—The decrease under this head is owing to the abolition of the Jails at Chicacole and Dodabet, &c.

11. GENERAL OBSERVATIONS.—The various causes which influence the estimate now submitted have been specified above, and the authority is quoted against each item of variation. I trust, therefore, the estimate may be deemed satisfactory. In consequence of the Medical College Estimate being transferred from the Educational to the Medical Service, the general estimate was unavoidably delayed owing to the non-receipt of the Medical College Budget up to the 28th ultimo; and, as the remarks of the Director of Public Instruction on the budget were only received yesterday, I beg the delay in forwarding the general budget may be overlooked, and the same passed in its integrity.

No. 194. ORDER THEREON, 27th October 1870, No. 1382.

With the foregoing letter, the Inspector-General, Indian Medical Department, submits the Budget Estimate of his Department for the year 1871-72, and begs that the same may be passed in its integrity.

2. The form in which the estimate of the Medical Department is prepared does not admit of a ready comparison either with the Budget Estimate as sanctioned by the Government of India, or with the accounts of expenditure furnished by the Accountant-General. The Government resolve, therefore, to request the Inspector-General, Indian Medical Department, to prepare and submit, in communication with the Accountant-General, an abstract of his estimates precisely in accordance with the Budget Estimates as sanctioned by the Government of

*Proceedings of the Madras Government, Public Department,

India. On the receipt of this abstract, the Government will pass final orders on the estimates of the Medical Department.

3. In the meantime, the Government deem it advisable to point out to the Inspector-General, Indian Medical Department, that the sums entered in his estimates as being the sums sanctioned by the Government of India for 1870-71 do not correspond with the sanctioned estimates, *e. g.*—

Medical Colleges and Schools	87,006	73,680
Lunatic Asylums	63,964	65,560

4. The inclusion of the details of the "Medical Colleges and Schools" under the general head of "Medical Establishment" is also not correct. The details should have been given separately as in the case of "Vaccine Establishment." The Inspector-General will arrange for having this done now.

5. The Inspector-General, Indian Medical Department, will observe from the marginal statement

any increase over the estimate for 1870-71, and arrangements must, therefore, be made for reducing the estimate for 1871-72 accordingly.

6. As remarked above, the estimate submitted by the Inspector-General, Indian Medical Department, does not admit of a ready comparison with the estimate sanctioned by the Government of India; but the Government notice that, in the estimate for 1871-72, there is an increase, under "Hospitals and Dispensaries," of three 1st Class Apothecaries, involving an additional charge of no less than Rupees 9,360. The Government do not see the necessity for putting these highly-paid officers in places which could be appropriately filled by men in the second class and at a less cost.

7. The cost of dieting, viz., Rupees 79,060, seems also a heavy charge against the State, and the Government think that measures should be taken to reduce the expenditure under that head, as well as under "Annual and half-yearly supplies" and "Contingencies," so as to

Rupees 35,150 and
Rupees 16,026.

bring the aggregate of the outlay for 1871-72 to the limit of the estimate for the current year.

8. Abstracts of the estimates to be debited against "Law and Justice," "Jail Department," "Police," and "Revenue" will also be prepared in the form of the Budget Estimate, and the figures for 1870-71 should represent the amounts actually sanctioned, and not those inserted by the Inspector-General, Indian Medical Department, in the estimate submitted by him for that year.

9. The Inspector-General will include in his estimate the sums of Rupees 1-8-0, 119-8-0, 1-8-0, 2300-13-0, 38-8-0, 3-12-0, 15-8-0, 27-4-0, 172-0-0, 1104-0-0, 4-12-0, 2-8-0, and 39-4-0, indicated in the Memorandum sent to him, on the 7th instant, on account of work likely to be done in the Government Press.

10. Provision should also be made for the repair and purchase of furniture in 1871-72.

The Government resolve therefore to request the Inspector General, Indian Medical Department, to prepare and submit, in communication with the Accountant General, an abstract of his estimates precisely in accordance with the Budget Estimates as sanctioned by the Government of India. On the receipt of this abstract the Govt will pass final orders on the estimates of the Medical Department.

4. The inclusion of the details of the Medical College and Schools under the general head of "Medical Establishment" is also not correct. The details should have been given separately, as in the case of Vaccine Establishment. The Inspector General will arrange for having this done now.

5. The Inspector General Indian Medical Department will observe from the marginal statement that the estimates for 1871-72

not only exceeds the sanctioned Estimate for 1870-71, but exceeds by Rs. 1,36,483, the average expenditure during the last three years. The Government are precluded, in the present state of the finances, from sanctioning any increase over the estimate for 1870-71, and arrangements must therefore be made for reducing the Estimate for 1871-72 accordingly.

O. A. remarked above, the Estimate submitted by the Inspector General, Indian Medical Department, does not admit of a ready comparison with the estimate sanctioned by the Government of India, but the Government notice ^{with in} the Estimate for 1871-72 that there is an increase under Hospitals and Dispensary, if three ~~at~~ class apothecaries, involving

be prepared in the form of the Budget Estimate - and the figures for 1870-71 should represent the amounts actually sanctioned, and not those inserted by the Inspector General, Indian Medical Department in the Estimate submitted by him for that year.

9. The Inspector General will include in his Estimate the sums of Rs 49-8; 1-8; 19-8; 1-8; 2300.13; 30.8; 2.12; 15-8; 27-4; 172--; 1104; 4-12; 2-8; 4-8; and 39-4; indicated in the Memorandum sent to him on the 7th instant, on account of work likely to be done in the Government Press.

10. Provision should also be made for the repair and purchase of furniture in 1871-72.

If the estimate for the current year does not include these changes & if the estimate for the ensuing year is not made, the latter must stand the former work. There is a pro tanto reduction under this head.
