No. 10. Read the following letter from the President of the Municipal Commission, Conjeveram, to the Chief Secretary to Government, Fort Saint George, dated Sydapett, 20th October 1870, No. 241 :—

As requested in paragraph 3 of the Proceedings of Government, dated 4th March last, No. 265, I have the honour to forward fresh sets of estimates, framed with reference to the Towns' Improvement Bill, for the second half of the year, consisting of five months, with explanations as to the cause of variation between the estimate already submitted under the Act in force and that now prepared.

No. 11. ORDER THEREON, 2nd November 1870, No. 1414.

The new Bill will not be in force during the period to which these estimates refer.

2. Estimates framed under the existing law for the whole year 1870-71 have already been sanctioned by Government.

(True Extract).

Chief Secretary.

To the President of the Municipal Commission, Conjeveram.

The increase was sanctioned by Government under date the 15th August 1868 for 40 new lights. The present number is 60. The expenditure will not appear in the estimate for 1871-72.

Provision is made for the support of elementary schools only. The Dy Inspector of Schools states that the existing number of schools are sufficient to meet the requirements of the Town.

This expenditure was already incurred in the beginning of the year.

These two items have now been separated as they have no connection with each other. The amount now paid is 1000% but under the new act the sphere of the Auditor's duties is enlarged. Hence the increase.

The establishment was entertained for the collection of the arrears outstanding for the past years and will be discontinued before the close of the present year.
